Independent Auditors' Report

To the Plan Administrator of the
Direct Power and Water Corporation
401(k) Plan
Mayfield Village, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the Direct Power and Water Corporation 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Plan Description

The following description of the Direct Power and Water Corporation 401(k) Plan (the "Plan") is a summary of certain provisions of the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established by the Direct Power and Water Corporation (the "Company") on January 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – The Plan is administered by two employees of the Company as Trustees of the Plan.

Participation and Contributions – Substantially all employees of the Company are eligible to participate in the Plan after completing one year of service. Employees can enter the Plan on January 1 or July 1 coinciding with, or following, their completion of one year of service. Participants may contribute up to 100% of their compensation to the Plan, subject to limitations contained in the Internal Revenue Code ("IRC"), on a pretax basis.

The Company is required to make a safe harbor matching contribution equal to 100% of each participant's contribution up to 3% of the participant's compensation plus 50% of each participant's contribution between 3% and 5% of the participant's compensation.

The Company may also make an additional discretionary Company contribution. The discretionary contribution will be allocated based on the Company's determination each year. The Company did not make any discretionary contributions for 2013.

Participants' Accounts – The Plan maintains an individual account for each participant. These accounts are credited with participants' contributions, Company contributions, related earnings and expenses. Allocations are based on account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants elect to maintain their aggregate participant contributions in one or more of the investment funds. Separate accounting for each of the funds is made pursuant to the participant's designated election.

The net value of each participant account is established daily through the valuation of the funds at fair value.

Note 1. Plan Description (Continued)

Vesting – Participants are fully vested in their contributions to the Plan as well as any safe harbor matching contributions and the earnings thereon. Vesting in any discretionary Company contributions is based on years of service. A participant vests in discretionary Company contributions according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
At least 2 but less than 3	20%
At least 3 but less than 4	40%
At least 4 but less than 5	60%
At least 5 but less than 6	80%
6 or more	100%

For purposes of the above vesting schedule, a "year of service" is a measuring period beginning on the employee's date of hire. Generally, an employee will be credited with a "year of service" for each plan year in which the employee completes 1,000 hours of service beginning on the employee's date of hire and ending on the last day of employment with the Company.

Forfeitures – Forfeitures of nonvested account balances are used to reduce employer contributions. At December 31, 2013 and 2012, $462 remained as unallocated forfeitures. No amounts were forfeited during 2013.

Payment of Benefits – Participants, upon retirement, termination, disability, or the attainment of age 70½ or a participant's beneficiary upon the participant's death, may elect to either roll over the funds, or receive a lump-sum amount equal to the value of their account. Any participants with $5,000 or less in their account will be automatically be cashed out to an IRA maintained by a provider selected by the Company.

Notes Receivable From Participants – Participants may borrow from their accounts up to the lesser of $50,000 or 50% of their vested account balance, reduced by their highest outstanding note balance during the preceding 12 months. Note transactions are treated as a transfer from the respective investment fund to the loan fund. Note terms range from 1-5 years except for notes used for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a reasonable rate determined by the Company at the time of the loan request. Principal and interest are paid ratably through semi-monthly or bi-weekly payroll deductions.

Termination Provisions – The Company anticipates and believes that the Plan will continue indefinitely, however, the Company reserves the right to discontinue its contributions and terminate the Plan at any time by an action of its Trustees. In the event of termination of the Plan, the assets in the funds will be allocated and distributed to participants in accordance with the terms and provisions of the Plan and ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Company has evaluated subsequent events through October 8, 2014, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition – Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – All administrative fees of the Plan are paid by the Plan or by the Company at the option of the Company except fees related to participant loans, which are paid by the affected participants.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan holds various investment securities. Investment securities are exposed to various risks, such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 3. Investments

The Plan's investments are held by Charles Schwab ("Schwab"). The following are investments that represent 5% or more of the Plan's net assets at December 31:

	2013	2012
Charles Schwab Money Market Fund	$667,694	$604,599
Apple, Inc. - common stock	267,632	*
Fastenal Company - common stock	*	108,971

* Investment did not represent 5% of the Plan's net assets for year presented

During the year ended December 31, 2013, the Plan's investments appreciated (depreciated) in value as follows:

Common stock	$134,432
Registered investment companies	16,028
Exchange traded funds	(10,518)
	$139,942

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

The following is a description of the valuation methodologies used for assets of the Plan measured at fair value:

- Registered investment companies and money market fund: Valued at the quoted net asset value of shares held by the Plan at year end, and are classified as Level 1.

Note 4. Fair Value Measurements (Continued)

- Common stock and exchange traded funds: Valued at the closing price reported in the active market in which the individual securities are traded, and is classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2012 to 2013. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Participant-directed brokerage accounts:				
Money market fund	$ 667,694	$ -	$ -	$ 667,694

Exchange traded funds	9,240	-	-	9,240
Total	$1,531,984	$ -	$ -	$1,531,984

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Participant-directed brokerage accounts:				
Money market fund	$ 604,599	$ -	$ -	$ 604,599
Common stock	410,114	-	-	410,114
Registered investment companies	144,601	-	-	144,601
Exchange traded funds	29,943	-	-	29,943
Total	$1,189,257	$ -	$ -	$1,189,257

Note 5. Party-in-Interest Transactions

The Plan paid $640 in 2013 in fees to Schwab for administrative services. Additionally, within the self-directed brokerage accounts are funds managed by Schwab; therefore, these transactions qualify as party-in-interest.

Note 6. Tax Status

The Plan is a prototype plan, which was designed by Pension Planning Consultants, the recordkeeper of the Plan, in accordance with applicable IRC requirements to qualify for tax-exempt status. The prototype plan obtained its latest determination letter of the prototype plan on September 30, 2008, in which the Internal Revenue Service stated that the prototype document on which this Plan is based was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2013, the Plan's tax years from 2010 and thereafter remain subject to examination by the Internal Revenue Service, as well as various other taxing authorities.
