Report on the Financial Statements

We have audited the accompanying financial statements of HCC, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of 1) Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and 2) Schedule H, Line 4j – Schedule of Reportable Transactions as of or for the year ended December 31, 2013 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Plan Description and Basis of Presentation

The following description of HCC, Inc. Employee Stock Ownership Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

HCC, Inc. (the Company) established the Plan effective as of January 1, 1996. The Plan operates as a leveraged employee stock ownership plan (ESOP), is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC) as amended and is subject to the applicable provisions of ERISA, as amended. The Plan is administered by the Plan Administrative Committee appointed by the Board of Directors of the Company. The trust department of an independent third-party bank is the trustee.

The Plan purchased Company common stock using the proceeds borrowed from the Company (see Note 8), and holds the common stock in a trust established under the Plan. The borrowings are repaid annually by Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of Company common stock. The Company has no rights against shares once they are allocated to participants under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012 and for the year ended December 31, 2013 present separately the assets and liabilities and changes therein pertaining to:

a. The accounts of employees with vested rights in allocated Company common stock (Allocated), and

b. Company common stock not yet allocated to employees (Unallocated).

Eligibility: An employee becomes eligible to participate in the Plan on the earlier of the first day of the plan year or the first day of the seventh month of the plan year coinciding or next following completion of one year of continuous service and obtaining 21 years of age. Participants who do not have at least 1,000 hours of service during the plan year or are not employed on the last working day of the plan year are generally not eligible for an allocation of Company contributions for such year.

Vesting: Participants are 100% vested in their accounts for reasons of retirement, disability or death. If a participant's employment with the Company ends for any other reason, they will vest in their account based on total years of service with the Company. For terminations of employment prior to January 1, 2007 vesting is based on completed years of service as follows:

Completed Years of Service	Percentage of Vested Interest
Less than 3	-
3	20%
4	40%
5	60%
6	80%
7	100%

Note 1. Plan Description and Basis of Presentation (Continued)

For terminations of employment after December 31, 2006 vesting is based on completed years of service as follows:

Completed Years of Service	Percentage of Vested Interest
Less than 2	-
2	20%
3	40%
4	60%
5	80%
6	100%

Participant accounts, forfeitures and dividend income: Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Allocations are based on participants' eligible earnings as defined in the plan agreement. Forfeitures are to be reallocated to all eligible participants in the same manner as Company stock and cash contributions. During the year ended December 31, 2013, forfeited nonvested accounts totaling approximately $55,300 were reallocated to eligible participants. Dividends on the Company's common stock were credited to each participant's account based on the total shares of the Company's common stock for the allocated shares and eligible earnings for the unallocated shares.

Payment of benefits: The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account balance. Distributions will be made from the Plan when a participant retires at age 65 or older, dies (in which case, payment shall be made to their beneficiary), or becomes permanently disabled, on a fully vested basis. Distributions for other terminations of employment are made subject to vesting and payment conditions detailed in the Plan. Distributions can be made in the form of whole shares of Company stock, cash or a combination of both, as determined by the Plan Administration Committee, although a participant has the right to demand a distribution in shares of Company stock subject to the payment condition described in Note 8.

Voting rights: The shares of Company stock held in the Plan will be voted by the trustee as directed by the Plan Administrative Committee. However, in the event of a stockholder vote with respect to a major corporate event such as a corporate merger or consolidation, recapitalization, reclassification, liquidation or dissolution, or sale of substantially all of the corporate assets, the participant is entitled to direct the trustee on how to vote the shares of Company stock allocated to their account. In such event, the trustee will vote the shares of Company stock which are unallocated, as well as allocated shares of Company stock for which no directions are received, as directed by the Plan Administrative Committee, provided, however, that the trustee may vote the shares as it determines is necessary to fulfill their fiduciary duties.

