Note 1 – Description of the Plan:

The following description of the Ide Pontiac, Inc. 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company that have worked more than 1,000 hours during the Plan year and who have completed one month of service for elective deferrals, and who have completed one year of service for employer profit sharing contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to an amount equal to a dollar amount or percentage of the Contribution Participant's Compensation not to exceed the limits imposed by Code Sections 401(k), 402(g), 404 and 415, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes, at their discretion, a profit sharing contribution in an amount to be determined from year to year. The employer did not make a profit sharing contribution during the Plan year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's contribution, and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants become fully vested in the employer contribution account upon completion of six years of service. The Plan provides for partial vesting in the employer contribution plus actual earnings as follows:

Years of Service	Percentage
Less than (<) 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Note 1 - Description of the Plan (Continued):

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or the lesser of ninety-five percent (95%) of one half the vested balance or ninety-five percent (95%) of the total vested account balance excluding the Roth Elective Deferral balance. Participants may only have one loan outstanding and the terms may not exceed four and a half years. An exception is made for the purpose of a primary residence as defined. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent (1%) and will be determined on the date the loan is requested. Principal and interest is paid ratably through payroll deductions on a per-payroll basis.

Payment of Benefits

An account is established for each participant in the Plan to which contributions and any related earnings thereon are credited. The amount of benefits payable under the plan is the vested amount in the participant's account as of the date of retirement, death or disability. Benefits payable to participants upon termination of employment prior to normal retirement age is the vested amount in the participant's account as of the day of the distribution. In the case of retirement or disability, the participant's accrued benefit is distributed to him (her) or in the case of death, to his (her) beneficiary, either in a lump sum or in periodic installments not to exceed the employee's life expectancy (excluding a life annuity) determined at the option of the employee at the time of separation.

Terminated employees with $1,000 or less in their participant accounts will be distributed the entire balance of their vested account as soon as administratively feasible.

Forfeited Accounts

At December 31, 2013, there were no forfeited non-vested accounts.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared under the cash basis of accounting.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Investments Valuation and Income Recognition

The Plan's investments are stated at market value as determined by quoted prices in an active market. Interest income is recorded on a cash basis. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Marketable Securities

The Company classifies its debt and marketable equity securities into held-to-maturity, trading, or available-for-sale categories. Debt securities are classified as held-to-maturity when the Company has the positive intent and ability to hold the securities to maturity. Debt securities for which the Company does not have the intent or ability to hold to maturity are classified as available-for-sale. Held-to-maturity securities are recorded as either short-term or long-term on the balance sheet based on the contractual maturity date and are stated at amortized cost. Marketable securities that are bought principally for the purpose of selling in the near future are classified as trading securities and are reported at fair value, which the unrealized gains and losses recognized in earnings. Marketable securities not classified as trading securities are classified as available-for-sale securities and are carried at fair market value, with the unrealized gains and losses, net of tax, included in the determination of comprehensive income and reported in stockholder's equity.

The Company considers all of its debt and marketable equity securities to be available-for-sale securities.

Financial Accounting Standards Board Statement (FASB) No. 157, *Fair Value Measurements*, establishes a framwork for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilties (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilties in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include; quoted prices for similar assets or liabilties in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or nother means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liablity.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 2 - Summary of Significant Accounting Policies (Continued):

Marketable Securities (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Administrative Costs

Administrative costs of the plan are paid by the Plan Sponsor if not paid by the Plan.

Payments of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles which requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through October 9, 2014, the date the financial statements were available to be issued. There were no material reportable subsequent events.

Note 3 - Plan Termination:

The Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 4 - Tax Status:

The Plan and related trust are designed based upon a prototype plan and trust. The prototype plan complies with the applicable sections of the Internal Revenue Code as determined by the Internal Revenue Service in its letter dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income taxes is included in the accompanying financial statements.

Note 5 - Related Party Transactions:

Certain Plan investments are held in investments managed by Paychex Securities Corporation. Transactions associated with the investments qualify as party-in-interest transactions.

Note 6 – Mutual Funds:

The following are the major categories of assets and liabilties measured at fair value on a recurring basis during the years ended December 31, 2013, using quoted prices in active markets for identical assets (Level 1); significant other observable inputs (Level 2); and significant unobservable inputs (Level 3):

Assets at Fair Value as of December 31, 2013

	Level 1	Level 2	Level 3	Total
Equity Securities (Available-For-Sale)	$2,035,139	$ -	$ -	$2,035,139

Note 7 - Investments:

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2013.

American Funds AMCAP Fund Class R-6	$ 635,279
American Funds EuroPacific Growth	$ 268,789
T. Rowe Price Retirement 2010 Fund	$ 177,897

Wasatch Small Cap Growth Fund	$ 122,003

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $320,300.

