HEARTLAND FAMILY SERVICE
MATCHING CONTRIBUTION PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

1. **Description of the Plan**

The following description of the Heartland Family Service Matching Contribution Plan (the “Plan”) provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan was established effective March 24, 1998, and is a matching contribution plan covering the employees of the plan sponsor, Heartland Family Service (the “Agency” or the “Plan Sponsor”). The Plan covers the matching contributions earned on participant deferrals made to a separate 403(b) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and is intended to qualify under the applicable sections of the Internal Revenue Code (the “Code”) of 1986, as amended.

Eligibility – Employees who are 18 years of age and completed 90 days of continuous employment and contribute to the separate 403(b) plan are eligible for matching contributions. Highly compensated employees are not eligible to participate in the Plan.

Contributions – Employer contributions are made through the Plan and consist of a matching contribution equal to 100% of certain participant contributions made to the separate 403(b) Plan, up to 5% of the participant’s compensation for the plan year. If the participant’s elective deferrals under the separate 403(b) Plan for the plan year equals or exceeds 5% of the participant’s compensation, an additional 2% of the participant’s compensation is contributed by the employer as a matching contribution.

Participant Accounts – Individual accounts are maintained for each Plan participant. Each account is credited with the employer matching contributions, an allocation of investment income or loss, and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting – A participant’s matching contributions are subject to the following vesting percentages:

<u>Number of Years of Credited Service at Date of Termination</u>	<u>Nonforfeitable Vested Percentage</u>
Less than 3 years	0%
3 years or more	100%

In the event that the participant dies, is disabled or if retirement conditions are satisfied, the participant’s entire account is fully vested.

**HEARTLAND FAMILY SERVICE
MATCHING CONTRIBUTION PLAN**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

DECEMBER 31, 2013 AND 2012

1. Description of the Plan - Continued

Payment of Benefits – On termination of service, a participant may elect to receive a single lump sum amount equal to the value of the participant's vested account, a series of monthly installment payments over a specific period of at least twenty-four months, or a fixed or variable annuity distribution. If the vested account balance is less than \$1,000, a lump sum distribution will be made.

Forfeitures – Forfeited participant balances are retained by the Plan and used to offset future Agency contributions or to pay Plan administrative expenses. As of December 31, 2013, there was \$11,006 in unused forfeitures. There were no unused forfeitures as of December 31, 2012.

There were no forfeitures used to offset Agency contributions during the year ended December 31, 2013. During the year ended December 31, 2012, forfeitures used to offset Agency contributions totaled \$12,756.

2. Summary of Significant Accounting Policies and Procedures

Basis of Accounting – The accompanying financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides investment options in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with the Plan's investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for plan benefits.

Investment Valuation and Income Recognition – Plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes Plan gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies and Procedures – Continued

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Trustee fees and administrative costs are paid by the Plan, except the Agency, at its discretion, may pay for certain administrative costs. Investment related expenses are included in net appreciation of fair value of investments. For 2013 and 2012, the Agency paid all administrative costs.

Subsequent Period – Management evaluated transactions and events occurring subsequent to December 31, 2013, and through the date of the auditor's report (the date the financial statements were available to be issued), to determine whether any events should be recognized or disclosed in these statements. There were no material transactions or events in the subsequent period requiring disclosure or recognition in the statements.

3. Investments

Investments disclosed in the financial statements and supplemental schedule at December 31, 2013 and 2012, and net appreciation in fair value of investments and interest and dividends for the years then ended, were obtained or derived from information supplied by the Plan Administrator and certified as complete and accurate by Metropolitan Life Insurance Company (MetLife) and AXA Equitable Life Insurance Company (AXA). 3. Investments - Continued

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated \$505,397 and \$233,433 in value, respectively as follows:

	<u>2013</u>	<u>2012</u>
Investments:		
Separate accounts	\$ 7,079	2,292
Annuity contracts	498,318	231,141

4. Guaranteed Interest Accounts

The investments in guaranteed interest accounts are with MetLife and AXA. These interest accounts are reported at fair value as the investments are not fully benefit responsive. The fair value is the value paid when funds are withdrawn prior to their maturity. Plan participants may direct the withdrawal or transfer of all or a portion of their investments subject, in certain circumstances, to a surrender charge. The average yields and crediting interest rates for the various interest accounts as of December 31, 2013 and 2012 was 3.0%.

5. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Codification Section 820, *Fair Value Measurements* establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

DECEMBER 31, 2013 AND 2012

5. Fair Value Measurements - Continued

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Guaranteed interest accounts: Valued based on the amount plan participants would receive currently if they were to withdraw funds which is book value plus crediting interest less any early withdrawal charges.

Separate accounts: Valued at the net asset value (NAV), based upon the market value of its underlying investments, which may include equities, preferred stock, bonds, real estate, and mutual funds. A separate account NAV is provided by the issuer AXA and is not a publicly-quoted price in an active market.

Annuity contracts: Valued at the prices/unit values for the annuity investment option in accordance with the methods described in the annuity contract on a daily basis.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

6. Plan Termination

Although it has not expressed any intent to do so, the Agency has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants become fully vested in their accounts.

7. Tax Status

The Plan is a prototype non-standardized plan created by Sungard Corbel LLC and adopted by the Plan Sponsor on January 1, 2009. On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code. The Plan has not received a determination letter specific to the Plan. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. Tax Status - continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Party-in-Interest Transactions

Certain Plan investments are managed by MetLife and AXA. These are the issuers of the Plan investments and, therefore, these Plan transactions qualify as party-in-interest transactions.
