Corporate Business Solutions 401(k) Plan

Notes to Financial Statements

A. DESCRIPTION OF THE PLAN

The following description of the Corporate Business Solutions 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General. Southeastern Employee Benefits Group, Inc. d/b/a Corporate Business Solutions (the "Company"), a professional employer organization, is the sponsor of the Plan which is a multiple employer plan in which various unrelated employers participate. The Plan is a defined contribution plan covering substantially all full time employees of the Company who have completed one hour of service with the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). A participant must be employed on the last day of the plan year during such plan year to be an active participant.

Contributions. Employee contributions to the Plan are made through pre-tax salary deferrals not to exceed the amount allowable by law for income tax purposes. The Company may make discretionary matching contributions, as determined prior to the end of the plan year, equal to a percentage of the participant's elective deferrals. Each participating employers' adoption agreement determines the Company's matching contribution.

The Company may also make a qualified non-elective contribution or a profit sharing contribution. Both of these contributions are discretionary.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting. Participants are immediately vested in their contributions at all times. Vesting in each Company's matching and discretionary profit sharing contributions is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range from 5.25% to 10.25% on loans outstanding at December 31, 2013. Principal and interest is paid ratably through payroll deductions.

Notes to Financial Statements (Continued)

Payment of Benefits. Upon retirement (age 65), death, disability, or attainment of age 59-1/2, a participant or beneficiary may elect to receive either a lump sum amount equal to the value of his or her account, or regular periodic installments, as provided for by the Plan.

Upon termination of service for a reason other than normal retirement, death or disability, a participant may receive the value of the vested interest in his or her account as provided for by the Plan.

In the event of a hardship as defined by the Plan, participants may withdraw an amount not to exceed the total of all their salary reductions and vested employer contributions as provided for by the Plan.

Administrative Expenses. Administrative expenses of the Plan are paid by the Plan as provided for in the Plan document.

Forfeited Accounts. At December 31, 2013 and 2012, forfeited, non-vested accounts totaled \$10,094 and \$30,528, respectively. These accounts will either be used to pay Plan expenses or to reduce future employer contributions. In 2013, employer contributions were reduced by \$23,880 from forfeited non-vested accounts.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments includes both realized and unrealized gains and losses on investments.

Management fees and operating expenses charged to the Plan for investments in pooled separate accounts and guaranteed investment contracts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires Plan management to make estimates that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payment of Benefits. Benefits are recorded when paid.

Risks and Uncertainties. The Plan's investments include pooled separate accounts and guaranteed interest accounts, which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to various risks, such as interest rate, credit risks, and overall market volatility. Due to the level of risk associated with certain investment securities and the levels of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment

Notes to Financial Statements (Continued)

securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements and schedule.

Excess Contributions. The Plan is required to return excess deferral contributions as required to satisfy the nondiscrimination provisions of the Plan. The amount is included in the statements of net assets available for benefits as corrective distributions payable.

Notes Receivable from Participants. Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

C. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities inputs (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

Notes to Financial Statements (Continued)

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Pooled separate accounts: Valued at the net asset value of shares held by the Plan at year end, which is based on the quoted market prices of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

- (1) Aggressive growth funds seek long-term growth of capital. The funds normally invest approximately 100% of assets in underlying funds which invest primarily in equity securities or they may have an equity/fixed-income fund allocation of 90%/10%. There are no restrictions on redemptions of these investments and fair value is based upon net asset values of the underlying investments held by the funds.

Notes to Financial Statements (Continued)

- (2) Conservative funds seek the maximum current income that is consistent with maintaining liquidity and preserving capital. The fund intends to maintain a stable \$1 share price. There are no restrictions on redemptions of these investments and fair value is based upon net asset values of the underlying investments held by the funds.
- (3) Growth and income funds seek current income, long-term growth of capital and income, and preservation of capital. To pursue these goals, the funds allocate investments among a diversified mix of debt and equity securities. With regard to the funds' equity securities, the managers look for companies that appear to be undervalued compared to their historical valuations relative to the market. The fund's debt securities are used to enhance current income and provide some stability. There are no restrictions on redemptions of these investments and fair value is based upon net asset values of the underlying investments held by the funds.
- (4) Growth funds seek long-term growth of capital. The funds normally invest approximately 80% of its assets in underlying funds that invest primarily in equity securities, and approximately 20% in underlying funds that invest primarily in fixed-income securities. There are no restrictions on redemptions of these investments and fair value is based upon net asset values of the underlying investments held by the funds.
- (5) Income funds seek a high level of current income by primarily investing in foreign debt securities of developed and emerging markets, U.S. government and agency securities and U.S. high yield bonds. The funds may also invest in preferred stock and other types of debt securities. There are no restrictions on redemptions of these investments and fair value is based upon net asset values of the underlying investments held by the funds.
- (6) Lifestyle funds invest in different percentage combinations of stocks and bonds based on the different objectives. The funds offer instant and broad diversification with exposure to a wide range of asset classes and investment styles. There are no restrictions on redemptions of these investments and fair value is based upon net asset values of the underlying investments held by the funds.
- (7) Guaranteed accounts guarantee the return of principal plus compound interest earned over a defined 3-, 5- or 10-year term, less any applicable contract or participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed account in that month. Contributions under a group annuity contract can be allocated to guaranteed interest accounts (referred to as "guaranteed accounts"), which are not, by definition, an investment contract, but rather are an investment option offered under the John Hancock group annuity contract.

D. GUARANTEED INVESTMENT CONTRACTS

The Plan entered into benefit-responsive investment contracts with John Hancock Life Insurance Company (U.S.A.) ("John Hancock"). John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The contracts are not considered fully-benefit responsive as described in FASB ASC 946-210, *Financial Services - Investment Companies*, as the contracts may be subject to a market value adjustment depending on the amount and recipient fund, certain withdrawals may be subject to a market value adjustment depending on the withdrawal amount and the reason for the withdrawal, certain transfers from certain sub-accounts may be subject to a redemption fee as set by the underlying fund manager and depending on the holding period of the underlying fund, and a contract charge may be applied at contract termination, per the contract specifications.

The contract value of the investment contracts at December 31, 2013 and 2012 was \$161,629 and \$197,278, respectively. Rates of interest for 2013 were 0.10% (3 year contracts), 0.50% (5 year contracts), and 0.75% (10 year contracts). Rates of interest for 2012 were 0.10% (3 year contracts), 0.15% (5 year contracts), and 0.40% (10 year contracts)

F. INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

The following is a summary of unaudited information regarding the Plan as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by John Hancock, the custodian of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the custodian that such information is complete and accurate.

G. INCOME TAX STATUS

The Plan adopted a Volume Submitter Profit Sharing Plan with CODA which received an opinion letter dated March 31, 2008. The letter indicates that the Plan and related trust are designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter and the Prototype Plan has been amended since receiving the opinion letter; however, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Notes to Financial Statements (Continued)

GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

H. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by John Hancock and guaranteed investment contracts (Note D) with John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

During 2013, fees of \$54,970 were paid to John Hancock as investment fees, \$30,000 was paid to R. Bruce Tanner and Associates as administration fees, and \$20,608 was paid as legal and audit fees.

I. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

J. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 15, 2014, which is the date the financial statements were available to be issued, and have determined that there are no subsequent events that require disclosure under ASC 855 *Subsequent Events*.
