Note A - Description Of Plan

The following description of WRH Realty Services, Inc. 401k Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of WRH Realty Services, Inc. (the Sponsor) who have reached age 21 and completed three months of service. Any eligible employee will be automatically enrolled with a contribution rate of 4%, which shall increase 1% for each subsequent plan year to a maximum of 6%. Prior to March 1, 2012, any eligible employee was automatically enrolled at a contribution rate of 3% with 1% increase for each subsequent plan year to a maximum of 6%. All employees have the option to contribute more, less, or not to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute from 1% to 80% of their pretax annual compensation, as defined by the Plan, up to statutory annual limits. Roth elective deferrals are permitted. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Sponsor matches each participant's deferral in an amount equal to 50% of the first 8% of the participant's deferred compensation. Matching contributions are calculated each payroll period.

The Plan also allows nonelective contributions. The Sponsor did not make any nonelective contributions for the years ended December 31, 2013 and 2012.

Participant Accounts

Each participant's account is credited with the participant's elective contributions, Sponsor contribution, and plan earnings. Allocations of plan earnings are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are credited with a year of service for any plan year in which 1,000 hours of service are worked. The method for crediting 1,000 hours of service is based on an equivalency method. Under this method, employees are credited with 190 hours per month for each month in which an hour of service is worked. The following schedule describes the Plan's vesting provision related to Sponsor contributions.

Years of Service	Vested Percentage
Less than two years	None
Two years but less than three years	20%
Three years but less than four years	40%
Four years but less than five years	70%
Five years or more	100%

Notes Receivables From Participants

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and must be repaid within five years, unless it is for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. Loans are secured by the balance in the respective participant's account and bear interest at the prime rate as published in the Wall Street Journal on the 14th day of each month, plus two percentage points, effective for any loan processed as of the 16th day of the month.

Payment Of Benefits

Upon termination of employment, for any reason, a participant may elect to receive either a lump sum payment or a direct rollover in an amount equal to the value of the participant's vested interest in their account.

Forfeited Accounts

Forfeitures of nonvested matching contributions are used to reduce future matching contributions. Unallocated forfeitures amounted to $659 and $172 at December 31, 2013 and 2012, respectively. The Sponsor match was reduced by available forfeitures of $57,534 and $58,135 during the 2013 and 2012 plan years, respectively.

Forfeitures of nonvested matching contributions are non participant directed. Information about the net assets and the significant components of the changes in net assets relating to the non participant-directed investments are as follows:

Note B - Significant Accounting Policies

Basis Of Accounting

The Plan's financial statements are prepared under the accrual method of accounting, except for benefits paid to participants, which are recorded when paid.

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investment in shares of registered investment companies includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The plan administrator has evaluated all events subsequent to December 31, 2013 and through October 14, 2014, which is the date these financial statements were available to be issued. The plan administrator determined that there are no subsequent events that require recognition or disclosure in these financial statements.

Note C - Investments

The following investments represent 5% or more of the Plan's net assets at December 31:

2013	
Lord Abbett Alpha Strategy - A	$ 373,381
Blackrock Glob Smallcap Fd – A	327,026
Blackrock S&P 500 Stock Instl	564,332

2012	
Blackrock S&P 500 - I	$ 384,498
Blackrock Global Allocation A	1,517,873
Ready Assets Prime Money	470,369

Note D - Information Prepared And Certified By The Trustee

The Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The plan administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information provided to the plan administrator by Reliance Trust Company as of and for the years ended December 31:

	2013	2012
As of December 31		
Investment in shares of registered investment companies	**$ 6,055,192**	$ 4,650,935
Notes receivable from participants	**201,784**	189,066
Year ended December 31		
Net appreciation in fair value of investment in shares of registered investment companies	**$ 634,732**	$ 336,134
Dividends	**265,919**	97,478
Interest on notes receivable from participants	**8,840**	7,430

Note E - Fair Value Measurements

Accounting standards provide a framework for fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include indirect observable inputs including prices for similar assets and market corroborated inputs. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Shares of registered investment companies - Valuation of shares of registered investment companies is based on the reported net asset value of each fund, which is based on the quoted market price or fair value of each fund's underlying investments.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy as of December 31:

	Total	Level 1	Level 2	Level 3
2013				
Shares of registered investment companies				
Bond funds	$ 356,837	$ 356,837	$ -	$ -

Note F - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested.

Note G - Tax Status

According to Internal Revenue Service (IRS) Announcement 2001-77, sponsors that adopt approved nonstandardized prototype plans and meet certain additional guidelines can rely on the prototype plan's determination letter rather than file for a new letter. The Sponsor has elected to rely on the prototype plan determination letter, dated March 31, 2008 in which the IRS stated that the Plan, as then designed was in compliance with the applicable requirements of the Internal Revenue Code (the Code).

The Plan document has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

The plan administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2010.

Note H - Related Party Transactions

Fees paid during 2013 and 2012 by the Sponsor to the trustee and other service providers for professional and custodial services were based on customary and reasonable rates for their services. Certain investments throughout the years were in investments managed by the trustee. While these transactions qualify as party-in-interest activity, they are expressly exempt from the prohibited transaction rules (ERISA, Title I, Section 408 (b)).

Note I - Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
