Note A - Description of the Plan

Pipeliners' Retirement Plan (the "Plan") was established on January 1, 1991. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that covers all employees of InfraSource Construction, LLC and InfraSource Installation LLC (the "Companies") who are members of the United Steelworkers Union, Local 348-08 (Successor to the Paper, Allied Industrial, Chemical and Energy Workers International Union). All employees, age 18 years or older, except foremen of InfraSource Underground Construction, LLC, are eligible to participate upon specified entry dates, when they have completed twelve months of employment and 1,000 hours of service. Foremen of InfraSource Underground Construction, LLC are eligible the first of the month following the later of completion of sixty days of service. Effective June 30, 1998, upon expiration of the union contract, employees of Mid-Atlantic Pipeliners, Inc. ("Mid-Atlantic") were no longer eligible for participation in the Plan. Account balances of some of the former Mid-Atlantic participants still remain in the Plan. However, no company contributions have been made by Mid-Atlantic since June 30, 1998. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and amendments.

Contributions

Each year, participants may contribute to the Plan a percentage of their compensation, not to exceed certain dollar limitations established by the Internal Revenue Code. The Companies may contribute a discretionary match amount based on the participants' contributions. For the years ended December 31, 2013 and 2012, the Companies contributed 50% of the first 10% of the participant contributions. In addition, the Companies contribute $.85 for each hour of service worked by all participants based on the union contract. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participant forfeitures are used to reduce the Companies' total contribution.

Note A - Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Companies' contributions, and earnings thereon. The account is charged for benefit and withdrawal payments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants may choose to direct their contributions and account balances among the Plan's various investment alternatives. Participants are allowed to change their investment options daily.

Vesting

Participants are immediately vested in voluntary contributions plus actual earnings thereon. In addition, participants vest immediately in the Companies' contributions based on hours of service under union contracts, plus earnings thereon. Participants become fully vested in the matching contributions made by the Companies after three years of service.

Forfeitures

Forfeited non-vested account balances may be used to pay administrative expenses, or to reduce future employer contributions. During the years ended December 31, 2013 and 2012, forfeitures of $1,066 and $20,569, respectively, were used to offset the Companies' contributions. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $22,140 and $21,265, respectively.

Payment of Benefits

Upon retirement, death, disability or termination of employment, a terminating participant's account of less than $1,000 may be distributed in a lump-sum without the consent of the participant. Account balances exceeding $1,000 are paid in an annuity, lump-sum or installment payments, at the participant's discretion.

Administrative Expenses

The Companies absorb substantially all administrative expenses of the Plan.

Plan Termination

Although they have not expressed any intent to do so, the Companies reserve the right at any time by action of their Board of Directors to amend or terminate the Plan subject to the provisions of ERISA and the Union contract. In the event of Plan termination, participants would become fully vested in their account balances.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Benefit Payments

Benefit payments are recorded when paid.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation in fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through October 7, 2014, the date the financial statements were available for issue.

Note C - Investments

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING Life Insurance and Annuity Company ("ING"), the custodian of the Plan, has certified to the completeness and accuracy of the investment information presented in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2013 and 2012, and the December 31, 2013 Schedule of Assets (Held at End of Year).

The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31 are as follows:

	2013	2012
Pooled separate accounts		
ING VP Money Market Portfolio	**$ 592,231**	$ 570,499
ING VP Intermediate Bond Portfolio	**200,616**	198,872
ING VP Balanced Portfolio	**246,363**	220,925
ING VP Growth & Income Portfolio	**513,500**	327,806
Fidelity VIP Equity-Income Portfolio	**227,731**	170,988
Fidelity VIP Growth Portfolio	**210,737**	158,851
Fidelity VIP Overseas Portfolio	**148,102**	Less than 5%
Unallocated group annuity contract, at contract value		
ING Fixed Account	**314,267**	223,394

The Plan's fund investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated in value during the years ended December 31, 2013 and 2012 by $349,436 and $203,673, respectively.

Note D - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASB") 820, *Fair Value Measurements and* Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Note D - Fair Value Measurements (Continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no changes in the methodologies used at December 31, 2013 and 2012. Following is a description of the valuation methodologies used for investments measured at fair value:

Pooled separate accounts ("PSA") – Valued at the Net asset Value ("NAV") of units of an insurance company pooled separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the plan to initiate a full redemption of the pooled separate account, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Group annuity contract – Valued at fair value by discounting the related cash flows based on current year yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Note D - Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Group annuity contract	$ -	$ 314,267	$ -	$ 314,267
Pooled separate accounts:

Total investments at fair value	$ -	$2,774,907	$ -	$2,774,907

Note D - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Group annuity contract	$ -	$ 223,394	$ -	$ 223,394
Pooled separate accounts:				
Intermediate	-	198,872	-	198,872
Large cap	-	170,699	-	170,699
Mid cap	-	79,560	-	79,560

Fixed income	-	570,499	-	570,499
Total investments at fair value	$ -	$2,363,431	$ -	$2,363,431

Pooled separate accounts seek to either replicate the movements of an index of a specific financial market or to maximize returns on investment allocation models as specified in the prospectuses of the individual pooled separate accounts. For the years ended December 31, 2013 and 2012, the Plan had no unfunded commitments and participants may redeem the investments on a daily basis. Should the Plan elect to remove an investment option, there is no redemption notice required.

Note E - Related Party Transactions

Plan investments include pooled separate accounts and an investment contract managed by ING. This party is the custodian as defined by the Plan and, therefore, transactions with ING qualify as party-in-interest. Such transactions are not considered prohibited transactions by statutory exemptions under ERISA regulations. During 2013 and 2012, the Company paid certain administrative expenses of the Plan.

Note F - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2013	2012
Net assets available for benefits per the financial statements	**$2,790,828**	$2,380,182

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013:

Net increase in net assets available for benefits per the financial statements	$ 410,646
Prior year contributions receivable	17,807
Current year contributions receivable	(15,921)
Prior year return of excess contributions	(1,056)
Rounding adjustment	1
Net increase in net assets available for benefits per the Form 5500	$ 411,477

Note G - Income Tax Status

The Plan was most recently amended and restated effective January 1, 2009 in the form of The Angell Pension Group Inc. Volume Submitter Profit Sharing Plan with CODA (the "Volume Submitter Plan"). The Internal Revenue Service issued a favorable opinion as to the form of the Volume Submitter Plan on March 31, 2008. The Plan Administrator and the Company's counsel have discovered certain plan document failures and operational failures with respect to the Plan, all of which the Company is correcting in accordance with the requirements of the Internal Revenue Service's Employee Plans Compliance Resolution System, as set forth under Revenue Procedure 2013-12. The Company will make a Voluntary Correction Program submission to the Internal Revenue Service and request a compliance statement in connection with the correction procedures undertaken by the Company with respect to these failures.

Note G - Income Tax Status (Continued)

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note H - Risks and Uncertainties

The Plan invests in various investment securities, including pooled separate accounts and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the financial statements.
