Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Form 5500, Schedule H, Line 4j – Schedule of Reportable Transactions as of or for the year ended December 31, 2013 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA.

EFW INC. CONSOLIDATED RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

A. Description of the Plan

General

The following brief description of the EFW Inc. Consolidated Retirement Plan (the "Plan") is provided for general information purposes only. The Plan is sponsored by EFW Inc. (the "Company"). Participants should refer to the Plan document for more complete information.

The Plan was effective February 15, 1993, restated January 1, 2012, and is a non-contributory defined benefit plan covering all employees of the Company who have completed one year of service and have attained age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In August 2009, the Compensation Committee of the Board of Directors of Elbit Systems US Corp. ("Elbit Systems US"), the parent company of the Company, approved a freeze of the Plan effective January 1, 2010. The "soft freeze" of the Plan will prohibit non-represented employees that are hired on or after the freeze date from being added to the Plan. Existing participants will continue to accrue benefits as defined under the Plan's provisions based on years of service and Plan provisions in effect.

Contributions

The Company contributes amounts as necessary to provide assets sufficient to meet the benefits expected to be paid to Plan participants, conditioned upon their deductibility under the Internal Revenue Code (the "Code") Section 404. The Company will also make minimum funding contributions, as calculated by the Plan's actuary. The contribution to satisfy the minimum funding requirement was \$6,489,152 and \$5,281,176 for the Plan years 2013 and 2012, respectively.

Plan Expenses

Employees of the Company perform certain administrative functions of the Plan with no compensation from the Plan. In accordance with Plan provisions, the Company and the Plan both pay administrative expenses.

Plan Benefits

Participants accrue benefits as defined under the Plan's provisions based on years of service and Plan provisions in effect as of the date of determination.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

B. Summary of Significant Accounting Policies – continued

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. Refer to Note C for significant assumptions used in determining the Plan's present value of accumulated plan benefits.

Investments

The investments of the Plan are stated at fair value as of the end of the year and are generally subject to market or credit risks customarily associated with equity and fixed income investments. Fair values are determined with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic No. 820, *Fair Value Measurement*. FASB ASC Topic No. 820 defines fair value, establishes a framework for measuring fair value, and requires certain disclosures about assets and liabilities measured at fair value. See Note E for information related to the Plan's valuation methodologies under FASB ASC Topic No. 820.

Purchases and sales of securities are recorded on a trade-date basis. The net realized and unrealized gains on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are estimated future periodic payments, including lump-sum distributions attributable under the Plan's provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries and present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

NOTES TO FINANCIAL STATEMENTS (continued)

C. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by Plan participants to reflect the time value of money and the probability of payment (such as for death, disability, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of the accumulated plan benefits information based on a beginning of the year valuation is as follows:

	January 1,	
	2013	2012
Vested benefits:		
Participants currently receiving payments	\$ 18,808,384	\$ 13,725,713
Other vested participants	53,919,257	44,693,419
Total vested benefits	72,727,641	58,419,132
Non-vested benefits	2,220,432	3,279,073
Total actuarial present value of accumulated plan benefits	<u>\$ 74,948,073</u>	<u>\$ 61,698,205</u>

The following is a summary of the changes in the actuarial present value of accumulated plan benefits between the applicable benefit information dates:

	Year Ended January 1,	
	2013	2012
Actuarial present value of accumulated plan benefits at beginning of the year	\$ 61,698,205	\$ 60,393,078

C. Actuarial Present Value of Accumulated Plan Benefits – continued

The actuarial cost method used was the traditional unit credit actuarial cost method. The compensation increase assumption was 2.4% and the social security taxable wages base annual increase assumption was 3.0% per annum. The more significant assumptions underlying the actuarial computations as of January 1, 2013 for the respective actuarial valuations are as follows:

Interest discount rate	5.030%
Retirement age	From age 55 to 65

The actuarial assumptions related to the mortality basis are based on RP-2000 Combined (Male/Female) Regulation Section 1.430(h)(3) for 2013 and 2012.

The change in the actuarial assumptions was primarily due to the following: (1) a decrease in the Plan's effective interest rate from 5.610% in 2012 to 5.030% in 2013; and (2) changes to the mortality tables from the 2012 Internal Revenue Service ("IRS") prescribed tables to the 2013 IRS prescribed tables.

These actuarial assumptions are based on the presumption that the Plan will continue. If the Company terminates the Plan at some future date, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The Plan is funded by annual contributions from the Company (based on actuarial computations described above) and is non-contributory for participants. The Plan's actuary has determined that the minimum required contribution was \$6,489,152 and \$5,281,176 for the years ended December 31, 2013 or 2012, respectively; however, the Company made contributions of \$5,281,176 and \$5,515,165 for 2013 and 2012, respectively.

E. Fair Value Measurements

FASB ASC Topic No. 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined in FASB ASC Topic No. 820 are as follows:

Level 1 – Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 – Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for assets or liabilities through correlation with market data at the measurement date and for the duration of the instruments' anticipated lives.

EFW INC. CONSOLIDATED RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

E. Fair Value Measurements – continued

Level 3 – Inputs reflect the best estimate of what market participants would use in pricing assets or liabilities at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

The following table details the Plan's investments at fair value by level, within the fair value hierarchy, as of December 31, 2013 and 2012:

	Level 1

The Plan held no Level 2 or 3 investments as of December 31, 2013 or 2012.

F. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or relatives of such persons.

The Plan had approximately 3% and 2% of Plan assets invested in the common stock of Elbit Systems, Ltd., the parent company of EFW Inc., as of December 31, 2013 and 2012, respectively. In addition, certain Plan investments were comprised of shares of investment funds managed by Bank of America, N.A. (the "Trustee"). Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

EFW INC. CONSOLIDATED RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS *(continued)*

G. Plan Termination

While the Company has not expressed any intent to permanently discontinue its contributions, it is free to do so under the provisions of the Plan at any time, subject to the provisions of ERISA. Should the Company terminate the Plan at some future time, its net assets will generally not be available on a pro-rata basis to provide participant benefits.

Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at such time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's guarantee, while other benefits may not be provided for at all.

H. Information Certified by the Trustee

The Plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator limited auditing procedures with respect to the investment information certified by the Trustee, which included total investments as of December 31, 2013 and 2012, the total investment income for the years ended December 31, 2013 and 2012, and all information included in the supplemental schedules.

I. Income Tax Status

The Plan obtained its latest determination letter on September 6, 2002, in which the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter.

Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan was qualified and the related trust was tax exempt as of the financial statement dates.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes the Plan is no longer subject to income tax examination for years prior to 2010.

J. Subsequent Events

In preparing the accompanying financial statements, management has evaluated all subsequent events and transactions for potential recognition or disclosure through October 14, 2014, the date the financial statements were available for issuance.

SECTION XII

ACTUARIAL COST METHODS

Traditional Unit Credit

The actuarial cost method used in the development of the minimum contribution was the unit credit cost method.

The normal cost is the sum of all the individual normal costs for each participant. For active participants, the individual normal cost is the present value of the benefit earned during the year being valued. For active participants whose credited service equals or exceeds the plan maximum, if any, and for non-active participants, the normal cost is zero.

The actuarial accrued liability is the sum of the individual accrued liabilities for all participants. The individual accrued liability for an active participant is the present value of the accrued benefit as of the valuation date. The unfunded liability is the actuarial accrued liability less the valuation assets.

The total annual cost of the plan is the normal cost plus an amount to amortize the shortfall amount.

Projected Unit Credit

The actuarial cost method used in the development of the maximum contribution was the projected unit credit cost method.

Under this method, the normal cost is the sum of the individual normal costs for all participants. For an active participant, the individual normal cost is the present value at the current age of the projected benefit at the assumed retirement age, based on the actuarial assumptions, divided by the participant's expected years of credited service at that age. For a non-active participant, the normal cost is zero.

The actuarial accrued liability is the sum of the individual accrued liabilities for all plan participants. For an active participant, the individual accrued liability is the product of the normal cost and the total years of credited service at the current age. For non-active participants, the individual accrued liability is the present value at the current age of future benefits. The unfunded actuarial accrued liability equals the actuarial accrued liability less the valuation assets.

SECTION XIII

ACTUARIAL METHODS AND ASSUMPTIONS

A summary of the actuarial assumptions used in the valuation is presented below:

Valuation Assets – Average of fair market value of plan assets as of the current valuation date and as of the valuation date for each of the prior two plan years adjusted for contributions and distributions from the prior period to the current valuation date. The resulting amount is restricted to fall within 90% to 110% of the fair market value of assets [IRC Sec. 430(g)(3)(B)]. This method is restricted such that the expected earnings are limited by Internal Revenue Code Regulations. Therefore, the resulting asset value may tend to be less than the fair market value of assets over a long period of time.

Discount Rates for Minimum Funding – September 2012 MAP-21 segment rates (4 month look back):

*Normal Retirement
Benefit:*

The annual normal retirement benefit is equal to (1) plus (2) plus (3) plus (4):

(1) for years of service prior to 1994 - the annual accrued benefit under the Prior Plans as of December 31, 1993;

(2) for each year of service from 1994 to 1996 - 1.4% of compensation up to the Social Security taxable wage base plus 1.7% of compensation in excess of the Social Security taxable wage base;

(3) for each year of service subsequent to 1996 - 1.7% of compensation up to the Social Security taxable wage base plus 2.0% of compensation in excess of the Social Security taxable wage base;

(4) for collectively bargained participants, for each plan year after 2002, instead of (3) above, an annual accrual of \$720 for each full year of benefit service. This annual accrual is prorated for partial years of benefit service.

For collectively bargained participants employed on December 1, 2008, the annual accrual under item (4) above was increased to \$780 for each plan year after 2002.

Normal Form of Benefit: Life Annuity

Accrued Benefit: The amount to which a participant would be entitled under the benefit formula based upon the participant's Years of Benefit Service and the plan provisions in effect as of the date of determination.

*Top-Heavy Minimum
Accrued Benefit:*

All non-key employees will receive a minimum benefit equal to 2% of 5-year average compensation for each Year of Benefit Service in which the plan is top-heavy (up to a maximum of 10 years).

Early Retirement:

A participant who has attained age 55 with 5 Years of Service may retire and receive an early retirement benefit. The amount of the early retirement benefit equals the Accrued Benefit, reduced 0.25% for each month that retirement precedes the Normal Retirement Date. Benefits accrued as of December 31, 1993 are reduced in accordance with the Prior Plans if this would result in a greater early retirement benefit.

A collectively bargained participant may retire early with an unreduced benefit if the participant retires after attaining age 62 and completing 10 Years of Service.

Late Retirement: Participants who continue employment after their Normal Retirement Date are eligible for a late retirement benefit upon termination of employment equal to the Accrued Benefit determined on the participant's actual retirement date.

Death Benefit: Minimum qualified pre-retirement survivor benefit.

Vesting: Based on Years of Service, subject to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 5 years	0%
5 years or more	100%

Notwithstanding the above vesting schedule, a participant will become 100% vested upon reaching the Normal Retirement Date.

Participants who terminate with a vested benefit prior to becoming eligible for Early Retirement may commence payments as early as age 55. In this case, the benefit payable at the Normal Retirement Date is reduced actuarially to the actual benefit commencement date.

Optional Forms of Benefit: Life annuity, life annuity with 60 or 120 months guaranteed, joint and 50%, 66 2/3%, 75%, or 100% survivor annuity, joint and 50%, 66 2/3%, 75%, or 100% survivor annuity with pop-up feature, Social Security level income annuity.
