The following brief description of the Down-Lite International, Inc. Profit Sharing Plan (the “Plan”) is provided for general information purposes. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General Information

The Plan is a defined contribution 401(k) and profit sharing plan covering substantially all employees of Down-Lite International, Inc. (the “Company”) who are not subject to a collective bargaining agreement, unless that agreement specifically allows for participation. Employees are eligible to participate in the before-tax component of the Plan and to receive an allocation of Company contributions after reaching the age of 21 and 60 days service at the Company. Upon satisfaction of the eligibility requirements, employees may enter the Plan on the first day of the quarter following the date in which the eligibility requirements were met. Fifth Third Bank serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is qualified under the Internal Revenue Code (Code).

Contributions

The Plan is subject to the Annual Addition Limitations set forth by the Internal Revenue Service which allows participants to defer up to 100% of their salary until this maximum contribution has been reached. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or benefit plans. Participants may direct investment of their account balances into various investment options offered by the Plan. Currently, the Plan offers 14 mutual funds and two common/collective trust fund as options for participants. Participants may change their investment options at any time via phone, internet or enrollment form.

The Plan has automatic enrollment for all employees who meet the eligibility requirements. An automatic deferral election of 3% will be withheld if an election is not made by the date the participant becomes eligible.

The Company’s discretionary matching contribution shall be determined by the Company with respect to each plan year. Matching contributions shall be contributed to each eligible participant in accordance with the nondiscriminatory formula determined by the Company. For the year ended December 31, 2013, the plan contributed 25% of the first 3% of the participant’s deferral. The Company matching contribution for the year ended December 31, 2013 was \$43,165.

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions and Plan earnings and forfeitures of terminated participants' non-vested accounts. Investment contracts held by a defined contribution plan are required to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in common collective trust (CCT) investments held by the Plan. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the CCT as well as the adjustment of the investment in the CCT from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments, except for its common collective trust, are stated at fair value. Shares of registered investment companies (mutual funds) are valued at the net asset value of shares held by the Plan at year end. Shares of the common collective trust are valued at their net unit value as determined by the trustee at year end except when holding fully benefit-responsive investment contracts. The fair value of such investment contracts held by the common collective trust is determined using the market price of the underlying securities and the value of the investment contract. See Note D for discussion of fair value measurement.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation and depreciation are calculated by comparing fair value to cost. Gains and losses are computed using the specific identification method.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

NOTE D – FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 280, *Fair Value Measurements* (ASC Topic 280), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 280 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Bond and mutual funds: Valued at quoted market prices of the underlying investments and are based on the net asset value of the shares held by the Plan at year end.

Common/collective Trust: The fair value of investments in the common/collective trust is determined by the fund trustee based on the fair value or the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013.

	Level 1	Level 2	Level 3	Total
Common/collective trust	\$ 476,791	\$ 1,061,368	\$ -	\$ 1,538,159

NOTE E – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Goldman Sachs Stable Value Collective Trust Fund is considered a fully benefit-responsive investment contract. This common trust fund is operated by Fifth Third Bank. The fund is included in the Statement of Net Assets Available for Benefits at its fair market value and adjusted for the difference between the fair value and contract value as reported to the Plan by The Goldman Sachs Trust Company, N.A. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The average yield and crediting interest rates of the fund were approximately 1.29% for the year ended 2013.

NOTE G – TAX STATUS

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated January 1, 2009, stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan sponsor has determined that it is eligible for, and has chosen to rely on, the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

The Plan has been amended subsequent to the issuance of the determination letter. The Plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) of the Plan if the Plan has taken an uncertain tax position that are more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in process. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H – RISKS AND UNCERTAINTIES

The Plan provides for various investment options including any combination of certain mutual funds. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits and participants' individual account balances.

NOTE I – PARTIES-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, and a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are shares of mutual funds managed by Fifth Third Bank. Fifth Third Bank is the trustee, as defined by the Plan, and qualifies as a party-in-interest.

Certain administrative services are provided by the Company at no cost to the Plan.

NOTE J– CORRECTIVE DISTRIBUTIONS

The Plan failed to pass the Average Deferral Percentage (ADP) Test for the plan year ended December 31, 2013.

The accompanying statements of net assets available for benefits include a liability of \$1,771 and \$2,315 as of December 31, 2013 and 2012, respectively, related to the excess contributions payable to the participants. The plan distributed these corrective distribution amounts to the participants within three months after the Plan's year end.

NOTE K – SUBSEQUENT EVENTS

In connection with the preparation of the Plan's financial statements for the year ended December 31, 2013, events and transactions subsequent to December 31, 2013 through October 9, 2014 have been evaluated by the plan administrator for possible adjustment and/or disclosure. No subsequent events requiring financial statement adjustment and/or disclosure have been identified.
