NOTE 1 – DESCRIPTION OF PLAN

The following description of The Tides' 401(k) Plan (the Plan) provides only general information. The Plan's sponsor is Robert Bugatto Enterprises, Inc. (the Company). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan was established on January 1, 1999 to provide retirement benefits for the employees of the Company. The Plan is a single employer defined contribution retirement plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 "ERISA". The Plan was amended and

restated effective January 1, 2009 to be a safe harbor 401(k) plan. The Plan Sponsor's Board of Directors is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan Sponsor's Board of Director's.

Eligibility – Employees of the Company become participants in the Plan on the first day of the month following twelve months of employment, providing they have attained age twenty-one and completed 1,000 hours of service.

Contributions – A participant may make salary reduction contributions up to 90% of their pre-tax eligible compensation to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). Deferral contributions are subject to a maximum limitation as provided in the Internal Revenue Code. The maximum contribution of pretax compensation that a participant could defer in 2013 was $17,500, and the maximum catch-up additional deferral for participants who reached the age of fifty by the end of the 2013 plan year was $5,500.

The Plan is a safe harbor 401(k) plan and the Company contributes an employer safe harbor match contribution of 100% of each participant's deferred contributions on the first 4% of each participant's compensation which is deferred as a participant deferral contribution. The Company contributed $50,355 in safe harbor matching contributions in the year ended December 31, 2013. Employer safe harbor contributions receivable totaled $50,355 and $44,118 at December 31, 2013 and 2012, respectively.

The Company may also contribute a discretionary non-elective contribution. The Company did not contribute a discretionary non-elective contribution in the year ended December 31, 2013.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Investment Elections – The participant contributions and the company contributions are allocated to the various investment options offered by the Plan as directed by participants.

Participant Accounts - Participant's salary reduction contributions are credited to his or her salary reduction account, employer match contributions are credited to his or her employer match contribution account, employer safe harbor match contributions are credited to his or her employer safe harbor match contribution account, and rollover contributions from other qualified plans are credited to his or her rollover account. All such amounts were held in individual, participant directed accounts in investment options offered under the plan and held by State Street Bank and Trust Company, and each participant received their accounts' investment results from ADP Retirement Services. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's accounts.

Vesting - A participant is always fully (100 percent) vested in his or her salary reduction account, employer safe harbor match contributions, and rollover contribution account, plus actual earnings thereon. Participants vest in the Company's matching and non-elective contribution portions of a participant's account based on a six year graded vesting schedule. Participants with less than two years of credited service are not vested in any of the Company's matching or non-elective contributions.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms generally range from one to five years, but can be up to 15 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account. A participant's account is charged monthly interest on the outstanding loan balance. In 2013 interest rates on loans were 5.25% per annum. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits - On termination of service, a participant may elect to receive a lump-sum amount equal to the value of the vested portion of his or her account. If a participant's balance is less than $1,000, the Company may cash-out the entire vested account balance. It a participant's balance is less than $5,000, but greater than $1,000, the Company may roll the vested account balance into an IRA.

Forfeited Accounts - Available forfeitures of the nonvested portion of terminated participants' accounts may be used to reduce employer contributions and pay administrative expenses of the Plan. There were no available forfeitures at December 31, 2013 and 2012.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments in mutual funds are reported at fair value. Investments in common collective trust are reported at contract value which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's plan administrator determines the Plan's valuation policies utilizing the information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to notes receivable from participants and benefit distributions are charged directly to the participant's accounts and are included in administrative expenses. Fees related to recordkeeping, investment advisory and investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events – The plan has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan's investments are held by State Street Bank and Trust Company (State Street). The following table presents investments at December 31, 2013 and 2012. Investments that represent five percent or more of the Plan's net assets are separately identified:

	December 31, 2013	December 31, 2012
Investments in Mutual Funds:		
Goldman Sachs Growth & Inc Strategy R	$447,632	$373,026

Invesco Charter R	$207,150	$153,296
Goldman Sachs Equity Growth Strategy R	$194,791	$150,479

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $230,083 as follows:

	Year Ended December 31, 2013
Mutual Funds:	
Growth	$ 117,318

International	4,036
Value	104,415
Balanced	2,838

Common Collective Trusts	1,904
	$230,083

NOTE 4 – FAIR VALUE OF ASSETS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds
Mutual Funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trusts
A Collective Investment Trust's (CIT) NAV is based on the market value of its underlying investments held by the fund less its liabilities. The NAV is not a publicly quoted price in an active market. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. CIT investments may be redeemed at NAV as of the measurement date.

NOTE 4 – FAIR VALUE OF ASSETS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

NOTE 5 – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan management instructed the plan's independent auditor not to perform any auditing procedures with respect to the following information certified by State Street Bank and Trust Company as complete and accurate, except for comparing such information certified by the trustee with information included in the plan's financial statements and supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year).

	For the Year Ended December 31, 2013	2012
Investments, at fair value	$1,563,854	$1,204,658
Notes Receivable from Participants	2,522	26,163
	$1,566,376	$1,230,821

Net appreciation in fair value of investments	$230,083
Dividends	37,101
Interest Income of Notes Receivable from Participants	153
	$267,337

NOTE 6 – SERVICE AGREEMENT WITH AUTOMATIC DATA PROCESSING, INC.

The Plan holds a service agreement with Automatic Data Processing, Inc. (ADP). Under the terms of the agreement, participants may direct the investment of their contributions and account balances amongst the various investment options offered under this agreement.

The service agreement provides that ADP will provide record keeping services, accumulate and invest participants' contributions in investment funds in investment options offered by ADP as instructed by Plan participants and to pay participant benefits as provided by the Plan when they become due.

State Street Bank and Trust Company is the Plan's directed trustee and holds the Plan's investments. Recordkeeping and brokerage services are provided by ADP.

NOTE 7 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are units of collective trusts managed by State Street Corporation which is affiliated with State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. ADP provides recordkeeping and investment advisory services to the Plan. Indirect fees incurred by the Plan for the recordkeeping, investment advisory, and investment management services are included in net appreciation in fair value of the investment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

NOTE 8 – TAX STATUS

The Automatic Data Processing Prototype 401k and Profit Sharing Plan adopted by the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net income is exempt from income taxes. The prototype plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan currently designed and being operated incompliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and state taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE 11 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In accordance with generally accepted accounting principles, the financial statements are presented on an accrual basis and the Form 5500 Schedule H is presented on the modified cash basis of accounting. This results in differences between the financial statements and Form 5500.

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:
