NOTE A - DESCRIPTION OF THE PLAN

The following description of the Echo Global Logistics 401(k) Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was established on January 1, 2013, is a defined contribution plan covering all employees of Echo Global Logistics (the Company) who have 30 days of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Act of 1974, as amended (ERISA).

Transfer from Plan

Effective January 1, 2013, Plan assets of approximately $3,950,000 merged into the Plan from the EMSI 401(k) Savings and Retirement Plan.

Plan Administration

The Plan's assets are held in a trust fund with Principal Trust Company, the trustee of the Plan. The Plan is administered by the 401(k) Plan Committee.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company contributes 25% of the first 4% of base compensation that a participant contributes to the Plan. The Company may provide a discretionary profit-sharing contribution. From January 1, 2013 (inception) through December 31, 2013, there were no discretionary profit-sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus the actual earnings thereon. Vesting in the Company contribution portion of participant accounts, plus the actual earnings thereon, is based on years of credited service. Upon normal retirement or death, all contributions become fully vested. Participants vest in the Company contribution portion and earnings thereon according to the following schedule:

Vesting service	Vesting rights
Less than one year of service	0%
One year of service	33
Two years of service	67
Three or more years of service	100

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account, which are based on rates available for similar loans from commercial lending institutions as determined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

At December 31, 2013, forfeited non-vested accounts totaled $10,498. Forfeitures may first be used to pay administrative expenses. Any forfeitures left after paying Plan expenses are used to offset Company contributions. There were no forfeitures used from January 1, 2013 (inception) through December 31, 2013.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as

well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract-value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Risk and Uncertainties

The Plan invests in various investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

NOTE C - INVESTMENTS

The following table presents the fair value of investments that represent 5% or more of the net assets as of December 31, 2013:

Principal Trust Target 2050 Fund R3	$978,467
Principal Trust Target 2045 Fund R3	817,709
Principal Trust Target 2040 Fund R3	364,934
Principal Trust Target 2035 Fund R3	417,516
Principal Trust Target 2030 Fund R3	821,890
Principal Trust Target 2025 Fund R3	708,501
Principal Large Cap S&P 500 Index R3 Fund	366,406

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $811,319, as follows:

Mutual funds	$207,411
Collective trust funds	603,908
Total	$811,319

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. That hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If an asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of December 31, 2013, and from January 1, 2013 (inception) through December 31, 2013.

Mutual funds - Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end.

Guaranteed investment contract - Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. For this contract, fair value approximates contract value.

Collective trust funds - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business matter.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Mutual funds				
Fixed income	$ 147,294	$ -	$ -	$ 147,294
International equity	270,085	-	-	270,085
Large U.S. equity	690,721	-	-	690,721
Small/mid U.S. equity	428,766	-	-	428,766
Guaranteed investment contract	-	-	171,528	171,528
Collective trust funds	-	4,787,352	-	4,787,352
Total investments at fair value	$1,536,866	$4,787,352	$171,528	$6,495,746

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets from January 1, 2013 (inception) through December 31, 2013:

Guaranteed investment contract	
Balance, beginning of year	$ -
Interest	2,064
Purchases	173,742
Sales	(4,278)
Balance, end of year	$171,528

Unrealized gains (losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instrument, the valuation techniques used to measure the fair value of that financial instrument, and the significant unobservable inputs and the values for those inputs.

Instrument	Fair value	Principal valuation technique	Unobservable inputs	Range of significant input values
Guaranteed investment contract	$171,528	Discounted cash flow	Crediting rate	1.35%

NOTE E - GUARANTEED INVESTMENT CONTRACT WITH NATIONAL INSURANCE COMPANY

In 2013, the Plan entered into a fully benefit-responsive guaranteed investment contract with Principal Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract approximates contract value. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The crediting rate earned by the guaranteed investment contract is 1.35% at December 31, 2013.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds and an interest in a guaranteed investment contract managed by an affiliate of Principal. The Plan also allows loans to participants. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE H - INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

NOTE I - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2013.

- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits from January 1, 2013 (inception) through December 31, 2013.

- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2013.

NOTE J - SUBSEQUENT EVENTS

The Plan has analyzed its activity subsequent to December 31, 2013 through October 14, 2014, the date the financial statements were available to be issued, and has determined that it does not have any material subsequent events that require adjustment to or disclosure in these financial statements.
