Report of Independent Auditors

The Plan Administrator
The Merieux NutriSciences & Subsidiaries Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Merieux NutriSciences & Subsidiaries Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entities that certified the investment information meet the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2013 and 2012, and for the year ended December 31, 2013, stating that the investment information provided to the plan administrator is complete and accurate.

The Merieux NutriSciences & Subsidiaries Retirement Plan

Notes to Financial Statements

December 31, 2013

1. Description of the Plan

The following description of The Merieux NutriSciences & Subsidiaries Retirement Plan (the Plan) provides general information about the Plan's provisions. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined-contribution plan covering substantially all full-time United States-based employees of Merieux NutriSciences Corporation (the Company) who have met certain eligibility requirements. Participants are eligible after completing 60 days of service and are age 21 or older. Eligible participants are automatically enrolled in the Plan once they have attained 21 years of age and have completed 60 days of service, unless they affirmatively decline to participate.

The Merieux NutriSciences Corp. Investment Plan Committee (the Committee) is responsible for the general administration of the Plan. State Street Bank and Trust Company and Massachusetts Mutual Life Insurance Company were the custodians of the Plan through June 30, 2013. Effective July 1, 2013, Charles Schwab Bank became the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Retirement Service Division of Massachusetts Mutual Life Insurance Company was the record-keeper of the Plan through June 30, 2013. Effective July 1, 2013, Schwab Retirement Plan Services, Inc. became the record-keeper of the Plan.

Contributions

Each year, participants may contribute up to 100% of pretax and/or aftertax (Roth) annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Upon meeting the eligibility requirements, a participant will be automatically enrolled in the Plan. The automatic deferral is set at 6% of eligible compensation (3% prior to July 1, 2013) until changed by the participant. The percentage deferral increases by 1% each year up to 10% if not changed by the participant. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions.

1. Description of the Plan (continued)

The Company contributes 50% of the first 6% of compensation that a participant contributes to the Plan. Additional matching contributions may be contributed at the discretion of the Company's board of directors. No such amounts were contributed for 2013. All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. If a participant is automatically enrolled, his or her contributions are invested in the default investment allocation/lifestyle funds (the fixed interest fund prior to July 1, 2013) until the participant changes his or her election. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of plan earnings and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of his or her respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of service. A participant is 100% vested after five years of credited service.

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. Unallocated forfeiture balances as of December 31, 2013 and 2012, were $12,789 and $35,739, respectively, and forfeitures used to reduce Company contributions for 2013 were $121,738.

1. Description of the Plan (continued)

Participant Loans

Participants may borrow from their accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, not less than $1,000. Loan terms range from 1 to 5 years or up to 20 years for the purchase of a primary residence. A participant may not have more than two loans outstanding at any point in time. The loans bear interest at a rate commensurate with local prevailing rates at the date of issuance as determined quarterly by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions. If a participant terminates employment with the Company, he or she has six months to repay the loan. If the loan is not repaid in a six-month period, it will automatically be treated as a deemed distribution to the participant.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement, or termination, a participant whose vested account balance exceeds $5,000 may elect to receive either a lump sum or installment payments. A participant whose vested account balance is $5,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to his or her vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include record-keeping and trustee fees. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company.

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The Plan invests in a fully benefit-responsive guaranteed investment contract (GIC). Since this contract is fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present this investment at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2013	**2012**
Massachusetts Mutual Core SAGIC Fund (at contract value)**	**$ 3,962,974**	$ 4,873,253

Select Indexed Equity Fund	*	1,814,267
Select Blue Chip Growth Fund	*	2,064,994

* Investment is less than 5%.

** The fair value of the Plan's investment in the Massachusetts Mutual Core SAGIC Fund was $4,010,094 and $5,116,032 at December 31, 2013 and 2012, respectively.

Certain investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants, the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the year ended December 31, 2013, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Charles Schwab Bank, the trustee of the Plan subsequent to June 30, 2013, and State Street Bank and Trust Company and Massachusetts Mutual Life Insurance Company, the custodians of the Plan prior to July 1, 2013.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

4. Fair Value Measurements (continued)

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Mutual funds – Valued based on quoted market prices, which represent the net asset value of shares at year-end.

Pooled separate accounts (PSA) − Valued using the net asset value (NAV) on the last business day of the plan year provided by the administrator. The NAV is based on the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding.

GIC − Valued using market value of underlying assets in a separate account maintained for contributions supporting the GIC.

There have been no changes in the methodologies used at December 31, 2013 or 2012.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value.

	Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds:

4. Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate accounts:				
Fixed income[(a)]	$ –	$ 2,723,332	$ –	$ 2,723,332
Allocation/lifestyle[(b)]	–	12,605,841	–	12,605,841
Large cap equities[(c)]	–	1,814,267	–	1,814,267
Mid cap equities[(c)]	–	639,002	–	639,002

Total assets at fair value	$ –	$ 31,565,688	$ –	$ 31,565,688

(a) This category includes pooled separate accounts that are designed to preserve capital with lower-risk investments and includes commercial paper, certificates of deposit, corporate obligations, and securities issued or guaranteed by the U.S. government or its agencies. There were no redemption restrictions on these investments.

(b) This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These pooled separate accounts share the common goal of first growing and then later preserving principal and contain a mix of U.S. common stocks, U.S.-issued bonds, and cash. There were no redemption restrictions on these investments.

(c) This category includes pooled separate accounts that invest in mutual funds with underlying investments in equities. They include U.S. and non-U.S. investments; they seek long-term capital appreciation; and they also seek to match the performance of published indexes. Other strategies include capital growth by investing in common stocks. No redemption restrictions applied at the plan level.

5. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31 to the Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	**$ 38,184,228**	$ 32,442,439
Add excess contributions payable	**43,191**	43,099
Net assets available for benefits per the Form 5500	**$ 38,227,419**	$ 32,485,538

The following is a reconciliation of net income per the financial statements for the year ended December 31, 2013, to the Form 5500:

Net income per the financial statements	$ 5,741,789
Change in excess contributions	92
Net income per the Form 5500	$ 5,741,881

6. Investment Contract With Insurance Company

The Plan invests in a fully benefit-responsive GIC. The issuer maintains the contributions in a general account. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 4%. Such interest rates are reviewed and may be reset on a quarterly basis.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such events which would limit the Plan's ability to transact at contract value with participants is probable.

6. Investment Contract With Insurance Company (continued)

If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default:

- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the plan agreement

The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, has a decline in its long-term credit rating below a threshold set forth in the contract, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. Contract termination also may occur by either party upon election and notice. Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC.

6. Investment Contract With Insurance Company (continued)

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average Yields for GIC	2013	2012
Based on actual earnings	**2.56%**	3.11%
Based on interest rate credited to participants	**2.56**	3.11

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Related-Party Transactions

Through June 30, 2013, the Plan held units of PSAs and a GIC managed by Massachusetts Mutual Life Insurance Company, one of the custodians of the Plan. These transactions qualified as party-in-interest transactions; however, they were exempt from the prohibited transactions rules under ERISA. Effective July 1, 2013, Charles Schwab Bank became the trustee of the Plan. Therefore, these transactions no longer qualified as party-in-interest transactions.

9. Tax Status

The underlying nonstandardized prototype plan has received an opinion letter from the IRS dated June 19, 2014, stating that the form of the plan is qualified under Section 401(a) of the Code and, therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2013-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

9. Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. Subsequent Events

Management evaluated subsequent events for the Plan through October 13, 2014, the date the financial statements were available to be issued.
