NOTE A - DESCRIPTION OF THE PLAN

The following description of the Purvis 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of affiliates Purvis Industries, Ltd. and Conveyor Aggregate Products Corp. (collectively, the "Company" or the "Employer") who are twenty-one (21) years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Under the Plan, employees are permitted to contribute between 1% and 100% of their annual gross compensation up to the maximum amount allowed by law of $17,500 for 2013. Participants who are projected to be age 50 or older by the end of the calendar year and who are making contributions to the Plan are eligible to make additional catch up contributions of up to $5,500 for 2013. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may match a discretionary percentage, as determined by the Company. The discretionary matching contribution made by the Company during 2013 was $235,191.

Participant Accounts

Each participant's account is credited with 1) the participant's contributions; 2) an allocation of the Company's discretionary matching contribution, if any; and 3) Plan earnings or losses. Participants direct their account balances among the various Plan investments at their discretion.

Vesting

Participants are immediately vested in their voluntary contributions, plus investment earnings. Vesting of Company contributions is determined by years of continuous service. A participant vests 20% per year, beginning after two years of service, with 100% vesting earned after six years of active service.

Forfeitures

Forfeitures of nonvested balances can be used to reduce Employer contributions or to pay for Plan administrative expenses. Forfeitures totaled approximately $17,300 and $11,000 as of December 31, 2013 and 2012, respectively. Approximately $17,400 of forfeitures were used to fund Employer contributions during 2013.

Payment of Benefits

On termination of service, retirement, disability, or death, or upon request by the participant, payment will be made to the participant or his or her beneficiary either in installments or a lump-sum amount equal to the value of the participant's vested account. The Plan administrator may make involuntary distributions to such participant if his or her account balance is less than $5,000.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Notes Receivable from Participants

Participants are permitted to borrow a portion of their vested account balance from a minimum amount of $1,000 up to a maximum of the lesser of one-half of the participant's vested account balance or $50,000. The loans are secured by the balance of the participants' account. Interest on the loans is charged at a rate equal to the Prime Rate at the time the loan is made plus 2%. Repayments are made by participants via payroll deduction on a bi-weekly basis. Loans may be outstanding for up to a ten-year period.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

Administrative Expenses

Investment advisory fees for portfolio management are paid directly from fund earnings, and they are included in the mutual fund expense ratios of the funds. All other administrative expenses are paid from participants' accounts or by the Company.

NOTE C - FINANCIAL DATA CERTIFIED BY THE TRUSTEE OF THE PLAN

The following information and related activity, and that included on the attached supplemental schedule, has been certified as complete and accurate by Fidelity Management Trust Company ("Fidelity"), and, at the Plan administrator's request, has not been audited by the Plan's independent certified public accountants other than to agree the information to the certified statements. All other information included in these financial statements has been audited in accordance with auditing standards generally accepted in the United States of America.

* Investment does not represent 5% of the Plan's net assets available for benefits at December 31, 2013.

NOTE C - FINANCIAL DATA CERTIFIED BY THE TRUSTEE OF THE PLAN - Continued

During 2013 the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by $2,456,449 as follows:

	2013
Mutual funds	$2,456,403
Money market funds	46
	$2,456,449

NOTE D - FAIR VALUE MEASUREMENTS

US GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D - FAIR VALUE MEASUREMENT - Continued

The following is a description of the valuation methodology used for the assets measured at fair value at December 31, 2013 and 2012:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund: Valued at the NAV, which is provided by the trustee and is used as a practical expedient to estimate fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2013 and 2012, except as of January 1, 2013, money markets are considered level 1, consistent with industry practice. There are no redemption restrictions on the mutual funds or money market funds.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at fair value as of December 31, 2013

NOTE E - RISKS AND UNCERTAINTIES

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and concentration of credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE F - TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company's contributions.

NOTE G - TAX STATUS

On January 22, 2001, the Internal Revenue Service ("IRS") stated the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of December 31, 2013.

