Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT AUDITORS

To the Retirement Committee of the
Acme Brick Company Pension Plan

We have audited the accompanying financial statements of the Acme Brick Company Pension Plan (the “Plan”), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the statements of accumulated plan benefits as of January 1, 2013 and 2012, and the related statement of changes in accumulated plan benefits for the period from January 2, 2012 through January 1, 2013, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits as of December 31, 2013 and 2012 and of accumulated plan benefits as of January 1, 2013 and 2012 of the Acme Brick Company Pension Plan, and the changes in its net assets available for benefits for the years ended December 31, 2013 and 2012 and the changes in accumulated plan benefits for the period from January 2, 2012 through January 1, 2013 in accordance with accounting principles generally accepted in the United States of America.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Actuarial Assumptions

Other than those prescribed, the assumptions below represent an estimate of future experience for the plan:

Mortality: The prescribed IRS 2013 Combined Static Mortality Table has been used.

Interest Rate for Participant Disclosure and Target Funding Liability purposes: Prescribed 24-month average segment rates used are 1.62% for the first 5 years, 4.40% for the next 15 years, and 5.45% for the rest of the period. Prescribed HATFA segment rates used are 5.23% for the first 5 years, 6.51% for the next 15 years, and 7.16% for the rest of the period.

Compensation Increases: 3.5% per year compounded annually.

Social Security: 3.0% per year compounded annually assumed increases in cost-of-living and 3.5% per year compounded annually assumed increases in the national average wage index.

Marriage: It was assumed that 100% of all active and terminated employees are married to an eligible spouse. Wives are assumed to be 3 years younger than husbands.

Disability and Withdrawal Rates: Graduated rates (see table below for sample rates).

Attained Age	Rates per 100 Participants			
	Disability Rates		Withdrawal Rates

Assumed Age of Commencement for Deferred Vested Benefits: Age 65.

Form of Payment: Each participant not yet already in payment status is assumed to elect a lifetime annuity, with 60 monthly payments guaranteed.

Recognition of IRC Section 415 Limitations: The benefit limitations under IRC Section 415(b) have been reflected in the determination of plan costs.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Loading for Expenses: Expenses paid from the trust each year are assumed to be 0.4% of plan assets. This is the approximate average of the expenses paid from the trust over the last three years.

Asset Valuation Method

As of January 1, 2009, the actuarial asset valuation method was changed from market value to the 3-year smoothing asset method. Initially, 50% of the prior year's gain/(loss) was recognized. The gain/(loss) is the difference between the actual and expected return on the market value of assets.

Beginning in 2010, the actuarial value of assets was determined by subtracting from (or adding to) the current year-end market value the sum of the following:

- (i) 66% of the gain (or loss) during the first year preceding the valuation date,
- (ii) 33% of the gain (or loss) during the second year preceding the valuation date.

The result is constrained to be no more than 110% of market value of assets or less than 90% of market value of assets.

Valuation Procedures

We used employee and financial data submitted by the plan sponsor without further audit. This information would customarily not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

No actuarial accrued liability is included for participants who terminated non-vested prior to the valuation date.

The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

Benefits were calculated based on actual compensation where available, with the valuation salary scale used to develop compensation for other years. However, no past, present, or future compensation in excess of IRC Section 401(a)(17) compensation limits were considered in the calculation of benefits.

Funding Methodology

The funding methodology prescribed by ERISA is consistent with the plan accumulating adequate assets to make benefit payments when due, assuming that all actuarial assumptions will be realized and that the contributions will be made when due. In this valuation, we are determining market-consistent present values, which may be volatile as economic circumstances change. This may incent the plan sponsor to choose an asset allocation that reduces said volatility.

Schedule SB, Part V – Summary of Plan Provisions

Effective Date of Plan and Plan Year

The plan provisions used were based on the provisions of the plan as restated effective February 2, 2008. The latest plan amendment was effective December 31, 2012 (Amendment No. Ten).

The plan year is the calendar year.

Sponsoring Employer

Acme Brick Company.

Participation Requirements

Each Acme Brick Company employee is eligible to participate in the plan on the January 1st or July 1st after having attained the age of 21 and having worked at least 1,000 hours during the first 12 months of employment (or any subsequent calendar year). Employees in a collective bargaining unit which does not provide for coverage under this plan are excluded from participation.

Type of Plan

Self-administered, trustee defined benefit pension plan.

Contributions to the Plan

Employer contributions to the trust will be made in such amounts and at such times as are required to maintain the plan and trust in compliance with ERISA and IRC Section 412. Participant contributions are not required or permitted.

