NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 and 2012

NOTE (1) - DESCRIPTION OF PLAN:

The following description of the Texas Digestive Disease Consultants ("Company") 401(k) Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General-

The Plan is a defined contribution plan covering all full time employees of the Company who have one year of service and are twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions-

Each year, participants may contribute up to 92% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 100% of the first 6% of base compensation that a participant contributes to the Plan. The matching Company contribution is invested directly into various options offered by the Plan as designated by the participants. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested into various options offered by the Plan as designated by the participants. Contributions are subject to certain limitations.

Participant Accounts-

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting-

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes receivable from participants-

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate between 4.25 to 8.5%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions. The Plan management reviews the notes receivable from participant for collectability based on prior experience, review of individual accounts, employment status and management's evaluation of other pertinent factors. The notes receivable from participants that were deemed in default have been recognized as distributions to the plan participant. Accordingly, management has determined that the remaining notes receivable from participants are totally collectible.

NOTE (1) - DESCRIPTION OF PLAN: (Continued)

Forfeited Accounts-

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $52,708 and $50,474, respectively. These accounts will be used to reduce future employer contributions.

Payment of Benefits-

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE (2) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting-

The Plan's financial statements are prepared on the accrual method of accounting.

Use of Estimates-

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Investment Valuation and Income Recognition-

The Plan's investments are stated at fair value based on the hierarchy established by generally accepted accounting principles effective for financial statements issued for years beginning after November 17, 2008.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded as received.

Payment of Benefits-

Benefits are recorded when paid.

Operating Expenses-

All expenses of maintaining the Plan are paid by the Company.

NOTE (4)-FAIR VALUE MEASUREMENTS:

Generally accepted accounting principles clarifies the definition of fair value and establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs (other than quoted market prices included within level 1) that are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and fair value is determined through the use of models or other valuation techniques.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

Common/Collective Trusts: Valued based on the quoted market price of the underlying assets held in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE (4)-FAIR VALUE MEASUREMENTS (Continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:
