(1) Description of Plan

The following description of the LogRhythm, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of LogRhythm, Inc. (the "Company" and the "Plan Sponsor"), who are age twenty-one or older, excluding union and nonresident alien employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to the maximum amount allowed under the law based on pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offered various mutual funds as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company may make discretionary profit sharing contributions to the Plan. There were no discretionary profit sharing contributions during 2013. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions is based on years of continuous service. A participant is 100% vested after four years of credited service.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. In 2013 and 2012, the loan interest rate was set at 4.25%. The interest rate on loans made prior to 2011 was set at 6.5%. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, or severance of employment, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a direct rollover to another qualified retirement plan. In addition, hardship and in-service distributions are permitted if certain criteria are met. Corrective distributions are paid in the event a participant makes excess contributions during the year. There were no corrective distributions paid in 2013.

(1) Description of Plan (continued)

Forfeited accounts - At December 31, 2013, forfeited, nonvested accounts totaled $268. These accounts will be used to reduce future administrative expenses. In 2013, $537 of administrative expenses was paid from forfeited nonvested accounts.

Reclassifications - Certain amounts in the prior year financial statements have been reclassified to conform to the current year financial statement presentation. These reclassifications have no effect on previously reported net assets available for benefits.

(2) Summary of significant accounting policies

Basis of Accounting - The financial statements of the Plan were prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of benefits - Benefits are recorded when paid. As of December 31, 2013, distributions requested but not paid to withdrawing participants were $39,755.

Investment valuation and income recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(3) Investments

The following presents investments that represent 5 % or more of the Plan's net assets:

	2013	2012
Russell LP Balanced R3	$ 1,385,475	$ 1,126,925
Goldmansachs Midcap Val S	576,332	270,950

PIMCO Total Return R	265,997	215,338
TRowePrice Eqty Inc R	*	166,375

* Less than 5% of the Plan's net assets as of December 31, 2013

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $581,188.

(4) Summary of information certified by the custodian

The following information, which is included in the financial statements, has been certified by American United Life Insurance Company (AUL) for the year ended December 31, 2013:

- Participants Accounts Summary
- Investment Summary
- Participant Loan Summary
- Interest
- Net appreciation in fair value of investments

(5) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(5) Fair value measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: The guaranteed investment contract is valued at contract value by the insurance company, which is considered to approximate fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 4,309,119	$ -	$ -	$ 4,309,119
Guaranteed investment contract	121,809	-	-	121,809
Total assets at fair value	$ 4,430,928	$ -	$ -	$ 4,430,928

	Assets at Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 2,934,845	$ -	$ -	$ 2,934,845
Guaranteed investment contract	$ 120,675	$ -	$ -	$ 120,675
Total assets at fair value	$ 3,055,520	$ -	$ -	$ 3,055,520

(6) Guaranteed investment contract with American United Life Insurance Company

The Stable Value Fund holds investment contracts with high-quality bonds with short-to-intermediate-term maturities. They also purchase insurance contracts to provide participants with a stable return on investment and protection of principal from changes in market interest rates. AUL has discretionary authority for the purchase and sale of investments in the Stable Value Fund, subject to the general investment policies of the investment planning committee.

The Stable Value Fund crediting rate is based on the rate that is agreed to when the insurance company writes the contract and is generally fixed for the life of the contract. The initial crediting rate is set based on the market interest rates at the time that the initial asset is purchased, and is guaranteed to have an interest crediting rate not less than 0%. The crediting rates reset every year based on the book value of the contract, the market value of the underlying assets, and the average duration of the underlying

(6) Guaranteed investment contract with American United Life Insurance Company (continued)

assets. The crediting rate aims at converging the book value of the contract and the market value of the underlying assets and, therefore, will be affected by interest rate and market changes. AUL bears the investment risk for the AUL Fixed Interest Account values and for paying interest.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the Stable Value Fund are .78% and 1.24% for the year ended December 31, 2013 and 2012, respectively.

(7) Tax status

The Internal Revenue Service (IRS) has issued an opinion letter on the prototype plan dated March 31, 2008, which states that the prototype plan document is in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan, as amended, is designed and is being operated in compliance with the applicable requirements of the IRC as of December 31, 2013 and 2012 and for the year ended December 31, 2013. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(8) Related-Party Transactions and Party In Interest Transactions

Certain Plan investments are shares of funds managed by AUL. AUL is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of $10,145 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

(9) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(10) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur

(10) Risks and uncertainties (continued)

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