Benefit Service

Benefit service is the period of employment used in determining the amount of pension benefits. A full year of benefit service will be granted for each calendar year beginning in 1976 that an employee works or is paid for 2,080 hours or more of service. If less than 2,080 hours are worked, benefit service is granted at the rate of 1/2,080 for each hour of service (in a year in which an employee works at least 1,000 hours). Also, in the initial year of hire and the ultimate year of termination, partial benefit service will be granted for years in which fewer than 1,000 hours are worked. Benefit service for participants of the prior plan up to January 1, 1976 will be granted for all continuous, uninterrupted employment with the employer. Employees of Featherlite Corporation will receive benefit service under this plan from the later of their employment date and January 1, 1978. Employees of American Tile Supply will receive benefit service under this plan from the later of their employment date and January 1, 1996. Employees of Eureka Brick will receive benefit service under this plan as under their prior plan prior to acquisition by Acme Brick Company.

Vesting Service

Vesting service is the period of employment used in determining eligibility for benefits. A year of vesting service is granted for each calendar year beginning in 1976 in which an employee has completed 1,000 or more hours of service with an employer. Also, in the initial year of hire and the ultimate year of termination, partial vesting service will be granted for years in which fewer than 1,000 hours are worked. Vesting service for participants of the prior plan up to January 1, 1976 will be granted for all continuous, uninterrupted employment with the employer. Employees of American Tile Supply will receive vesting service under this plan from the later of their employment date and August 1, 1994. Employees of Eureka Brick will receive vesting service under this plan as under their prior plan prior to acquisition by Acme Brick Company.

Plan Compensation

Total compensation (Form W-2 or its equivalent) excluding 25% of commissions, annualized each year on the basis of benefit service. Compensation in excess of statutory maximum compensation limits (i.e., \$250,000 in 2012 and \$255,000 in 2013) is not considered.

Schedule SB, Part V – Summary of Plan Provisions (continued)

Average Compensation

Average monthly compensation is the result obtained by dividing the total compensation paid during a considered period by 12 times the number of years in the considered period. The considered period is the five consecutive calendar years of employment within the last ten completed calendar years of employment prior to the employee's retirement which yield the highest average.

Normal Retirement Benefit

Eligibility is the first day of the month coincident with or next following attainment of age 65 and completion of at least 5 years of vesting service, or 5 years of participation if earlier. The monthly benefit, payable for life with a minimum of 60 monthly payments, is equal to:

- 1.25% of average monthly compensation multiplied by the number of years of benefit service, minus
- 1.25% of the primary Social Security benefit multiplied by the number of years of benefit service, limited to 40 years.

The minimum benefit is equal to \$7 per month per year of benefit service.

Late Retirement Benefit

The benefit is determined as for normal retirement considering service and compensation up to actual retirement and primary Social Security calculated at actual retirement. Payments begin at actual retirement without actuarial increase because of age. In no event will this late retirement benefit be less than the actuarial equivalent of the normal retirement benefit.

Early Retirement Benefit

At or after age 55, provided the employee has completed at least 5 years of vesting service. The monthly annuity, payable at the employee's normal retirement date, is equal to the benefit as defined above for normal retirement using the number of years of benefit service the participant would have accumulated had his employment continued uninterrupted to normal retirement date, multiplied by a fraction, the numerator of which is equal to the number of years of benefit service accrued to date of retirement and the denominator of which is the number of years of benefit service the participant would have accumulated had his employment continued uninterrupted to normal retirement date. The participant may elect to start receiving benefits as early as his early retirement date. The monthly pension is reduced by 5% for each year ($1/240^{\text{th}}$ for each month) by which commencement of payments precedes normal retirement date.

Disability Benefit

At any age, provided the employee has completed at least 10 years of vesting service, retires because of total and permanent disability, and is eligible to receive federal Social Security disability benefits. The monthly annuity is payable on the first day of the month coinciding with or next following a 5-month waiting period. The benefit amount is computed as for early retirement, considering service and compensation to date of disability, but is unreduced for early commencement.

Termination Benefit

At any age, provided the employee has completed at least 5 years of vesting service. The monthly annuity is computed as for early retirement, considering service and compensation at termination. Payments will commence at normal retirement date, if the participant is living, although if requested, a reduced pension may be paid as early as age 55. The reduction for early commencement is the same as for early retirement. If a participant dies after becoming vested in any benefit, his spouse is eligible for a spouse's pension with payments commencing immediately. The monthly life only annuity will be equal to 50% of the pension the employee would have received under the provisions of the early retirement benefit, but unreduced for early payments.

