THE KENTROX RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Kentrox Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of Kentrox, Inc. (the Company). Effective April 1, 2013, Kentrox, Inc. was acquired by Westell Technologies, Inc. and they became the Plan sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: An employee must be 18 years of age to be eligible to participate. The Plan excludes individuals who are subject to retirement benefits under a collective bargaining agreement and certain non-resident aliens.

Contributions: Employees may defer up to 75% of eligible compensation on a pre-tax basis or after-tax basis. The Plan also allows for Company matching or profit sharing contributions on a discretionary basis. The Company made matching contributions equal to 50% up to the first 6% of each participant's eligible compensation during 2013. No Company profit sharing contributions were authorized for the current plan year. Contributions are subject to certain limitations. Plan participants direct the investment of their contributions and the Company matching contributions and profit sharing contributions into the various investment options offered by the Plan.

Participant's Accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) account earnings and (c) forfeitures of employer profit sharing contributions, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100 percent of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their contributions, plus actual earnings thereon. Employer profit sharing and matching contributions and earnings thereon become vested based on a graded schedule of 20% per year beginning upon attainment of one year of service and are fully vested after five years of service.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount up to the value of the participant's vested interest in his or her account. Account withdrawals must begin by April 1 of the calendar year following the calendar year in which the participant attains age 70½. The Plan also allows for in-service distributions for participants who are age 59 ½ or older and hardship distributions if certain conditions are met, as defined in the Plan agreement.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of 50% of their vested account balance or \$50,000 less the participant's highest outstanding loan balance during the previous 12 months. The loans are secured by the vested balance in the participant's account and bear interest at a reasonable rate as determined by the trustee. Repayments of the amounts borrowed are scheduled as after-tax payroll deductions over a maximum of five years, unless the loan is used to purchase a primary residence in which case the plan administrator may allow for a longer repayment period.

THE KENTROX RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures: At December 31, 2013 and 2012, forfeited non-vested accounts were \$3,153 and \$6,244, respectively. These accounts are first used to pay administrative expenses of the Plan. Any remaining forfeitures may be used to reduce the employer matching or profit sharing contributions or may be allocated to plan participants. During 2013, \$15,075 of forfeited employer matching contributions were used to offset employer matching contributions.

Administrative Expenses: The Company elects to pay the administrative expenses of the Plan, the fees and the retainers of the Plan's trustee, accountant, legal counsel, investment managers, administrator and other specialists, except expenses relating directly to the investments of the Plan. Should the Company elect not to pay all or part of such expenses, the trustee then pays these expenses from the Plan's assets.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest through its investments in a stable value collective trust fund.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market liquidity, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized as of the beginning of the reporting period.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan:

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Stable value collective trust fund: The fair values of participation units in the stable value collective trust fund are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interest in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The primary investment objective of the stable value collective trust fund is the preservation of principal and to provide reasonable interest income obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. The stable value collective trust fund holds investment grade, fixed and floating rate securities, investment contracts and synthetic investment contracts. The stable value collective trust held directly by the Plan normally provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. The Plan holds shares of mutual funds managed by an affiliate of Bank of America, N.A. Bank of America, N.A. is the Plan's trustee, and therefore, these transactions and the Plan's payment of trustee fees, investment management and administrative fees to Bank of America, N.A. qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 7 - TAX STATUS

The Internal Revenue Service (IRS) issued an opinion letter dated March 31, 2008, indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code. Plan management has applied for a new determination letter. A response from the IRS has not yet been received.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
