Note 1 - Description of Plan

General

The BERKELEY EYE CENTER 401 (K) Plan (the "Plan"), which was established January 1, 1997, is a defined contribution plan covering all of the eligible employees of BERKELEY EYE CENTER (the "Company", or "Plan Sponsor"). The Plan is a qualified plan as defined by Section 401 (a) of the Internal Revenue Code and contains a provision for salary reduction contributions under Section 401(k) of the Internal Revenue Code. The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan changed trustees on April 15, 2011. The Plan also restated its Plan Document on the same date.

Eligibility

From January 1, 2011 through April 14, 2011, employees of the Company who were at least 18 years of age were eligible to participate in the Plan following completion of three months of service. Upon eligibility, employees were allowed to enter the Plan on January 1 or July 1. Effective April 15, 2011, the Plan was amended, allowing for employees of the company who are at least 18 years of age to participate in the Plan, generally following completion of two consecutive months of service. Upon eligibility, employees are allowed to enter the Plan on the first day of each month.

Contributions

Employees may elect to contribute a portion of their eligible compensation to the Plan, and may direct their contributions to various investment alternatives. Contributions for employees are limited in any calendar year to an amount which is adjusted annually by the Internal Revenue Service. Participants may also contribute amounts representing distributions transferred from certain other qualified plans. The Company made no matching contributions for 2013 and 2012.

Notes receivable from participants

Participants may borrow up to 50% of the vested balance in their account, limited to $50,000, and subject to a minimum loan amount of $1,000. Notes receivable bear interest at reasonable rates and are secured by the participant's vested account balance. Notes receivable are valued at amortized cost, which approximates fair value. Principal and interest is paid ratably through payroll deductions.

Note 1 - Description of Plan, continued

Participants' Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and earnings or loss from investment of the contributions. Income for each of the investment directives is allocated to the participants' accounts on a daily basis and is based on the relative units of participation as well as other factors related to eligibility. Employer contributions, if any, are allocated as a uniform percentage of compensation. Benefits paid to participants under the Plan are limited to the vested balance in each participant's account.

Vesting and Payment of Benefits

All participant contributions vest immediately. Company contributions vest according to the following schedule:

Years of Service	Vesting Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Participants may elect to receive distributions in a lump sum, or in installments. The normal retirement age under the Plan is 65; however, benefits may be distributed during employment under hardship provisions. Additionally, participants who have attained the age of 59 ½ may withdraw benefits prior to the termination of employment. If death or permanent disability occurs during employment, an employee's entire account balance becomes fully vested. Separating participants may elect to rollover their account into another plan, as permitted by Internal Revenue Service regulations.

Forfeitures

Forfeitures may occur in the plan year that a participant receives a distribution of his or her entire vested account.

Forfeitures retained in the Plan are used to first reduce plan expenses and then the Company's matching contributions under the Plan. There were no significant forfeitures during the current plan year.

Note 1 - Description of Plan, continued

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of Significant Accounting Policies

Investments

The Plan's investments are measured at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis.

Basis of Accounting

The financial statements are presented on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America. Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles in the United States of America requires the Plan to make estimates and assumptions that affect certain reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of additions and expenses during the reporting period. Actual results may differ from those estimates.

Note 3 – Federal Income Taxes

The Plan was restated effective April 15, 2011 by adopting a "volume submitter" plan document for the previous plan and current plan, prepared by BOKF, NA dba Bank of Oklahoma. Under IRS Announcement 2001-77, if a volume submitter receives a favorable determination letter, an adopting Plan is no longer required to request its own determination letter regarding the tax-exempt qualification of the Plan. The Plan, as allowed by IRS regulations, intends to rely on its advisor rather than submit its own determination letters.

Note 3 – Federal Income Taxes, continued

The Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 4 – Uncertain Tax Positions

The Plan did not have unrecognized tax benefits as of December 31, 2013 and does not expect this to change significantly over the next twelve months. Therefore, as of December 31, 2013, the Plan has not accrued interest or penalties related to uncertain tax positions. The Plan remains subject to income tax examination for tax years 2010 and beyond.

Note 5 – Related Party Transactions

The Plan invests in mutual funds that are managed by BOKF, NA dba Bank of Oklahoma, custodian for the Plan. During the year ended December 31, 2013, the Plan paid the custodian $13,627. Total plan expenses for the year ended December 31, 2013 was $13,246. The Plan believes the fees charged by the custodian are not significantly different than those that would be charged by other companies engaged in managing pension assets.

Note 6 – Risks and Uncertainties

Plan participants make choices regarding their investment securities, and are exposed to risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that reduction in value can occur in the near term and that such changes could materially affect participant account balances reported in the statement of net assets available for benefits.

Note 7 - Information Certified by the Trustee (unaudited)

At December 31, 2013 and 2012, the Plan's investments were held by BOKF, NA dba Bank of Texas (the "Trustee"). Among other duties, BOKF, NA receives contributions, invests plan assets, collects income, and makes distributions as directed.

The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee, as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 9 - Fair Value of Financial Instruments

ASC 820-10 provides standards and disclosures for assets and liabilities that are measured and reported at fair value. As defined in ASC 820-10, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820-10 requires disclosure that establishes a framework for measuring fair value and expands disclosure about fair value measurements. The statement requires fair value measurements be classified and disclosed in one of the following categories.

Note 9 - Fair Value of Financial Instruments , continued

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Measured based upon inputs that are observable, either directly or indirectly, for the asset or liability other than quoted market prices included in Level 1. These inputs include: a) quoted prices for similar assets or liabilities in active markets, b) quoted prices for identical or similar assets or liabilities in markets that are not active, c) inputs other than quoted market prices that are observable, and d) inputs that are derived primarily from or corroborated by observable market data by correlation or other means.

Level 3: Measured based on unobservable inputs for the asset or liability for which there is little, if any, market activity for the asset or liability at the measurement date. This input includes management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The inputs are developed based on the best information available in the circumstances, which might include management's own data.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Various mutual funds and the Money Market Funds are valued at the net asset value (NAV) of shares held by the Plan at year-end and are classified as Level 1 investments.

Pooled separate accounts are stated at fair value as determined by observable Level 1 quoted pricing inputs or by quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quoted inputs (Level 1), the account values of separate accounts are not publicly quoted and are therefore classified as Level 2 investments.

As required by ASC 820-10, financial assets and liabilities are classified based on the lowest level of input that is significant to their fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels. The following table summarizes the valuation of the Plan's financial instruments by ASC 820-10 pricing levels as of December 31, 2013 and 2012.