Pre-Retirement Death Benefit

If a participant dies after becoming vested in any benefit, his spouse is eligible for a spouse's pension with payments commencing immediately. The monthly life only annuity will be equal to 50% of the pension the employee would have received under the provisions of the early retirement benefit, but unreduced for early payments.

Plan Name: Acme Brick Company Pension Plan
EIN/PN: 75-2864968/001

Schedule SB, Part V – Summary of Plan Provisions (continued)

Optional Forms of Benefits

Automatic--If the participant is married on his benefit commencement date, a joint and 50% survivor annuity option will be payable, actuarially reduced. If the participant is not married on his benefit commencement date, a life only annuity with 60 monthly payments guaranteed, will be payable. Optional forms available include a joint and 100% survivor annuity, a joint and 75% survivor annuity, a life only annuity with 120 monthly payments guaranteed, and a lifetime only pension. Actuarial equivalent forms of payment are calculated using a 6½% interest rate and the 1975 Group Annuity Mortality Table using unisex rates of 50% male rates and 50% female rates.

Automatic Cash Out

Upon termination of service, if the lump sum value of the accrued benefit is less than \$5,000, the lump sum amount is paid as soon as practical after termination.

Expenses

Paid by the trust if not paid by the employer.

Company Transfers

If an employee transfers employment between employers who have adopted this plan, his coverage will continue unaffected by such transfer except that any pension to which he may later become entitled will be provided jointly by the plan accounts maintained for each of the employers for whom he was employed. The amount of his pension provided by any such plan account will be computed on the basis of the total benefit service under all plan accounts (excluding any overlap) with the amount so computed multiplied by the ratio that his benefit service under such plan account bears to his total benefit service under all such plan accounts.

Special Lump Sum Payments

All participants with deferred, vested benefits who terminated by September 30, 2012 could elect special lump sum benefits during a special election period between November 1, 2012 and November 30, 2012. All such special lump sum payments were paid during the month of December 2012 and were calculated based on the assumptions outlined in Amendment No. Ten.

REPORT OF INDEPENDENT AUDITORS

To the Retirement Committee of the
Acme Brick Company Pension Plan

We have audited the accompanying financial statements of the Acme Brick Company Pension Plan (the “Plan”), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the statements of accumulated plan benefits as of January 1, 2013 and 2012, and the related statement of changes in accumulated plan benefits for the period from January 2, 2012 through January 1, 2013, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits as of December 31, 2013 and 2012 and of accumulated plan benefits as of January 1, 2013 and 2012 of the Acme Brick Company Pension Plan, and the changes in its net assets available for benefits for the years ended December 31, 2013 and 2012 and the changes in accumulated plan benefits for the period from January 2, 2012 through January 1, 2013 in accordance with accounting principles generally accepted in the United States of America.

Acme Brick Company Pension Plan

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. Description of plan

The following brief description of the Acme Brick Company Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan is a defined benefit plan covering substantially all employees of Acme Brick Company (the “Company”), except certain employee groups including: employees subject to collective bargaining agreements for which separate pension plans are maintained and Jenkins Brick and Tile, LLC (“Jenkins”) employees. The Company contributes such amounts as are deemed necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits paid to Plan participants. The Plan is subject to the Employee Retirement Income Security Act of 1974 (“ERISA”).

Employees with at least five years of vested service are entitled to pension benefits beginning at normal retirement age 65. The annuity, payable for life with a minimum of 60 monthly payments, is equal to:

- a. 1 1/4% of pre-1976 average monthly compensation multiplied by the number of years of benefit service in the period prior to January 1, 1976, plus
- b. 1 1/4% of post-1976 average monthly compensation multiplied by the number of years of benefit service in the period after January 1, 1976, minus
- c. 1 1/4% of primary Social Security benefit multiplied by the number of years of benefit service, limited to 40 years.
- d. The amount that accrues after December 31, 1993 will be determined by taking into account compensation for any calendar year (whether before or after such date) of no more than \$150,000 (or such larger amount as allowed under of the Internal Revenue Code (the “Code”) section 401(a)(17)). This will be accomplished for an employee whose compensation for any such year prior to such date exceeded \$150,000 by deeming (a) and (b) above at any time after such date to be equal to the sum of (1) and (2) below:
 1. The amount under (a) and (b) above determined as of December 31, 1993 by taking into account compensation for 1993 and any prior year of no more than allowed for 1993 under Code section 401(a)(17).
 2. The amount that would be applicable for (a) and (b) above as of employee’s date of retirement if (i) the employee’s compensation taking into account is limited as described above, and (ii) the employee’s benefit service taken into account is only that accrued after December 31, 1993.

