Note 1 - Description of Plan

The Alpin Haus Ski Shop, Inc. (Company) 401(k) Profit Sharing Plan and Trust (Plan) was established on March 1, 1993. The following description of the Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution profit sharing plan covering all eligible employees of the Company. The Plan is drafted on a standardized prototype document and includes a 401(k) provision. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan assets are held and administered by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan, as of and for the years ended December 31, 2013 and 2012. Company contributions and participant accounts are/were held by the Custodian that invested cash received from investments in accordance with participant instructions and made distributions to participants. The Board of Trustees is responsible for the oversight of the Plan, including investment offerings and monitoring investment performance of the Plan.

b. Contributions

Each year, participants may contribute a percentage or fixed dollar amount of their pre-tax annual compensation to the Plan. In addition, participants may contribute after-tax Roth elective deferral contributions to the Plan. Contributions are subject to certain limitations as defined by the Plan and the Internal Revenue Code (IRC). The maximum participant deferral was $17,500 and $17,000 for the Plan years ended December 31, 2013 and 2012, respectively. Participants age 50 and over are also permitted to make additional "catch-up" contributions.

Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of contributions into various investment options offered by the Plan.

The Company may make a discretionary matching contribution of the employee's elective deferral to the extent the deferral does not exceed 6% of the participant's total compensation. The Company may also make a discretionary profit sharing contribution at the option of its Board of Directors. There were no discretionary matching or profit sharing contributions made for the years ended December 31, 2013 and 2012.

c. Plan Eligibility

Employees are eligible to enter the Plan after they have attained the age of twenty-one and have completed one year of service. One year of service is defined as being credited with 1,000 hours of service in a consecutive twelve-month period. Entry dates of the Plan are January 1 and July 1. Participants who are actively employed at the end of the Plan year will share in the employer's matching and profit sharing contributions regardless of the service completed during the Plan year. Participants who left employment prior to year-end must complete more than 500 hours of service to share in the employer's profit sharing contributions. Participants who are not actively employed at the end of the year due to death, total and permanent disability, or early or normal retirement may share in the employer's matching and profit sharing contributions.

Note 1 - Description of Plan - Continued

d. Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's match of those contributions, plus earnings and losses thereon, and the participant's allocable share, if any, of (a) the Company's discretionary profit sharing contribution and (b) forfeitures of the nonvested portion of terminated participants' accounts. Allocations of the Company's discretionary profit sharing contributions and forfeitures are based on a formula which takes into account the participant's gross compensation for the allocation period. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately vested in their contributions and rollovers, plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions is subject to a graduated vesting schedule. A participant shall have a vested and nonforfeitable interest in his or her account determined by the number of years of service as follows:

Years of Service	Vesting %
Less than 2	0
2	20
3	40
4	60
5	80
6	100

f. Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000, or 50% of their vested account balance. Loan terms range from one to five years or a reasonable number of years determined by the Plan Administrator for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. The Plan interest rates for loans during the years ended December 31, 2013 and 2012, range from 5.25% to 9.25%. Principal and interest are paid ratably through regular payroll deductions.

g. Payment of Benefits

Upon termination of service due to death, disability, attainment of normal retirement age, or termination of employment, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment. The Plan may distribute account balances to participants whose account balance is $5,000 or less. The Plan also allows hardship distributions up to the participant's vested account balance and in-service distributions for participants upon attaining age 59½.

Note 1 - Description of Plan - Continued

h. Forfeited Accounts

The nonvested portion of terminated participants' accounts, as defined by the Plan, represents a forfeiture. Forfeitures may be used to reduce Company contributions. During the years ended December 31, 2013 and 2012, the Company did not use forfeitures to reduce Company contributions. As of December 31, 2013 and 2012, the Plan has $1,568 and $971, respectively, of forfeitures to reduce future Company contributions.

