Note 1: Description of Plan

The following description of Handel Architects LLP 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Handel Architects LLP (the "Company") who are age 21 or older, and have achieved one year of service, or if earlier, one full calendar month of employment. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan primarily offers pooled accounts comprising of mutual funds as investment options to participants. The Company, at its discretion, may elect to make a Safe Harbor matching contribution to each participant, as defined by the Plan. For the year ended December 31, 2013, the Company did not elect to make a contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contribution, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in their portion of the Company's contribution is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The notes are secured by the balance in the participant's account, and bear interest at rates that range from 3.25% percent to 8.25% per annum, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Repayments are generally due in installments over periods ranging from one to five years, unless the note is used for the purchase of a primary residence, in which case the repayment period may be greater. Principal and interest are paid ratably through monthly payroll deductions. A note that is considered in default is reported as a deemed distribution, and is a taxable event for the participant.

Note 1: Description of Plan (continued)

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

During December 31, 2013 and 2012, non-vested amounts forfeited by participants totaled $7,444 and $90,279, respectively. Forfeited, non-vested, account balances are included in cash on the statement of net assets available for benefits. Forfeitures may be used to pay administrative expenses of the Plan or reduce future employer contributions. For the years ended December 31, 2013 and 2012, $53,838 and $31,546, respectively, were used to pay administrative expenses of the Plan. See Note 7.

Note 2: Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The investment contract offered as an option to participants, which is not fully benefit responsive, is required to be reported at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses, and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments, and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Note 2: Summary of Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan and are included in administrative expenses. In addition, fees related to the administration of notes receivable from participants are charged directly to the participant's account, and are also included in administrative expenses. Investment-related expenses are included in income from investments.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2014, the date the financial statements were available to be issued.

Note 3: Investments – Information Prepared and Certified as Complete and Accurate by the Custodian

The following presents investments that represent 5 percent or more of the Plan's net assets.

John Hancock Life Insurance Company of NY Lifestyle Growth Strategy Fund	1,099,025	797,512

Less than 5 percent	5,080,593	3,937,543
Total investments at fair value	$ 8,808,475	$ 6,995,719

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated (depreciated) in value by $1,432,257 as follows:

Pooled separate accounts	$ 1,432,257
Interest income	$ 14

The custodian has also certified notes receivable from participants in the amount of $101,562 and $106,788 as of December 31, 2013 and 2012, respectively. Interest income on notes receivable from participants for the year ended December 31, 2013 totaled $5,916.

Note 4: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Accounts:

Pooled separate accounts are valued at the net asset value of shares held at year end as determined by the issuer of the fund.

Guaranteed Investment Contract:

Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see note 5). Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the insurance company evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data (for example, swap curve rate).

Note 4: Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

Level 3 - Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

Guaranteed Investment Contract:	
Balance, beginning of year	$ 1,113
Interest income	14
Unrealized gain relating to instruments held at reporting date	102
Balance, end of year	$ 1,229

Note 4: Fair Value Measurements (continued)

The amount of gains included in unrealized gains on the statement of changes in net assets for assets still held at the reporting date.	$ -

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments on the statement of changes in net assets available for benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers.

Note 5: Guaranteed Investment Contract with "Insurance Company"

The Plan has a nonbenefit responsive investment contract with John Hancock Life Insurance Company of New York, who maintains the contributions in a general account. The account is credited with earnings on the underlying investments, and charged for participant withdrawals and administrative expenses. The contract promises to pay contract value, plus earnings, less participant withdrawals and administrative expenses. The fair value of the investment contract as of December 31, 2013 and 2012 was $1,229 and $1,113, respectively, and approximates the contract value (See Note 4).

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings & interest credited to participants	1.05%	2.06%

Note 6: Excess Contributions Payable

Subsequent to December 31, 2013, certain 2013 participant contributions were deemed to be excess contributions under the Internal Revenue Code. Such contributions and the related investment earnings thereon were refunded to plan participants in 2014. A liability for excess contributions of $33,142 was recorded in the Plan's financial statements at December 31, 2013.

Note 7: Related-Party Transactions

The plan investments are units of pooled accounts and a guaranteed investment contract managed by John Hancock. John Hancock is the custodian as defined by the Plan, and therefore, transactions with these investments qualify as party-in-interest transactions. Fees incurred by John Hancock for management services are indirectly paid by revenue sharing rather than a direct payment. Net appreciation realized on these funds is net of fees charged by the custodian or its affiliates.

Note 7: Related-Party Transactions (continued)

The Plan made direct payments to the custodian for the year ended December 31, 2013, in the amount of $1,896, which represented expenses charged to individual participants' accounts for administration of notes receivable. Other direct fees to service providers and professionals totaled $51,942. These payments were funded by forfeitures as described in Note 2.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Note 9: Tax Status

The Internal Revenue Service has determined and informed the company by a letter dated July 19, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11: Prohibited Transaction – Participants' Contribution Remittances

In 2014, the Plan was randomly selected for review by the Department of Labor for the years ended December 31, 2011 through December 31, 2013. In accordance with the Department of Labor's Regulation 2510.3102, an employer is required to segregate participants' contributions from its general assets as soon as practical, but in no event more than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages for a pension benefit plan such as the 401 (k) Plan. The Department of Labor determined that the Employer was able to remit participants' contributions withheld within two days after the end of a pay period. Accordingly, the Employer was required to remit $34 in lost earnings for nine pay periods for the years ended December 31, 2011 through December 31, 2013. The Employer remitted this amount in September 2014.

Note 12: Reconciliation of Financial Statements to Form 5500