The minimum benefit is equal to \$7 per month for each year of benefit service. Employees may elect to receive the value of their accumulated plan benefits in one of several forms of annuities or a lump-sum distribution upon retirement or termination.

The Plan permits early retirement at ages 55 through 64, provided the employee has completed five years of vested service. In such case and at the request of the employee, a reduced pension may be payable immediately.

Acme Brick Company Pension Plan

Notes to Financial Statements - continued

The reduction is five twelfths of one percent (0.417%) for each month for which the starting date of pension payments precedes the employee's normal retirement date.

If an active employee dies prior to age 65 and has completed five years of vesting service, the surviving spouse shall receive a life annuity equal to 50% of the pension the employee would have received under the provisions of the early retirement benefit, not reduced for early commencement. If an active employee dies after age 65 and has completed five years of vested service, the surviving spouse shall receive a life annuity equal to 50% of the pension the employee would have received had the employee retired on the date of his death. Disability benefits will be paid at any age, provided the employee has completed ten years of vested service, retires because of total and permanent disability, and is eligible to receive Federal Social Security Disability Benefits. Generally, disability benefits are paid for life as computed under the early retirement benefit provisions of the Plan, not reduced for early commencement.

The Plan dictates automatic single sum distribution for any participant whose total pension is less than or equal to \$5,000.

If an employee terminates before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

While the Company has not expressed any intent to discontinue its contributions, it is free to do so under the terms of the Plan at any time, subject to provisions of ERISA. If such discontinuance were to result in termination of the Plan:

- a. The net assets shall be distributed among the participants and beneficiaries based upon proportionate interests as determined on an actuarial basis as prescribed by the Plan.
- b. Under the provisions of ERISA, unfunded vested benefits becoming vested by virtue of termination of the Plan, are payable, up to specified limitations, to participants by the Pension Benefit Guaranty Corporation.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investments

Investments of the Plan are held in the Acme Brick Company Pension Trust (the "Trust"), which is a master trust that also holds assets of the Acme Brick Company Union Pension Plan for Employees Represented by the United Steel, Paper & Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (USW), Local No. 602 of Perla, Arkansas. Such investments are stated at redemption value or fair value using quoted prices in an active market to the extent available. Investments in common stock and bonds are valued based on published market prices, which represent the net asset value of the underlying shares and do not entail any significant redemption restrictions. Investments in cash and cash equivalents are stated at cost, which approximates fair value.

Acme Brick Company Pension Plan

Notes to Financial Statements - continued

Purchases and sales of securities are recorded on the trade date. Gains or losses on sales of securities are based upon the average cost of securities. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Trust invests in a variety of stocks, bonds, fixed-income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amount reported in the Plan's financial statements.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on five consecutive calendar years that occurred within the last ten completed calendar years of employment that yielded the highest average compensation. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented. Benefits payable under all circumstances-retirement, death, disability, and termination of employment-are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the actuarial services department of MHBT, Inc. by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2013 and 2012, include segment interest rates for target funding liability purposes, mortality basis (Internal Revenue Service ("IRS") 2013 Combined Static Mortality Table and IRS 2012 Combined Static Mortality Table, respectively) and date of retirement (age 65 with five years of participation or present age, if greater). The segment interest rates for 2013 have been changed to 5.23% for the first 5 years, 6.51% for the next 15 years and 7.16% for the rest of the period. The 2012 segment interest rates were 5.54% for the first 5 years, 6.85% for the next 15 years and 7.52% for the rest of the period. The actuarial value of assets is determined by subtracting from (or adding to) the current year-end market value the sum of the following:

- (i) 66 2/3% of the gain (or loss) during the first year preceding the valuation date,
- (ii) 33 1/3% of the gain (or loss) during the second year preceding the valuation date.

The result is constrained to be no more than 110% or less than 90% of market value of assets.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit payments

Benefit payments to participants are recorded upon distribution.

Use of estimates

The preparation of the financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may, in some instances, differ from previously estimated amounts.

3. Investments

Wells Fargo Bank, N.A., the Trustee of the Plan, holds the Plan's investments and executes all investment transactions under a nondiscretionary trust agreement dated January 2, 2013. All investment information disclosed in the accompanying financial statements, including investments (\$138,267,876 and \$115,187,305, respectively) and accrued interest and dividend receivable (\$251,428 and \$245,062, respectively) at December 31, 2013 and 2012, net appreciation in fair value of investments (\$26,290,926 and \$15,498,202, respectively), and interest and dividends (\$1,687,502 and \$3,066,894), respectively for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the Plan Administrator by the Trustee.

Investments held by the Plan consist of a share of the assets of the Trust. Investments held by the Trust at December 31, 2013 and 2012, are summarized as follows based on information provided by the Trustee.

	2013		2012	
	Cost	Fair Value	Cost	Fair Value
Common stocks	\$ 87,399,213	\$ 125,253,899	\$ 87,546,849	\$ 97,130,733
Bonds:				
Government	1,049,318	1,187,543	1,272,071	1,498,643

The Plan's interest in the fair value of the Trust investments is approximately 99% of the Trust's net assets as of December 31, 2013 and 2012. Interest and dividend income earned by the Trust amounted to \$1,702,533 and \$3,093,380 for the years ended December 31, 2013 and 2012, respectively.

Net investment income and gains and losses on investments are generally allocated to each of the plans in the Trust in the ratio of beginning of the year net assets of each plan, less average benefit payments, to the total beginning of the year net assets of the Trust, less average benefit payments. Contributions and benefit payments are allocated to each plan based on specific identification.

4. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standard Codification ("ASC") Topic No. 820, *Fair Value Measurements*, are described as follows:

- Level 1 — inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 — inputs to the valuation methodology include
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 — inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012. These methodologies were consistently applied to all assets and liabilities of the Plan.

Common stocks

Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. All common stock is classified within Level 1 of the valuation hierarchy.

Corporate debt instruments and U.S. government agency obligations

These investments are valued at the closing price reported on the major market on which the individual securities are traded. The investments are classified within Level 1 of the valuation hierarchy.

5. Funding policy

The Company's policy is to meet all regulatory minimum-funding requirements and to fund the amortization of each element of any unfunded accrued liability over twenty years from the date of establishment. A minimum-funding contribution of \$1,449,232 and \$1,653,958 was required for the years ended December 31, 2013 and 2012, respectively. Any overages will be used to offset future years contributions, as needed.

6. Income tax status

The Plan has received a determination letter from the IRS dated February 18, 2010, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan received an updated letter on July 28, 2014 stating that the Plan is qualified under Section 401(a) of the Code. The Plan has been amended since receiving its determination letter. However, the Committee believes the Plan is operating in compliance with the Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The last three tax years remain subject to potential examination by major tax jurisdictions as of December 31, 2013.

7. Administrative expenses

One employee of the Company performs certain administrative services for the Trust. The Trust reimburses the Company for such services which amounted to approximately \$35,000 and \$49,000 in 2013 and 2012, respectively. Other employees also perform administrative functions for the Trust; however, these services are not reimbursed by the Trust.

8. Plan amendments

On September 28, 2012, the Company allowed a special lump sum payment, issued in December 2012, for participants who met each of the following criteria:

- Participant's employment with the Company had been terminated as of the close of business on September 30, 2012,
- Participant had accrued a normal, late, early or deferred vested pension,
- Participant had not yet commenced his pension on October 1, 2012, or an earlier date, and
- Participant had not been re-employed by an affiliate of the Company by the end of 2012.

Effective March 1, 2013, management implemented a "soft freeze" of the Plan. The amendment states that no employee will become a participant in the Plan who was not originally employed before the effective date. Additionally, an employee originally employed at a Jenkins Brick Company location who, on or after March 1, 2013, becomes employed by an Acme Brick Company location, will not become a participant in the Plan.

9. Subsequent events

Effective October 4, 2014, the Plan was frozen via amendment. The amendment mandates that:

1. a participant's accrued pension as of the the Plan freeze date will not be changed for any employment period after the Plan's freeze date.
2. Since 2014 will not be a completed year of benefit accrual due to the Plan freeze, compensation earned in 2014 will not be considered in determining a participant's average monthly compensation, accrued pension, or any other benefit under this Plan.
3. For purposes of determining a participant's accrued pension as of the Plan freeze date, the primary Social Security benefit shall be determined assuming a termination date of October 4, 2014. For purposes of determining benefits under the Plan, there shall be no further changes in a participant's primary social security benefit after the Plan freeze date.
4. No benefit service shall be earned with the Company after the Plan freeze date.

On August 11, 2014, the Company executed an amendment to the Plan in order to formally adopt a "hard freeze" for all current plan participants effective on October 4, 2014. On August 18, 2014, a lawsuit was filed in the United States District Court by certain current and former employees contesting this action.

It is management's position its actions were permitted, that the claims are not valid, and that the company will prevail. However, due to the uncertainty of such litigation, the ultimate outcome is unknown.

In preparing the Plan's financial statements, management of the Company has evaluated all subsequent events and transactions for potential recognition or disclosure through October 13, 2014, the date the financial statements were available for issuance.
