Independent Auditors' Report

To the Plan Administrator of
Voith Industrial Services, Inc. 401(k) Plan
Cincinnati, Ohio

We were engaged to audit the accompanying financial statements of Voith Industrial Services, Inc. 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of Voith Industrial Services, Inc. 401(k) Plan (the "Plan") have been prepared on the accrual basis using accounting principles generally accepted in the United States of America.

Fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Receivables

Receivables represent contributions due the Plan as of December 31, 2013 and 2012 by the employer.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

In preparing the financial statements, the Company has evaluated events subsequent to the statements of net assets date through October 6, 2014, which is the date the financial statements were available to be issued.

Related Party Transactions

Certain employees of the Plan sponsor provide administrative and executive oversight services to the Plan. The Plan is not charged by the Plan sponsor for the services.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Effective September 2, 2003, Voith Industrial Services, Inc. (the Company) adopted the Plan for the benefit of eligible employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). It has been amended for compliance with the applicable provisions of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA), effective January 1, 2002. The Plan is also subject to various Collective Bargaining Agreements. Union employees, and such other employees who are expected to become part of a bargaining unit within 12 months of hire as designated by the employer, must have attained the age of 18 and completed one year of service in order to enter the Plan. Non-union employees of the Company must have attained the age of 19 and completed three months of service in order to enter the Plan. Eligible employees can enter the Plan on the first day of each quarter.

Contributions

Each year, participants may contribute, before tax, contributions to the Plan up to 60% of their eligible annual compensation, as defined. However, contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended ($17,500 at December 31, 2013). Section 414(v) of the Internal Revenue Code of 1986 as amended allows a maximum catch-up contribution of $5,500. Participants may also contribute amounts representing distributions from other qualified plans.

Participants designate the percentage of their total contribution to be invested in any of the Plan's investment funds. A participant may change the amount of his elective deferred contributions at any time during the Plan year by issuing a change request form to the Plan administrator. Participants may change the percentage of contributions invested in each account and may make transfers between accounts anytime during the year.

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Contributions (Continued)

The Plan has adopted provisions to allow for automatic enrollment into the Plan. When new participants become eligible to participate in the Plan, deferrals will be made on their behalf at 1%, unless the participant elects a different deferral percentage or not to participate in the Plan.

The Company makes a matching contribution to the Plan on behalf of each participant who makes before-tax contributions. For the 2013 and 2012 plan years, eligible non-union employees received a Company match equal to 55% of the participant's contribution up to 5% of their total compensation. Eligible employees of UAW, Local No. 723, also received a Company match equal to 55% of their contribution up to 5% of their total compensation. Eligible employees of UAW, Local No. 1853, received a Company match equal to 55% of their contribution up to 4% of their total compensation. They also received a fixed profit sharing contribution in the amount of $416. Eligible employees of UAW, Local No. 2488, received a Company match equal to 55% of their contribution up to 4% of their total compensation. They also received a fixed profit sharing contribution in the amount of $150. Eligible employees of PACE, Local No. 760, Unit 2; UAW, Local No. 737; and UAW, Local No. 76 received a Company match equal to 55% of their contribution up to 4% of their total compensation.

The Company may also make additional discretionary contributions to the Plan to those participants employed on the last day of the contribution period. There were no additional discretionary contributions for 2013 and 2012.

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another employee benefit plan to the Plan on a tax-free basis.

Participant Accounts

Each participant's account shall be credited with the applicable contributions, earnings, losses, expenses and distributions. As defined in the Plan, allocations of earnings and losses are based on the ratio that the participant account bears to the total of all participant accounts.

Vesting

Participants are immediately vested in all of their accounts.

Hardship Withdrawals

Participants qualify to take a hardship withdrawal if a participant has an immediate financial hardship resulting from certain events as identified in the Plan document. Once a hardship withdrawal is taken, the participant agrees not to make elective salary deferrals for a six month period after receipt of the hardship withdrawal.

