Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

ITT CONSOLIDATED HOURLY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

(\$ IN THOUSANDS)

NOTE 1

DESCRIPTION OF THE PLAN

The following description of the ITT Consolidated Hourly Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension sponsored by ITT Corporation (the "Company" or "Plan Sponsor"). The Plan was established to provide for the payment of benefits to eligible participants who terminated employment with the Company as a result of the closure or divestiture of a facility and consists of multiple legacy plans from those facilities. All participant benefits are frozen. The Benefits Administration Committee, as appointed by the Board of Directors of the Company, controls and manages the operation and administration of the Plan. Northern Trust (the "Trustee") serves as the trustee of the Plan, and together with the investment managers, manages the Plan's investments, held in the Investment Master Trust of ITT Corporation (the "ITT Master Trust"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension Benefits

Participants are eligible for monthly benefit payments prior to reaching age 55 (early retirement) or 65 (normal retirement), and for a period in excess of 30 years, for participants that participated in the prior plans. The normal monthly benefit payments are determined by multiplying the benefit rate, which depends upon the period of credited service, by the total number of years of credited service, not to exceed 30 years. All participants are 100% vested, and terminated.

Participants are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 10 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date.

Death and Disability Benefits

A married employee who is a vested participant is automatically covered by the pre-retirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the spouse would have received had the employee retired on the date of death, computed under the normal form of payment and subject to certain limitations as outlined in the Plan document.

No employee has been eligible to qualify for a disability benefit under this Plan since January 1, 2000, or under any prior Plan since the date the prior Plan was merged into this Plan. Prior to January 1, 2000, employees were eligible for disability benefits in accordance with the Plan document.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. Funding requirements under Internal Revenue Service (IRS) rules are a major consideration in making contributions to the Company's postretirement plans. With respect to qualified pension plans, the Company intends to contribute annually not less than the minimum required by applicable law and regulations. While the Company has significant discretion in making voluntary contributions, ERISA, as amended by the Pension Protection Act of 2006 and further amended by the Worker, Retiree, and Employer Recovery Act of 2008, and applicable Internal Revenue Code (IRC) regulations mandate minimum funding thresholds. Failure to satisfy the minimum funding thresholds could result in restrictions on the Company's ability to amend the Plan or make benefit payments. No mandatory contributions to the Plan were required during 2013 and 2012. However, the Company will continue to monitor the funded status and minimum funding requirements.

Plan Termination

The Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Plan Mergers

At close of business on December 31, 2013, the ITT Aerospace Controls Pension Plan for Hourly Employees ("ITT Aerospace"), ITT Cannon Employees Retirement Plan for Hourly Non-Bargaining Production and Maintenance Employees ("ITT Cannon"), ITT Control Technologies Pension Plan for Hourly Employees ("ITT Control Technologies"), and ITT Engineered Valves Pension Plan for Hourly Employees at Amory, Mississippi ("ITT Amory") merged into the Plan. Participants of the above mentioned merged plans will be participants of the Plan beginning January 1, 2014.

The table below provides accumulated plan benefits and net assets available for benefits for the merged plans and were calculated as of the latest actuarial valuation date, which was January 1, 2013:

	ITT Aerospace	ITT Cannon	ITT Control Technologies	ITT Amory	Total
Vested benefits:					
Participant and/or beneficiaries currently receiving benefits	\$ 5,759	\$ 13,616	\$ 996	\$ 481	\$ 20,852
Other participants	5,905	9,831	1,055	1,497	18,288

Net assets available for benefits	15,487	30,336	2,870	2,866	51,559
Excess of net assets available for benefits over actuarial present value of accumulated plan benefits	\$ 3,583	\$ 6,654	\$ 741	\$ 860	\$ 11,838

Plan assets totaling \$55,938 transferred from each merged plan at December 31, 2013. The total asset transfer includes ITT Aerospace (\$16,831), ITT Cannon (\$32,845), ITT Control Technologies (\$3,095), and ITT Amory (\$3,167).

At close of business on December 31, 2012, the ITT Engineered Valves CA Pure Flo Solutions Group Pension Plan for Hourly Employees at Simi Valley, California ("Pure Flo Plan") merged into the Plan. The following accumulated plan benefits and net assets available for benefits information for the Pure Flo Plan were calculated as of the latest actuarial valuation date, which was January 1, 2012:

	Pure Flo Plan
Vested benefits:	
Participant and/or beneficiaries currently receiving benefits	\$ 122
Other participants	233
Total vested benefits	355
Nonvested benefits	—
Total actuarial present value of accumulated plan benefits	355
Net assets available for benefits	447
Excess of net assets available for benefits over actuarial present value of accumulated plan benefits	\$ 92

Pure Flo Plan assets totaling \$447 were transferred to the Plan on December 31, 2012.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan participates in the ITT Master Trust which invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that values realized at the time of sale could materially differ from amounts reported in the financial statements.

