401(K) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS
December 31, 2013

Note A - Plan Description

The following description of the Valley Retina Institute PA 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is sponsored by seven affiliated companies for the benefit of their employees. All eligible employees of Valley Retina Institute PA, Ophthalmic Consultants of Texas PA, The Center for Laser Vision Corrections LP, Precision View Management LLC, Accent Diabetic Health Products LLC and RGV Optical Images LLC (the "Company") may participate in the Plan. The Plan is a defined contribution plan, covering all full time employees of the Company who have one year of service and are age twenty-one or older.

Contributions

Each year, participants may make elective deferrals up to the maximum percentage allowed by Internal Revenue Code (IRC) regulations. The Company did not make a discretionary contribution to the Plan in 2013.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary contributions and Plan earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's respective vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account or installments as determined by the Plan. For termination of service for other reasons, participants may receive the value of the vested interest as a lump-sum distribution.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Companies.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2014, the date the financial statements were available to be issued.

Note C - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.

Note D - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note E - Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012 consist of the following:

		2013	2012
*	Nationwide Destination 2020	$ 18,640	$ 13,746
*	Nationwide Destination 2025	112,641	89,991
*	Nationwide Destination 2030	70,151	27,620
*	Nationwide Destination 2035	44,266	29,831
*	Nationwide Destination 2040	18,494	12,010
	Blackrock Equity Dividend	27,074	13,368

During 2013 the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $49,865.

* Party-in-Interest to the Plan.

Note F - Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Note F - Fair Value Measurement – Continued

If the asset or liability has specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at quoted market prices.

Money Market Funds: Valued using $1 for the Net Asset Value (NAV).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's fair value measurements at December 31, 2013 and 2012.

Note G - Unaudited Information Prepared and Certified by Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee, Nationwide Financial Services, Inc., has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2013	2012
Investments	$ 361,279	$ 234,901
Net appreciation in fair value if investments	$ 49,865	

Note H - Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Nationwide Financial Services, Inc. Purchases and sales of investment units of these mutual funds qualify as party-in-interest transactions as defined by ERISA.

Note I - Income Tax Status

The Company has received a favorable determination letter from the Internal Revenue Service stating that the plan is a qualified plan. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan only has tax years ending on or after December 31, 2011, the first year of the Plan, subject to tax examinations.

Note J - Late Contributions

During the year ended December 31, 2013 the Company made late contributions for various pay periods. These contributions amounted to $16,864 over the course of the year. An excise tax of $24 on that amount was calculated and paid in 2014.