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of $50,000 (as defined in the Plan) or 50% of their vested account balance. (If a participant had a note receivable balance in the most recent prior period, the maximum note amount is $50,000 or 50% of their vested balance less the highest note balance in the prior period.) Participants may have only one note outstanding at any given time. Note repayment terms are not to exceed 5 years unless utilized for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%. Principal and interest are paid ratably through bi-weekly payroll deductions; however, lump sum payoffs are permitted.

Payment of Benefits

On termination of service due to retirement, death, disability, other termination of employment with Voith Industrial Services, Inc., or termination of the Plan, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants with a vested account balance of $1,000 or less will automatically be distributed as a lump-sum if a direct rollover is not requested in writing within 30 days.

Upon termination of the Plan, the assets will be distributed to participants in accordance with the Plan's provisions and existing laws and regulations.

In-service distributions are permissible from the Plan for participants that have obtained the age of 59 1/2. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment or annual installments.

Forfeitures

The non-vested portion of terminated participant account balances can be used by the Plan sponsor to pay administrative expenses under the Plan, and then to reduce future employer contributions. For the years ended December 31, 2013 and 2012, the balance of unallocated forfeitures was $6,033 and $5,307, respectively. For the years ended December 31, 2013 and 2012, forfeitures in the amount of $-0- and $2,789, respectively were used to reduce the amount of employer contributions.

NOTE 3 TAX STATUS

The Internal Revenue Service has determined, and informed the Company by letter dated March 3, 2012, that the Plan and related trust are designed in accordance with applicable section of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, participants will become fully vested in their account balances.

NOTE 5 ADMINISTRATIVE EXPENSES

Administrative expenses represent the cost of accounting and administrative services provided to the Plan by ADP Retirement Services. Certain other administrative expenses of the Plan are paid by the Company.

NOTE 6 INVESTMENTS

The Plan's investments that represented five percent or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012 are as follows:

	2013	2012
Aston/Fairpointe Mid Cap	$ 1,946,907	$ 1,340,212

Adjustment from fair value to contract value for fully benefit benefit-responsive investment contract	40,112
	$ 4,225,156

NOTE 8 INFORMATION CERTIFIED BY THE TRUSTEES

The following information provided by State Street Bank and Trust Company, as of December 31, 2013 and 2012 and for the year ended December 31, 2013 was certified by them to be complete and accurate with respect to the following:

1. The assets held by State Street Bank and Trust Company at December 31, 2013 and 2012, as well as the transactions involving these assets for the year ended December 31, 2013.

2. The amount of investment income for the year ended December 31, 2013.

3. The Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) at December 31, 2013.

NOTE 9 FAIR VALUE MEASUREMENTS

Applicable generally accepted accounting principles, GAAP, accounting for Fair Value Measurement and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that priorities the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the applicable GAAP accounting for Fair Value Measurement and Disclosures are described below:

NOTE 9 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. (Mutual funds, common stocks, corporate bonds, US government securities, etc.)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation approaches used for assets measured at fair value.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Value at the net asset value ("NAV") of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 10).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 9 FAIR VALUE MEASUREMENTS (CONTINUED)

Assets Measured at Fair Value on a Recurring Basis

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

Description	12/31/13	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

NOTE 10 BENEFIT-RESPONSIVE INVESTMENT

The Plan has a benefit-responsive investment contract with Invesco National Trust Company. The Trust's primary investment objectives are to provide preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

The Trust enters into wrapper agreements with wrap providers. A wrapper agreement is a derivative instrument that is designed to minimize the risk of investment losses and under most circumstances maintain a constant net asset value per share. Under normal circumstances, the value of the wrapper agreements is expected to vary inversely with the market value of the Trust's assets covered ("covered assets") by the wrapper agreement.

If the market value of the covered assets is less than their book value, the wrapper agreements are assets of the Trust with a value equal to the difference which will generally result in the future interest crediting rates that are lower than the current market yields. Conversely, if the market value of the covered asset is more than their book value, this generally results in a deduction from market value to contract value and future crediting rates that are higher than the current market yields. The book value of the wrapper agreement is equal to the purchase price of covered assets less the sale price of covered assets sold to cover share redemptions plus interest accrued at the crediting rate.

To accomplish the primary objectives of the Trust, the Trust enters into wrapper contracts (also known as synthetic GICs). In a synthetic GIC structure, the underlying investments are owned by the Trust for plan participants. The Trust enters into wrapper contracts from high-quality insurance companies or banks that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates. Each wrapper contract obligates the wrapper provider to maintain the "contract value" of the underlying investments. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals (as specified in the wrapper agreement). Under the terms of the wrapper contract, the realized and unrealized gains and losses on the underlying investments are, in effect, amortized over the duration of the underlying investments are, in effect, amortized over the duration of the underlying investments through adjustments to the future contract interest crediting rate (which is the rate earned by participants in the Trust for underlying investments). The wrapper contract provides that the adjustments to the interest crediting rate will not result in an interest crediting rate that is less than zero. This minimizes the risk of loss with respect to principal and interest.

In general, if the contract value of the wrapper agreement exceeds the market value of the underlying investments (including accrued interest), the wrapper provider becomes obligated to pay that difference to the Trust in the event the shareholder redemptions result in a total contract liquidation. In the event that there are partial shareholder redemptions that would otherwise cause the contract's crediting rate to fall below zero percent, the wrapper provider is obligated to contribute to the Trust an amount necessary to maintain the contract's crediting rate of at least zero percent. The circumstance under which payments are made and the timing of the payments between the Trust and the wrapper provider may vary based on the terms of the wrapper contract.

The key factors that influence future interest crediting rates for a wrapper contract include: 1) the level of market interest rates; 2) The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract; 3) The investment returns generated by the fixed income investments that back the wrapper contract; 4) The duration of the underlying fixed income investments backing the wrapper contract.

NOTE 10 BENEFIT-RESPONSIVE INVESTMENT (CONTINUED)

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis according to each contract. While there may be slight variations from on contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio.

Over time, the crediting formula amortizes the Trust's realized and unrealized market value gains and losses over the duration of the underlying investments.

Because changes in market interest rates effect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the trust are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting difference between the market value of the underlying investments relative to the wrapper contract value is presented on the Trust's Schedule of Portfolio Investments and statement of Assets and Liabilities as the "Adjustment from Fair Value to Contract Value". If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the wrapper contract value is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate. If the Adjustment from Fair Value to Contract Value is negative, this indicates that the wrapper contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher.

Investment contracts are valued at contract value principally because unitholders are able to transact at contract value when initiating benefit-responsive withdrawals, taking loans or making investment option transfers permitted by the participating plan. A benefit-responsive withdrawal includes a payment to a unitholder arising from retirement, termination of employment, disability or death. In the normal course, unitholder events are predictable (for unitholders as a group) such that the economic integrity of investment contracts is largely unaffected by unitholder withdrawals.

Employer initiated events, if material, may affect the underlying economics of investment contracts. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust or other events. The occurrence of one or more employer initiated events could limit the Fund's ability to transact at contract value with plan unitholders.

For example, retirement benefit payments which occur because an employer has offered a subsidized early retirement program will not transact at contract value unless the scope of the program is not material or the investment contract includes a "contract value corridor". Whether an employer initiated event is probable is foremost within the knowledge of the employer, but in the normal course may be communicated to the investment manager of the Fund. While the investment manager may take action to minimize or eliminate the impact of the employer initiated event, there is no assurance that the issuer will continue to transact at contract value one the corridor is used. In that case, the Fund would be unable to maintain the ability to transact at contract value. As of December 31, 2013, Trust's management believes the occurrence of an event that would limit the ability of the Fund to transact at contract value with the unitholders in the Fund is not probable.

NOTE 10 BENEFIT-RESPONSIVE INVESTMENT (CONTINUED)

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the plan's loss of it qualified status, material breaches of responsibilities which are not cured, or material adverse changes to the provisions of the plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

The crediting interest rate was 1.30% and 1.62% at December 31, 2013 and 2012, respectively. The average yield for the year ended December 31, 2013 and 2012 was 1.22% and 0.91%, respectively.
