1. Description of Plan

The following brief description of the University Support Services, LLC Cash or Deferred Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. On October 1, 2011, the Plan was restated pursuant to the Economic Growth Tax Relief Reconciliation Act. In addition, on October 1, 2011, the plan trustee and administrator were changed..

General: The Plan is a defined contribution plan covering all full-time employees of University Support Services, LLC (the "Company") who have three consecutive months of service and have attained the age of twenty-one. Employees may begin to make elective deferral contributions on the first day of the first month that is at least ninety days after commencing employment at the Company. Entry dates for employees are as of the first day of each month of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute an amount up to the limits imposed by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up deferral contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans as rollover contributions. The employee deferral and rollover contributions are invested by the trustee under the direction of the individual participant into the various investment options offered by the Plan. The employer pension and matching contributions are at the discretion of the management of the Company. Employees who have completed at least 1,000 hours of service during the Plan year and are employed by the Company at the end of the year, are eligible for pension and matching contributions at the discretion of the management of the Company.

Participant Accounts: Each participant's account is credited with the participant's deferral and rollover contributions and an allocation of the Plan earnings, and charged with an allocation of the Plan's administrative expenses. Allocations of both income and expenses are based on a daily analysis by mutual fund by participant based on the ratio of the number of units held by the participant in comparison to the total number of units held by the Plan. The plan assets are maintained in a pooled account, therefore a separate investment account is not maintained for each participant.

Vesting: Participants are immediately vested in their voluntary deferral contributions plus or minus the actual earnings (losses) thereon. An employee is fully vested in any employer contributions after completing five years of service.

Participant Loans: Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bears interest at rates ranging from 3.25 percent to 4.25 percent, which are commensurate with the local prevailing interest rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions by the Company.

1. Description of Plan - continued

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive the payment of benefits in the form of a qualified joint and fifty percent survivor annuity for married participants or a life annuity for unmarried participants, a lump-sum amount or monthly, quarterly, semiannual or annual installments for a term certain or escalating payments over a period not to exceed the life expectancy of the participant or designated beneficiary, equal to the value of the participant's vested interest in his or her account. Employees are eligible at any time to request a rollover distribution as a lump sum payment that must be made directly to another eligible retirement plan. If the employee's vested balance is $1,000 or less, the payment of benefits will be in the form of a lump-sum amount.

Forfeitures: Upon termination from the plan all non-vested funds are maintained in a separation account until it becomes clear that the employee is not returning after one year. These funds are then used to decrease the employer contribution for the following year or are reallocated to the participants remaining in the plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value the mutual funds. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans

Participant loans are valued at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Excess Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded when paid to the participant. The Plan distributed the excess contributions to the applicable participants prior to March 15, 2014 and 2013.

2. Summary of Significant Accounting Policies – continued

Payment of Benefits

Benefits payments to participants are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participant loans are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Investments

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2013 and 2012, respectively:

GM PIMCO Total Return A	$ 630,185	$ 518,782
GM American Century Government Bond A	623,048	509,537
GM MFS Value Fund	516,644	383,624
GM Franklin Growth Fund A	406,135	302,030

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $378,232 as follows:

Mutual funds	$378,232

4. Fair Value Measurements

Financial Accounting Standards Board's Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC Topic 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements – continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013

	Level 1	Level 2	Level 3	Total

5. Related Party Transactions

The Company pays for all of the accounting fees related to the preparation of the audited financial statements. The Company also provides certain accounting and administrative services to the Plan for which no fees are charged.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants would become 100 percent vested in their employer contributions.

7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 2003, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements for the year ended December 31, 2013.

The Plan will recognize interest and penalties associated with any taxing authority audit issues in the provision for income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the Internal Revenue Service or the U.S. Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level or risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Subsequent Events

The Plan has adopted FASB ASC Topic 855, "Subsequent Events." ASC 855 established general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Specifically, it sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date.

The Plan evaluated subsequent events through October 10, 2014, the date these financial statements were available to be issued.

There were no other material subsequent events that required recognition or additional disclosures in these financial statements.