Plan contributions are made and the actuarial present value and the actuarial plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the ITT Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the ITT Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Administrative expenses of the Plan are paid by the ITT Master Trust on behalf of the Plan, as provided in the Plan document and the ITT Master Trust agreement. The Plan Sponsor provides accounting and other administrative services to the Plan and ITT Master Trust at no charge.

Management fees and operating expenses charged to the Plan for the investments in the common collective trust (CCT) funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 3 ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions, for service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following amounts were calculated as of January 1, 2013, the latest valuation date. This disclosure is based solely on the funding valuation. The actuarial present value of accumulated plan benefits as of January 1, 2013, is as follows:

	2013
Vested benefits:	
Participant and/or beneficiaries currently receiving benefits	\$ 42,965
Other participants	19,400
Total vested benefits	62,365
Nonvested benefits	—
Total actuarial present value of accumulated plan benefits	\$ 62,365

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2013, are as follows:

Actuarial present value of accumulated plan benefits - January 1, 2012	\$ 62,572
Increase (decrease) during the year attributable to:	
Benefits accumulated	(125)
Benefits paid	(5,355)
Interest	4,796
Changes in actuarial assumptions	105
ITT Engineered Valves - Pure Flo plan merger	372
Actuarial present value of accumulated plan benefits - January 1, 2013	\$ 62,365

The actuarial cost method used to measure the present value of accumulated plan benefits is the Unit Cost Method. The significant actuarial assumptions used in the January 1, 2013 valuations were:

- Mortality: Projected specified in IRS Regulation 1.430(h) (3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants
- Retirement age: Age 65
- Investment return: 8%
- Discount rate: 8%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

NOTE 4 INVESTMENTS

Interest in Master Trust

The Plan's investments are held in the ITT Master Trust, EIN 38-7003271. The ITT Master Trust includes the combined assets of the Plan as well as several other employee benefit plans sponsored by ITT and its subsidiaries (collectively, the "Participating Plans"). The Plan's assets include an undivided interest in an investment account of the ITT Master Trust as of and for the years ended December 31, 2013 and 2012. Use of a master trust permits the commingling of Plan assets with the assets of other participating plans for investment and administrative purposes. Although Plan assets are commingled in the ITT Master Trust, the Trustee maintains records supporting the allocation of the net income of the ITT Master Trust to the Participating Plans. Net investment income is allocated by the Trustee to each Participating Plan based on the relationship of the interest of each Participating Plan to the total of the interests of the Participating Plans.

The table below provides by major category the fair value of the ITT Master Trust's net assets as of December 31, 2013 and 2012, and the Plan's interest in the ITT Master Trust net assets.

- (a) Represents 5% or more of the ITT Master Trust's net assets as of December 31, 2013 and 2012.
- (b) Domestic CCTs invest in the equity securities of the largest 3,000 U.S. companies representing the broad market intended to match the performance of the Russell 3000 Index. This asset category includes a cash balance, payables and receivables.
- (c) Developed market CCTs invest primarily in equity securities in Europe, Asia and the Far East intended to mirror the performance of the Morgan Stanley Capital International (MSCI) Europe, Asia, Far East (EAFE) Index.
- (d) Emerging Market CCTs invest primarily in equity securities in global emerging markets intended to mirror the performance of the MSCI Emerging Markets Index.
- (e) Fixed income - bond CCTs invest primarily in investment grade fixed-rate taxable bonds intended to match the performance of the Long Term Credit Bond Index and the Barclays Capital U.S. Aggregate Bond Index.

Fair Value

In measuring plan assets at fair value, a fair value hierarchy is applied which categorizes and prioritizes the inputs used to estimate fair value into three levels. The fair value hierarchy is based on maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. Classification within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement. The three levels of the fair value hierarchy are defined as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. The ITT Master Trust did not have any investments classified as Level 1 as of December 31, 2013 or 2012.
- Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices (in non-active markets or in active markets for similar assets or liabilities), inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs are unobservable inputs for the assets or liabilities. The ITT Master Trust did not have any investments classified as Level 3 as of December 31, 2013 or 2012.