Note 2 - Summary of Significant Accounting Policies

a. Basis of Accounting and Financial Statement Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for defined contribution plans.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

b. Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation polices utilizing information provided by the investment advisors and custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 - Summary of Significant Accounting Policies - Continued

d. Notes Receivable from Participants

Notes receivable from participants, are stated at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

e. Payment of Benefits

Benefits are recorded when paid.

f. Administrative Fees

Administrative fees of the Plan are paid by the Plan and the Company. Administrative fees paid by the Plan are allocated proportionately to participants based on the value of their account balances.

g. Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure through October 14, 2014, the date the financial statements were available to be issued.

Note 3 - Information Certified by Custodian (Unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan, as complete and accurate, except for comparing such information certified by the Custodian to information including the Plan's financial statements and supplemental schedule:

The framework for measuring fair value prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy are as follows:

Note 4 - Investments and Fair Value Measurement - Continued

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have no changes to the methodologies used at December 31, 2013.

Cash, held for investment: The carrying amounts of cash approximate fair value because of the short maturity of these instruments.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

Note 4 - Investments and Fair Value Measurement - Continued

The following tables set forth by level with the fair value hierarchy, the Plan's asset at fair value:

	December 31, 2013			
	Level 1	Level 2	Level 3	Total

(a) These funds primarily invest in common stock, other equity securities, fixed income securities, and money market instruments, and seek to invest in companies that appear to offer superior opportunities for growth of capital. While these funds are primarily focused on companies in the United States, portions of the assets held may be securities of issuers with primary operations outside the United States.

(b) These funds primarily invest in common stock, other equity securities, fixed income securities, and money market instruments. While these funds are primarily focused on companies in the United States, portions of the assets held may be securities of issuers with primary operations outside the United States.

(c) These funds primarily invest in the common stocks, preferred stocks, depository receipts, and securities convertible to common or preferred stocks of growth companies that are domiciled or that have their primary operations outside of the United States, and may invest in emerging markets as well as in the developed markets throughout the world, but may also include securities of companies in the United States as well.

(d) These funds primarily invest in inflation-indexed bonds, corporate bonds, bank certificates of deposit, fixed time deposits, mortgage-backed and asset-backed securities, and obligations of the United States government or its agencies or instrumentalities, but may also invest in convertible securities, preferred stocks, warrants, bank loans, and other fixed income securities, including Rule 144A securities of both domestic and foreign issuers. The funds may also enter into repurchase agreement transactions, futures contracts, interest rate swaps, total return swaps, and credit default swaps.

(e) These funds primarily invest in common stocks of companies whose market capitalizations are between $317 million and $394 billion at the time of purchase. The funds may also invest in futures contracts or derivatives. The funds expect that they will engage in active and frequent trading and so will typically have a relatively high portfolio turnover rate.

(f) These funds primarily invest in blue chip equities and investment-grade fixed-income securities, using a balanced approach and a U.S. emphasis. The funds are primarily invested in common stocks, preferred stocks, bonds, convertibles, and cash.

Note 5 - Guaranteed Investment Contract

The Plan has entered into a benefit-responsive investment contract with MassMutual Retirement Services. MassMutual Retirement Services maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Massachusetts Mutual Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rates are based on a formula agreed upon with the issuer. Such interest rates are viewed on a quarterly basis for resetting.

Note 5 - Guaranteed Investment Contract - Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	December 31,	
Average Yields	2013	2012
Based on actual earnings	2.76%	2.24%
Based on interest rate credited to participants	2.76%	2.24%

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Upon termination of the Plan, the participants will become 100% vested in their accounts. The Custodian will continue to hold the Plan assets and will make distributions of the Plan benefits in accordance with the instructions of the Company and the Plan provisions.

Note 7 - Tax Status

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

The Plan's management evaluates tax positions taken by the Plan and recognizes a tax liability or asset if an uncertain tax position was taken and it is more likely than not that the tax position would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions. The Plan is no longer subject to income tax examinations for the years 2009 and prior.

Note 8 - Related Party and Party-in-Interest Transactions

The Company did not contribute to the Plan for the years ended December 31, 2013 and 2012. The Company paid for certain administrative expenses on behalf of the Plan, which totaled $10,346 and $18,632 for the years ended December 31, 2013 and 2012, respectively. Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation for such functions from the Plan.

The pooled separate accounts offered as investment options are managed by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