Note 1. Plan Description and Basis of Presentation (Continued)

Put option: Under federal income tax regulations, the employer securities that are held by the Plan and its participants and are not readily tradable on an established market, or are subject to trading limitations, include a put option. The put option is a right to demand that the Company buy shares of its stock distributed to participants for which there is no market. The Company issues the put option to the participant at the time of distribution. This put option allows the participant or beneficiary to sell the stock at its then fair market value, as determined by the most recent independent appraisal, at any time during the 60-day period beginning on the date the stock was distributed. If the put option is not exercised by the end of the 60 days, it temporarily lapses. Upon the close of the plan year in which the put option lapses, the independent appraiser will determine the value of the Company stock and the Plan Administrative Committee will notify each distributee, who did not exercise the initial put option prior to its temporary lapse in the preceding plan year, of the revised value of the Company stock, upon which this person shall again have 60 days to exercise the put option and sell their stock back to the Company. If at the end of this second 60-day period the put is not exercised, the put option permanently lapses, and the Company is under no obligation to repurchase the stock. However, at the direction of the Plan Administrative Committee, the trustee, on behalf of the trust, may offer to purchase any shares of Company stock (which are not sold pursuant to the put option) from any former participant or beneficiary at any time in the future, at their then fair market value. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a distribution of stock with a put option which is immediately exercised.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of the Company's common stock.

The financial statements include the Company's common stock valued at $20,463,731 and $18,655,410 at December 31, 2013 and 2012, respectively, whose value has been estimated by an independent valuation specialist in the absence of a readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed, and the difference could be material.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of benefits: Benefits are recorded when paid or when stock is distributed.

Administrative expenses: All expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements.

New accounting pronouncements: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this Update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of remaining provisions of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent events: Plan management has evaluated subsequent events through October 15, 2014, the date on which the financial statements were available to be issued.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

HCC, Inc. common stock: Fair value of HCC, Inc.'s common stock held by the Plan is valued based upon an annual independent appraisal. This appraisal was based upon a combination of the discounted cash flow under the income approach and the guideline public company method under the market approach. No changes to the comparable company group were made during 2013 for the market approach. The appraiser used 50% blended discounted cash flow technique and 50% market valuation technique in both 2013 and 2012. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of the Company assets and liabilities.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. The fund held by the Plan is an open-end fund that is registered with the Securities and Exchange Commission. The fund is required to publish its daily net asset value (NAV) and to transact at that price. The fund held by the Plan is deemed to be actively traded.

Note 3. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Note 4. Income Tax Status

The IRS has determined and informed the Company by a letter dated September 18, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

Management evaluated the Plan's tax positions in accordance with the FASB guidance on accounting for uncertainty in income taxes and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S federal, state, or local tax authorities for years before 2010.

Note 5. Administration of Plan Assets

The Plan's assets, which consist primarily of HCC, Inc. common shares, are held by the trustee of the Plan, GreatBanc Trust Company, formerly known as North Star Trust Company.

Company contributions are held and managed by the trustee, which invests plan assets and makes distributions to participants. The trustee also administers the payment of interest and principal on the loan, which is reimbursed to the trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC. Upon termination of the Plan, the Plan Administrator shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Note 7. Investment

Note 8. Employer Contributions, Note Payable and Restriction on Distributions

On October 30, 2006, the Company loaned the Plan $3,230,112 which was concurrently used by the Plan to acquire 33,647 shares of the Company's common stock at a cost of $96.00 per share. The acquired common shares were pledged under the loan agreement which provides for the reduction of the number of shares pledged based on the relationship of principal and interest paid for the year in proportion to the total principal and interest to be paid over the remaining term of the loan agreement. The shares released from the pledge are shown in the statement of net assets as allocated assets available for benefits.

The Company is required, under the loan agreement, to contribute to the Plan amounts sufficient to cover the required principal and interest payments due on the note. The Company may increase its contributions up to the maximum amount deductible for federal income tax purposes.

The agreement provided for the note to be repaid over 15 years with annual payments of principal and interest of $359,277 at a rate of 7.375%. The balance of the loan outstanding at December 31, 2013 and 2012 was $2,114,521 and $2,303,886, respectively.