NOTE G - TAX STATUS - Continued

US GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Fidelity, the trustee of the Plan. Certain fees paid to the trustee for investment management services are incorporated into the expense ratios of the individual mutual funds and paid directly from fund earnings; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for management services totaled $22,972 for the year ended December 31, 2013.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Purvis 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of affiliates Purvis Industries, Ltd. and Conveyor Aggregate Products Corp. (collectively, the "Company" or the "Employer") who are twenty-one (21) years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Under the Plan, employees are permitted to contribute between 1% and 100% of their annual gross compensation up to the maximum amount allowed by law of $17,500 for 2013. Participants who are projected to be age 50 or older by the end of the calendar year and who are making contributions to the Plan are eligible to make additional catch up contributions of up to $5,500 for 2013. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may match a discretionary percentage, as determined by the Company. The discretionary matching contribution made by the Company during 2013 was $235,191.

Participant Accounts

Each participant's account is credited with 1) the participant's contributions; 2) an allocation of the Company's discretionary matching contribution, if any; and 3) Plan earnings or losses. Participants direct their account balances among the various Plan investments at their discretion.

Vesting

Participants are immediately vested in their voluntary contributions, plus investment earnings. Vesting of Company contributions is determined by years of continuous service. A participant vests 20% per year, beginning after two years of service, with 100% vesting earned after six years of active service.

Forfeitures

Forfeitures of nonvested balances can be used to reduce Employer contributions or to pay for Plan administrative expenses. Forfeitures totaled approximately $17,300 and $11,000 as of December 31, 2013 and 2012, respectively. Approximately $17,400 of forfeitures were used to fund Employer contributions during 2013.

Payment of Benefits

On termination of service, retirement, disability, or death, or upon request by the participant, payment will be made to the participant or his or her beneficiary either in installments or a lump-sum amount equal to the value of the participant's vested account. The Plan administrator may make involuntary distributions to such participant if his or her account balance is less than $5,000.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Notes Receivable from Participants

Participants are permitted to borrow a portion of their vested account balance from a minimum amount of $1,000 up to a maximum of the lesser of one-half of the participant's vested account balance or $50,000. The loans are secured by the balance of the participants' account. Interest on the loans is charged at a rate equal to the Prime Rate at the time the loan is made plus 2%. Repayments are made by participants via payroll deduction on a bi-weekly basis. Loans may be outstanding for up to a ten-year period.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

Administrative Expenses

Investment advisory fees for portfolio management are paid directly from fund earnings, and they are included in the mutual fund expense ratios of the funds. All other administrative expenses are paid from participants' accounts or by the Company.

NOTE C - FINANCIAL DATA CERTIFIED BY THE TRUSTEE OF THE PLAN

The following information and related activity, and that included on the attached supplemental schedule, has been certified as complete and accurate by Fidelity Management Trust Company ("Fidelity"), and, at the Plan administrator's request, has not been audited by the Plan's independent certified public accountants other than to agree the information to the certified statements. All other information included in these financial statements has been audited in accordance with auditing standards generally accepted in the United States of America.

The following table presents investments that represent five percent or more of the Plan's net assets available for benefits at December 31:

Fidelity International Discovery	*	606,988

* Investment does not represent 5% of the Plan's net assets available for benefits at December 31, 2013.

NOTE C - FINANCIAL DATA CERTIFIED BY THE TRUSTEE OF THE PLAN - Continued

During 2013 the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by $2,456,449 as follows:

	2013
Mutual funds	$2,456,403
Money market funds	46
	$2,456,449

NOTE D - FAIR VALUE MEASUREMENTS

US GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D - FAIR VALUE MEASUREMENT - Continued

The following is a description of the valuation methodology used for the assets measured at fair value at December 31, 2013 and 2012:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund: Valued at the NAV, which is provided by the trustee and is used as a practical expedient to estimate fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2013 and 2012, except as of January 1, 2013, money markets are considered level 1, consistent with industry practice. There are no redemption restrictions on the mutual funds or money market funds.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at fair value as of December 31, 2013

NOTE E - RISKS AND UNCERTAINTIES

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and concentration of credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE F - TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company's contributions.

NOTE G - TAX STATUS

On January 22, 2001, the Internal Revenue Service ("IRS") stated the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of December 31, 2013.

NOTE G - TAX STATUS - Continued

US GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Fidelity, the trustee of the Plan. Certain fees paid to the trustee for investment management services are incorporated into the expense ratios of the individual mutual funds and paid directly from fund earnings; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for management services totaled $22,972 for the year ended December 31, 2013.
