NOTE 1: DESCRIPTION OF PLAN

The following description of the Insultech, LLC 401(K) Plan (the Plan), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering substantially all employees of Insultech, LLC (the Company). Active employees are eligible to participate in the Plan on the first entry date, January 1st or July 1st, immediately following their hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS AND FUNDING POLICY

Participants may contribute their pretax annual compensation, subject to IRS limitations, as defined in the Plan. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans, excluding after-tax employee contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may elect to make a safe harbor matching contribution, in an amount equal to 100% of the participant's salary deferrals up to 6% of eligible compensation. The Company may also make a discretionary matching contribution and a discretionary profit sharing contribution to the Plan on behalf of all eligible participants. Employees are eligible to receive the discretionary matching contribution and discretionary profit sharing contribution upon attainment of age 21 and completion of one year of service. Employer contributions are funded in the subsequent year, prior to filing the Company tax returns. During the years ending December 31, 2013 and 2012, the Company elected to make a safe harbor matching contribution in the amount of $115,639 and $106,314, respectively.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contributions, employer's matching contributions, employer's profit sharing contributions and an allocation of the Plan's earnings and losses. The Plan's administrative expenses are also allocated and charged to each participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately vested in their contributions and employer safe harbor matching contributions, plus any earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions and earnings thereon, is based on years of continuous service. A participant becomes 100 percent vested after six years of credited service, or if they are an employee upon retirement, disability, death, or termination of the Plan.

NOTE 1: DESCRIPTION OF PLAN, Continued

INVESTMENT OPTIONS

Each participant directs employee and employer contributions to his or her account among different investment options offered by the Plan. These investment options are comprised of pooled separate accounts, a guaranteed interest account, and a mutual fund. Investment balance reallocations may be made at any time.

PAYMENT OF BENEFITS

Upon attainment of age 59 1/2, termination of service, due to death, disability, normal retirement age of 65 or early retirement age of 55 and at least 6 years of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Under certain circumstances, participants may make a financial hardship withdrawal.

FORFEITED ACCOUNTS

A participant's unvested portion of Company contributions is forfeited upon termination of employment for reasons other than death or permanent disability. Forfeitures are used to pay administrative expenses and then used to offset employer contributions. At December 31, 2013 and 2012, forfeited nonvested accounts totaled $3,279 and $2,605, respectively. In 2013, no forfeitures were used to pay administrative expenses or employer contributions.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime plus 1%. Principal and interest are paid ratably through after tax payroll deductions.

ADMINISTRATIVE EXPENSES

Management has elected to have the Company pay for most of the administrative and auditing costs of the Plan. For the year ended December 31, 2013, expenses paid by the Plan administrator were approximately $3,000.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared on the accrual basis of accounting.

USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management and the Plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts. There is no adjustment to the fully benefit-responsive investment contract from fair value to contract value as the contract value approximates fair value, as reported to the plan administrator by American United Life Insurance Company (AUL), the custodian of the Plan. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis, which approximates fair value.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

GUARANTEED INTEREST ACCOUNT

The Plan's fully benefit-responsive guaranteed interest account (AUL Fixed Interest Account) is maintained by AUL's general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract can be subject to a market value adjustment upon contract termination. The investments in the AUL Fixed Interest Account are $348,569 and $328,090 at December 31, 2013 and 2012, respectively, and are included in the statements of net assets available for benefits under "Investments at fair value". The contract value is equal to the principal balance plus accrued interest. The guaranteed interest account is considered fairly valued at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return AUL expects on new investments made and held within the AUL general account, and will always equal or exceed the contractually guaranteed rate. Certain events limit the Plan's ability to transact at contract value with AUL. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events, that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The average contract value yield credited to participants for 2013 and 2012 totaled 1.78% and 1.76%, respectively.

POOLED SEPARATE ACCOUNTS

The Pooled Separate Accounts are amounts allocated to variable investment accounts within an AUL separate account which is credited to a participant's account in the form of accumulation units. The value of an accumulation unit of any investment account is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions received by AUL and the daily equivalent of any fee charged by AUL pursuant to the contract. The value of each accumulation unit is published each business day. Each investment account is invested by AUL exclusively in shares of a specific mutual fund or other investment entities as directed by the contractholder.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan document.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTE 3: INVESTMENTS REPRESENTING FIVE PERCENT OR MORE OF NET ASSETS AVAILABLE FOR BENEFITS

The following table presents the fair value of investments measured on a recurring basis at December 31, 2013 and 2012, that represent 5% or more of the Plan's net assets available for benefits.

NOTE 5: FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 6: INCOME TAX STATUS

The Plan has adopted a Prototype Non-standardized Profit Sharing Plan, in which the Internal Revenue Service has determined by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable requirements of the Internal Revenue Code. Therefore, the income of the Plan is exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years before 2010.

NOTE 7: RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012, to Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	**$ 1,837,821**	$ 1,439,685
2012 Employee receivable not reported	**-**	(7,891)
Net assets available for benefits per the Form 5500	**$ 1,837,821**	$ 1,431,794

The following is a reconciliation of the net increase in net assets per the financial statements for the year ended December 31, 2013 to Schedule H of Form 5500:

	2013
Net increase in net assets per the financial statements	**$ 398,136**
Add: adjustment for participants' 2012 contributions receivable	**7,891**
Net increase in net assets per Schedule H of Form 5500	**$ 406,027**

NOTE 8: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as, interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9: PARTY-IN-INTEREST

Certain Plan investments are units of pooled separate accounts that are managed by OneAmerica and a stable value fund contract that is managed by American United Life Insurance Company. OneAmerica is the Plan's third-party administrator and American United Life Insurance Company is the Plan's custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 10: SUBSEQUENT EVENTS

The Company has evaluated subsequent events through October 10, 2014, the date that the financial statements were available to be issued. No events were noted that existed as of the financial statements' date or that arose subsequent to the financial statements' date.