As of December 31, 2013 and 2012, all of the ITT Master Trust assets were classified as Level 2 within the fair value hierarchy.

In certain instances, fair value is estimated using quoted market prices obtained from an external pricing service. In obtaining such data from the pricing service, the Plan has evaluated the methodologies used to develop the estimate of fair value in order to assess whether such valuations are representative of fair value, including net asset value ("NAV"). Additionally, in certain circumstances, the Plan may adjust NAV reported by an asset manager when sufficient evidence indicates NAV is not representative of fair value.

The following is a description of the valuation methodologies used to measure the ITT Master Trust assets at fair value:

- CCTs - arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income or other investment objectives. Fair value is estimated based on NAV, as provided by the Trustee, as a proxy to fair value. There are no unfunded commitments related to the CCTs and investments in CCTs can be redeemed on a daily basis without restriction and are not subject to redemption notification provisions. CCTs are classified within level 2 of the fair value hierarchy.

The valuation methods described above may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used as of December 31, 2013 and 2012. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the years ended December 31, 2013 and 2012.

Net Investment Income

The net investment income of the ITT Master Trust for the years ended December 31, 2013 and 2012, is summarized below:

	2013	2012
Appreciation (depreciation) in fair value of investments:		
Domestic CCTs	\$ 26,893	\$ 10,079
Developed markets CCTs	10,589	6,268
Emerging markets CCTs	(694)	3,135
Fixed income - bond CCTs	(1,205)	3,082
Net appreciation in fair value of investments	35,583	22,564
Administrative expenses	(1,700)	(1,650)
Net investment income of ITT Master Trust	\$ 33,883	\$ 20,914
Plan's interest in ITT Master Trust's investment income	\$ 10,823	\$ 7,223

NOTE 5**EXEMPT PARTY-IN-INTEREST TRANSACTIONS**

Certain ITT Master Trust investments are shares of CCTs managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions. Fees paid for management services were included as a reduction of the return earned on the investment. These fees totaled \$221 and \$146 for the years ended December 31, 2013 and 2012, respectively.

Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or ITT Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

NOTE 6**FEDERAL INCOME TAX STATUS**

The IRS has determined and informed the Company by a letter dated February 8, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The earliest open tax year is 2009.

NOTE 7**SUBSEQUENT EVENTS**

Subsequent events were evaluated through October 4, 2014, the date the financial statements were issued.

We have audited the accompanying financial statements of the ITT Consolidated Hourly Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2013 and the changes therein for the year then ended and its financial status as of December 31, 2012, and the changes therein for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Prescribed Funding Assumptions and Methods

Current Year:	Segment Rates with four month lookahead:	
	First Segment Rate	1.75%
	Second Segment Rate	4.62%
	Third Segment Rate	5.72%

In accordance with MAP-21, the first, second and third Segment Rates are constrained to a 85%-115% Corridor around the average Segment Rates for the 25-year period ending September 30, 2012, or **4.94%**, **6.15%** and **6.76%**, respectively, for minimum funding and benefit restrictions but not for maximum tax-deductible purposes.

Effective Interest Rate	6.21%
(Based on MAP-21 rates)	

Prior Year:	Segment Rates with four month lookahead:	
	First Segment Rate	2.06%
	Second Segment Rate	5.25%
	Third Segment Rate	6.32%

In accordance with MAP-21, the first, second and third Segment Rates were constrained to a 90%-110% Corridor around the average Segment Rates for the 25-year period ending September 30, 2011, or **5.54%**, **6.85%** and **7.52%**, respectively, for minimum funding and benefit restrictions but not for maximum contribution purposes.

Effective Interest Rate – ITT Consolidated	6.90%
(Based on MAP-21 rates)	
Effective Interest Rate – ITT Engineered Valves	7.15%
(Based on MAP-21 rates)	

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

ITT Consolidated Hourly Pension Plan

EIN/PN: 13-5158950 / 047

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods

Expenses

Expected plan related expenses of \$597,927 were added to the Target Normal Cost.

Frequency of optional payment forms

Varies depending on former plan.

Marital percentage

85% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Decrement rates

Because the plan is frozen, it is expected that everyone, including terminated vested participants, will retire at age 60.

Mortality table

The mortality table is applied on a static basis. Separate annuitant and non-annuitant tables were used.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

The expected return on plan assets is 8.00% per annum for 2012 and 9.00% per annum for 2011, limited by PPA to the applicable Third Segment Rate as follows:

2012 measurement period:	7.52%
2011 measurement period:	6.57%
