MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE A – DESCRIPTION OF THE PLAN

The following description of the Makino MOTE 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering substantially all full-time employees (as defined) of Makino Inc. (the “Company”) not covered under a bargaining unit agreement. The Plan is administered by the Company through its Retirement Committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

2. Contributions

Participants may contribute up to 100% of annual compensation to the Plan either in pre-tax or Roth deferrals, subject to Internal Revenue Code (“IRC”) limitations. The Company contributes 100 percent of each participant's elective deferrals not exceeding 3 percent of the participant's compensation, plus 50 percent of each participant's elective deferrals in excess of 3 percent but not in excess of 5 percent of the participant's compensation.

3. Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's matching contribution and Plan earnings. Allocations of Plan earnings are based on the investment options selected by the participant and their related account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Currently, participants are immediately vested in their contributions, employer contributions, and the earnings thereon. Prior to Plan year 2009, participants vested in their contributions immediately, however, employer contributions were subject to a 3-year cliff vesting term.

5. Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2%, which is commensurate with local prevailing rates as determined by the Plan administrator. A participant may only have one outstanding loan at any one time and loan terms may not exceed 5 years.

6. Payment of Benefits

Participants become eligible for benefit payments upon separation of service due to death, disability, retirement, or termination. Benefit payments are made as a lump-sum amount equal to the value of the participant's account. The Plan allows withdrawals prior to termination of employment after a participant has attained the age of 59 ½. This distribution is limited to the balance of the participant's salary deferral accounts.

MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE A – DESCRIPTION OF THE PLAN (continued)

6. Payment of Benefits (continued)

Participant's may not withdraw any amounts in the employer profit sharing or matching contribution accounts. The Plan also allows for a "financial hardship" withdrawal of before-tax contributions for participants under age 59 ½ years in case of demonstrated "financial hardship", as defined by the Plan document.

7. Expenses of the Plan

All administrative expenses are paid by the Plan unless the Company elects to pay such expenses. Certain Plan expenses are paid by the Company.

8. Forfeitures

At December 31, 2013 and 2012, forfeited, non-vested accounts totaled \$34 and \$4,423, respectively. These accounts will be used to reduce future employer contributions. Also, in 2013, employer contributions were reduced by \$4,829 from forfeited, non-vested accounts.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

2. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for the fully benefit-responsive investment contract, which is valued at contract value (Note C). Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits as of the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If any scheduled loan repayment is not made by the end of the calendar quarter following the calendar quarter in which the missed payment was due, the Plan administrator deems the participant loan to be in default. Defaulted participant loans are reclassified as distributions based upon the terms of the Plan document.

MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (continued)

5. Payments of Benefits

Benefit payments to participants are recorded upon distribution.

6. Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed fund contract, which is a fully benefit-responsive investment contract, through Principal Life Insurance Company. The Statements of Net Assets Available for Benefits, as of December 31, 2013 and 2012 present the fair value of the investments in the fully benefit-responsive investment contract as well as the adjustment of the investment in the fully benefit-responsive investment contract from fair value to contract value relating to the investment contract. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

7. Subsequent Events

The Plan administrator evaluated its December 31, 2013 financial statements for subsequent events through October 3, 2014, the date the financial statements were available to be issued. The Plan administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

NOTE C – GUARANTEED FUND CONTRACT

The Plan maintains a guaranteed fund contract with Principal Life Insurance Company. The account is credited with a stated rate of return and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal Trust Company.

As described in Note B, because the guaranteed fund contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed fund contract. Contract value, as reported to the Plan by Principal Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the fund contract at December 31, 2013 and 2012 was \$9,959,241 and \$10,896,934, respectively. The average yield and crediting interest rates were approximately 3.45% and 4.03% for 2013 and 2012, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a semiannual basis for resetting.

MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE C – GUARANTEED FUND CONTRACT (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents or change in administrative practices which could adversely affect issuer's financial experience, (2) operation of competing investment options, or (3) the creation of another savings program, pension or profit sharing plan which Plan participants are eligible to contribute by payroll deduction. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE D – TAX STATUS

The Internal Revenue Service issued a letter dated July 6, 2010, stating that the Plan was designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants who are not already fully vested will become fully vested in the employer contributions portion of their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and restricted in such a manner as the Company may determine.

NOTE F – CERTIFIED INFORMATION

The Plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the trustee, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as of December 31, 2013 and 2012
- Interest and dividend income for the year ended December 31, 2013
- Net appreciation (depreciation) in fair value of investments for the year ended December 31, 2013

NOTE G – INVESTMENTS

The following presents investments that have fair value in excess of five percent of the Plan's net assets as of December 31:

During 2013 the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value as follows:

Mutual Funds	\$ 6,662,443
Pooled Separate Account	239,863
	<u>\$ 6,902,306</u>

NOTE H – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is based on a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE H – FAIR VALUE MEASUREMENTS (continued)

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds – Valued at quoted market prices of shares held by the Plan at year-end.

Pooled Separate Account (PSA) – Valued based on the net asset value (“NAV”) of the account's underlying investments using information reported by the investment advisor.

Investments valued at NAV, as a practical expedient, as of December 31, 2013 and 2012 consisted of a pooled separate account. The NAV of this investment is determined using the market value or fair value if market data is unavailable, of the underlying securities.

The PSA is invested in a broad mix of underlying mutual funds. The PSA can be redeemed at NAV as of the measurement date and as such, is categorized as a Level 2 fair value measurement. In order to prevent excessive or abusive trading, the Company may prescribe rules that limit the number of transfers between funds that participants can make. There are no other restrictions on redemptions.

Guaranteed fund contract (GFC) – Valued based on the amount Plan participants would receive currently if they were to withdraw prior to maturity. The fair value represents contract value adjusted to reflect current market interest rates only to the extent they exceed the guaranteed interest rate. The contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. See Note C – Guaranteed Fund Contract.

The following table presents certain quantitative information about the significant unobservable inputs used in the Level 3 fair value measurements as of December 31, 2013 and 2012:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Rates
Guaranteed Fund Contract	Disclosure Provided	Assumed proceeds at discontinuation	Current Rate	2013: 1.61 - 3.95% 2012: 1.64 - 2.68%
			Guaranteed Interest Rate	2013: 0.86 - 5.82% 2012: 1.40 - 5.82%

MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE H – FAIR VALUE MEASUREMENTS (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE H – FAIR VALUE MEASUREMENTS (continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

Guaranteed fund contract	
Balance, beginning of year	\$ 10,896,934
Realized gains (losses)	-
Unrealized gains (losses) relating to instruments still held at the reporting date	(153,684)
Purchases	4,102,934
Sales	(5,249,768)
Interest Credited	362,825
Balance, end of year	\$ 9,959,241

The GFC is presented in the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value. The Plan monitors the valuation of the GFC by obtaining Principal's certified investment information relating to fair value disclosures for defined contribution plans and reviewing the information related to the market value calculation to determine its appropriateness.

Unrealized gains/(losses) from the guaranteed fund contract are not included in the Statement Of Changes in Net Assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE J – RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and a pooled separate account managed by Principal Trust Company. The Plan also holds a guaranteed fund contract through Principal Life Insurance Company. Principal Trust Company and Principal Life Insurance Company are the trustee and custodian, respectively, for the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian for the investment management services amounted to \$45,852 for the year ended December 31, 2013.

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE K – PROHIBITED TRANSACTIONS

During the years ended December 31, 2013 and 2012, the Company failed to remit to the Plan's trustee certain participant contributions totaling \$1,352 and \$1,260, respectively, within the period prescribed by the Department of Labor regulations. These contributions were considered non-exempt, party-in-interest transactions. Delays in remitting contributions to the trustee were due to administrative errors and the Company made contributions during the year ended December 31, 2013 to the affected participants' accounts for the amount of delinquent contributions plus an additional amount to compensate those participants for potential lost income due to the delays.

NOTE L – RECONCILIATION TO FORM 5500
