NOTE A - DESCRIPTION OF PLAN

The following description of the Master Lock Company Savings Plan for Hourly Paid Union Employees Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all hourly paid employees of Master Lock Company (the “Company”), a subsidiary of Fortune Brands Home & Security, Inc., who are represented in a collective bargaining agreement with the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, UAW-AFL-CIO, Local 469. Each employee covered under the collective bargaining agreement, expiring March 31, 2018, is eligible to become a participant upon completion of at least 90 days of consecutive service determined in accordance with the Plan provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The trustee of the Plan is Fidelity Management Trust Company (“Fidelity” or “Trustee”).

The Plan qualifies under Section 401(k) of the Internal Revenue Code (“IRC”), which provides participants with the option to defer taxes on contributions into the before-tax portion of the Plan and on investment earnings until their funds are withdrawn. The IRC contains certain rules and limitations on before-tax contributions and withdrawals from this portion of the Plan.

Contributions

Participants may contribute to the Plan in whole percentage increments up to 60% of their annual compensation. For 2013, participants’ annual tax-deferred contributions are limited by the IRC to \$17,500 for participants under 50 years of age or \$23,000 for participants 50 years of age and over. A participant may contribute a rollover contribution subject to approval, provided it represents a balance from a qualified plan under the IRC, and it is contributed to the Plan within 60 days of the original distribution. Each participant is permitted to designate the proportion of each contribution to be credited to the various investment options available under the

Plan. A participant has, at all times, a fully vested and non-forfeitable interest in his or her tax-deferred and rollover contributions portion of their account. Contributions are subject to certain limitations.

Eligible employees are automatically enrolled into the Plan. Three percent of the participant's compensation will be automatically withheld and contributed to the Plan in connection with the automatic enrollment, unless a participant makes an election to not participate in the Plan.

Eligible employees hired, rehired or who became eligible through an employment transfer on or after January 28, 2008, and have elected not to accrue additional years of pension credit under the Master Lock Pension Plan for Hourly Paid Union Employees during the special election periods offered by the Company receive a 50% matching Company contribution not in excess of 6% of the participant's compensation. These participants are also eligible for additional Company matching contributions as described in the Plan. For all other participants, the Company contributes 50% of the first 4% of base compensation that a participant contributes to the Plan. A participant may direct the Company matching contribution to one or more of the investment options available to the participants. A participant becomes fully vested in the Company contribution portion of their account after one year of service.

At December 31, 2013 and 2012 forfeited nonvested accounts totaled \$10,877 and \$740, respectively. These accounts will be used to reduce plan expenses. During 2013, no forfeited nonvested accounts were used to reduce plan expenses.

Participant Accounts

Participant account balances are increased by participant contributions, including rollovers from other plans. Income and losses on Plan assets are allocated to participants' accounts based on the ratio of each participant's amount invested in an investment fund to the total of all participants' account balances invested in that fund. A participant's account is also charged for the participant's respective transaction fees. All assets of the Plan are invested in the funds available to the participants. A participant may direct his or her contribution in whole percentages to be invested in one or more of these funds. In the absence of participant direction, the participant's accounts shall be invested in the age appropriate Fidelity Freedom Fund.

Payment of Benefits

The amount distributed from a participant's account upon a participant's retirement, termination of employment, death or disability may be in the form of a lump-sum payment or annual installments as elected by the participant. Balances less than \$1,000 are distributed as a lump sum and do not require the participant's consent. Normal retirement age under the Plan is 65. Participants may also withdraw their contributions, as described in the Plan, or upon their attainment of age 59-1/2.

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000 reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period. Participants may only have one loan outstanding at any given time. The loans are collateralized by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan administrator based on prevailing interest rates. Principal and interest are paid ratably through payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of the Plan's financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits at the date of the financial statements and the changes in net assets available for Plan benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Valuation of Investments

The Plan's investments are reflected at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

The Plan uses a three-tiered hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Valuation of Investments - Continued

- Inputs other than quoted prices that are observable for the assets or liabilities.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management uses the following methods and significant assumptions to estimate fair value of investments. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: are valued at the quoted net asset value of the shares held by the Plan at year end, which is obtained from an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

Security transactions are accounted for on the trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income from securities is recorded on the accrual basis.

Administrative Expenses

All administrative expenses of the Plan are paid by the Plan unless paid by the Company.

Disclosure under ERISA. Accordingly, Fidelity has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2013.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE E - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company, by a letter dated June 30, 2011, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax years in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE G - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity or an affiliate thereof. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE H - PLAN TERMINATION

The Company is obligated to continue the Plan during the term of the existing collective bargaining agreement, which expires on March 31, 2018. While the Company has not expressed any intent to terminate the Plan subsequent to that date, it is free to do so subject to the provisions set forth by ERISA.

NOTE I - SUBSEQUENT EVENTS

Management of the Plan has evaluated subsequent events from December 31, 2013 through October 9, 2014, the date these financial statements were available to be issued. There were no subsequent events that require recognition or additional disclosure in these financial statements.
