GRAY AMERICA CORP. SAVINGS & RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2013

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Gray America Corp. (the Company or Employer) Savings & Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1994. The Plan is a defined contribution plan covering all employees of Gray America Corp., and its subsidiaries: L&H Threaded Rods Corp.; A-Lab Corp.; Scarlet & Gray Corp.; and New Dimension Metals Corp., who have attained age 21 on the Plan entry dates of January 1, April 1, July 1 or October 1. Leased employees are not eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Plan was most recently restated effective April 1, 2011.

Plan Administration

The Trustees are responsible for the oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance. TransAmerica Life Insurance Company (TransAmerica) serves as the current custodian of the Plan assets; ING Life Insurance and Annuity Company (ING) was the former custodian of the Plan assets. Creative Retirement Solutions is the third party administrator and record keeper. No such officer or employee receives compensation from the Plan.

Contributions

Each year, participants may contribute up to 100 percent of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may also make discretionary matching contributions at an amount determined annually by management. All eligible participants of the Plan are eligible to receive the matching contribution. For 2013, the Company matched 50 percent of the participant's compensation deferred, with a maximum match of \$780.

In addition, the Company may make a discretionary annual profit sharing contribution, which is allocated to each eligible participant based on the ratio of the participant's compensation to the total compensation of all participants. Participants must complete 12 months of service to be eligible for the profit sharing contribution. The Employer profit sharing contribution was \$82,500 for the year ended December 31, 2013. Contributions are subject to certain limitations.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contributions and Company discretionary matching and profit sharing contributions, if any, as well as an allocation of Plan earnings. The contributions are allocated within each participant account based upon the participant's investment elections to the various fund options offered under the Plan. Administrative expenses are charged to individual accounts for specific participant-initiated transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is one hundred percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are collateralized by the vested account balance in the participant's account. The loan interest rate is set at 4.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service, death, disability, or attainment of age 59½ while still employed by the Company, a participant may request a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$3,027 and \$10,357, respectively. These accounts will be used to reduce administrative expenses of the Plan or any employer contribution. During 2013, Employer contributions and administrative expenses were reduced by \$10,482 from forfeited nonvested accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2013 and 2012, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Except for the guaranteed investment contract (Note 4), investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed at the beginning of the loan. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2014, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (CURRENT CUSTODIAN)

During 2013, the Plan entered into an investment contract with TransAmerica. TransAmerica maintains the contributions in a general account, the Stable Value Fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. TransAmerica is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 3 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (CURRENT CUSTODIAN) (CONTINUED)

Because the Stable Value Fund is considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Stable Value Fund. The Stable Value Fund is presented on the statement of net assets available for benefits at fair value which equals contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 was \$154,300. Prior to each January 1, and July 1, the effective annual rate of interest is established for the following six month period. Interest is credited based upon the daily balance at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period. There is no stated minimum or maximum interest rate for the Stable Value Fund.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include certain transfers, withdrawals for purposes other than benefits, or termination of the contract. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

The Stable Value Fund does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the Stable Value Fund are as follows at December 31, 2013:

Average Yields:

Based on actual earnings	.80%
Based on interest rate credited to participants	.80%

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (FORMER CUSTODIAN)

The Plan previously held an investment contract with ING. ING maintained the contributions in a fixed account. The account was credited with interest at a guaranteed minimum rate, as defined in the contract. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

As discussed in Note 2, because the guaranteed investment contract was considered fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by ING, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was \$143,356. The crediting interest rate was set annually by the issuer, but could not be less than 3.0 percent. The issuer could also credit interest at a rate greater than the crediting interest rate set for that year.

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (FORMER CUSTODIAN) (CONTINUED)

Certain events limited the ability of the Plan to transact at contract value with the issuer. Those events included certain transfers, withdrawals for purposes other than benefits, or termination of the contract.

The contract was terminated in July 2013.

The average yields earned by the guaranteed investment contract were as follows at December 31, 2012:

Average Yields:	
Based on actual earnings	3.0%
Based on interest rate credited to participants	3.0%

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of mutual funds managed by TransAmerica Life Insurance Company. TransAmerica Life Insurance Company is the custodian of these Plan assets and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become one hundred percent vested in their employer contributions.

NOTE 9 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL. The Plan is subject to routine audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts:

Valued based on the quoted market prices of the underlying securities of the account, with adjustments for dividend rates and a management fee. The underlying mutual funds are deemed to be actively traded and are valued based on the closing price as reported by the fund.

Investment contract with insurance company:

Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 3). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

NOTE 11 - FAIR VALUE MEASUREMENTS (CONTINUED)