Note 8 - Financial Data Certified by Trustee:

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and the supplemental schedule is complete and accurate.

The reported values of investments as of December 31, 2013 are as follows:

Investments at fair value as determined by quoted market price	
Cash and money market funds	$ 26,251
Investments	2,035,139
Participant loans	2,886
	$ 2,064,276
Investment income:	
Net appreciation in fair value of investments	$ 320,300
Interest and dividends	94,137
Total investment gain	$ 414,437

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to related information included in the financial statements and the supplemental schedule.

Note 9 – Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 1 – Description of the Plan:

The following description of the Ide Pontiac, Inc. 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company that have worked more than 1,000 hours during the Plan year and who have completed one month of service for elective deferrals, and who have completed one year of service for employer profit sharing contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to an amount equal to a dollar amount or percentage of the Contribution Participant's Compensation not to exceed the limits imposed by Code Sections 401(k), 402(g), 404 and 415, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes, at their discretion, a profit sharing contribution in an amount to be determined from year to year. The employer did not make a profit sharing contribution during the Plan year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's contribution, and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants become fully vested in the employer contribution account upon completion of six years of service. The Plan provides for partial vesting in the employer contribution plus actual earnings as follows:

Years of Service	Percentage
Less than (<) 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Note 1 - Description of the Plan (Continued):

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or the lesser of ninety-five percent (95%) of one half the vested balance or ninety-five percent (95%) of the total vested account balance excluding the Roth Elective Deferral balance. Participants may only have one loan outstanding and the terms may not exceed four and a half years. An exception is made for the purpose of a primary residence as defined. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent (1%) and will be determined on the date the loan is requested. Principal and interest is paid ratably through payroll deductions on a per-payroll basis.

Payment of Benefits

An account is established for each participant in the Plan to which contributions and any related earnings thereon are credited. The amount of benefits payable under the plan is the vested amount in the participant's account as of the date of retirement, death or disability. Benefits payable to participants upon termination of employment prior to normal retirement age is the vested amount in the participant's account as of the day of the distribution. In the case of retirement or disability, the participant's accrued benefit is distributed to him (her) or in the case of death, to his (her) beneficiary, either in a lump sum or in periodic installments not to exceed the employee's life expectancy (excluding a life annuity) determined at the option of the employee at the time of separation.

Terminated employees with $1,000 or less in their participant accounts will be distributed the entire balance of their vested account as soon as administratively feasible.

Forfeited Accounts

At December 31, 2013, there were no forfeited non-vested accounts.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared under the cash basis of accounting.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Investments Valuation and Income Recognition

The Plan's investments are stated at market value as determined by quoted prices in an active market. Interest income is recorded on a cash basis. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Marketable Securities

The Company classifies its debt and marketable equity securities into held-to-maturity, trading, or available-for-sale categories. Debt securities are classified as held-to-maturity when the Company has the positive intent and ability to hold the securities to maturity. Debt securities for which the Company does not have the intent or ability to hold to maturity are classified as available-for-sale. Held-to-maturity securities are recorded as either short-term or long-term on the balance sheet based on the contractual maturity date and are stated at amortized cost. Marketable securities that are bought principally for the purpose of selling in the near future are classified as trading securities and are reported at fair value, which the unrealized gains and losses recognized in earnings. Marketable securities not classified as trading securities are classified as available-for-sale securities and are carried at fair market value, with the unrealized gains and losses, net of tax, included in the determination of comprehensive income and reported in stockholder's equity.

The Company considers all of its debt and marketable equity securities to be available-for-sale securities.

Financial Accounting Standards Board Statement (FASB) No. 157, *Fair Value Measurements*, establishes a framwork for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilties (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilties in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include; quoted prices for similar assets or liabilties in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or nother means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liablity.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 2 - Summary of Significant Accounting Policies (Continued):

Marketable Securities (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Administrative Costs

Administrative costs of the plan are paid by the Plan Sponsor if not paid by the Plan.

Payments of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles which requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through October 9, 2014, the date the financial statements were available to be issued. There were no material reportable subsequent events.

Note 3 - Plan Termination:

The Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 4 - Tax Status:

The Plan and related trust are designed based upon a prototype plan and trust. The prototype plan complies with the applicable sections of the Internal Revenue Code as determined by the Internal Revenue Service in its letter dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income taxes is included in the accompanying financial statements.

Note 5 - Related Party Transactions:

Certain Plan investments are held in investments managed by Paychex Securities Corporation. Transactions associated with the investments qualify as party-in-interest transactions.

Note 6 – Mutual Funds:

The following are the major categories of assets and liabilties measured at fair value on a recurring basis during the years ended December 31, 2013, using quoted prices in active markets for identical assets (Level 1); significant other observable inputs (Level 2); and significant unobservable inputs (Level 3):

Note 9 – Risks and Uncertainties:

Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
