1. Description of Plan

The following description of the Signum 401(k) Plan (the “Plan”) provides only general information. Participants may refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a multiple-employer 401(k) defined contribution plan covering all full-time employees of Signum, LLC and its adopting employers (collectively, “Plan Sponsor” or the “Company”). Signum, LLC is a professional employer organization that leases employees and provides human resource administrative services to over 200 employers in South Carolina, North Carolina, and Georgia, certain of which have adopted the provisions of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Effective February 1, 2013, the Plan was amended to appoint Mr. Paul Conway as the Plan’s trustee.

Contributions

Each year participants may contribute up to 20% of their pretax annual compensation to the Plan, subject to the limitations as defined in the Internal Revenue Code (“IRC”). Rollover and transfer contributions to the Plan are permitted upon meeting certain requirements. Matching and profit sharing contributions are determined annually by the Boards of Directors of Signum, LLC and its adopting employers. Matching contributions cannot exceed 5% of an individual participant's annual compensation.

The Plan allows adopting employers to elect safe harbor provisions. Under provisions of the Plan, to satisfy the safe harbor rules, the adopting employer may (a) make an annual non-elective contribution equal to at least 3% of an employee's compensation regardless of whether the employee contributes to the Plan, (b) make a matching contribution equal to 100% of a participant's contributions to the Plan up to 3% of the participant's compensation plus 50% of the participant's contributions to the Plan between 3% and 5% of the participant's compensation, (c) make a matching contribution equal to 100% of a participant's contributions to the Plan up to 4% of the participant's compensation, or (d) make a matching contribution equal to 100% of a participant's contributions to the Plan up to 5% of the participant's compensation.

The Company made matching contributions of approximately \$293,000 and \$203,000 for the years ended December 31, 2013 and 2012, respectively. The Company made no profit sharing contributions for the years ended December 31, 2013 and 2012.

Notes to Financial Statements
December 31, 2013 and 2012

1. Description of Plan (continued)

Contributions (continued)

Qualified non-elective contributions may be made by the Company in order to satisfy the nondiscrimination tests described in the IRC. Qualified non-elective contributions are allocated to every non-highly compensated Plan participant who was active in the Plan during the year. The Company made qualified non-elective contributions of \$59,471 and \$0 for the years ended December 31, 2013 and 2012, respectively. The Company also made additional contributions of \$135,720 and \$0 for the years ended December 31, 2013 and 2012, respectively, to meet the top-heavy minimum contribution requirement.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's safe harbor, matching and profit sharing contributions, and allocations of (a) the Company's non-elective contributions, (b) Plan expenses, and (c) Plan earnings or losses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Earnings or losses are allocated by fund based on the ratio of a participants' account invested in a particular fund to all participants' investments in that fund.

Vesting

Participants are immediately vested in their contributions and Company safe harbor contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. Participants are vested on a graduated basis until completion of five or six years of continuous service based on the vesting schedule selected by the adopting employer.

Upon reaching minimum retirement age (65) or if termination is due to death or permanent disability, the participant becomes 100% vested in all contributions.

Investment Options

Upon enrollment in the Plan, participants may direct their contributions, the Company's matching, profit sharing, safe harbor, and qualified non-elective contributions, if any, in a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options at any time.

1. Description of Plan (continued)

Payment of Benefits

Upon termination of service, if a participant's vested account balance does not exceed \$5,000 (excluding rollover contributions and earnings thereon), the Plan will distribute the participant's vested account balance in a lump sum. If his or her vested account balance exceeds \$5,000, a participant may elect to receive the value of the participant's vested interest in his or her account in the form of a lump-sum distribution or roll over the vested balance into an IRA or other qualified plan.

Participants still employed may withdraw all or part of their vested account, excluding earnings, upon furnishing proof of financial hardship, however, not more than once in any plan year.

Notes Receivable from Participants

Participants may borrow from their accounts up to the lesser of \$50,000 or 50% of their vested account balance. The loans are collateralized by the balance in the participant's account and accrue interest at rates that range from 5.25% to 8.50% which represent rates that are similar to the rates charged for a loan made under similar circumstances by banks or other financial institutions. Principal and interest are paid ratably through payroll deductions.

Forfeitures

Forfeited employer matching contributions may be used at the discretion of the Plan administrator to reduce the Company's future matching contributions. Forfeited employer matching contributions totaled \$19,105 and \$383 as of December 31, 2013 and 2012, respectively. Forfeitures of \$383 and \$34,149 were used to reduce employer matching contributions for the years ended December 31, 2013 and 2012, respectively.

Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts as of the date of termination.

Administrative Expenses

Certain administrative expenses, including recordkeeping fees, are charged to individual participants' accounts. Any expenses not paid by the Plan are paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Contributions

Employee contributions and Company matching contributions are recorded in the period during which the Company makes payroll deductions from the participants' earnings. Company profit sharing, safe harbor, and qualified non-elective contributions are accrued and paid based on amounts to be funded for each year under the Plan provisions and the applicable requirements of the IRC.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain reclassifications were made to the 2012 financial statements in order to conform with the 2013 presentation. These reclassifications had no impact on net assets available for benefits or the change in net assets as previously reported.

Notes to Financial Statements
December 31, 2013 and 2012

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts through its investment in the Federated Capital Preservation Fund, a collective trust. The statements of net assets available for plan benefits present the fair value of the investment contracts as well as an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for plan benefits are prepared using contract value.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Unallocated Assets

Approximately \$28,000 and \$193,000 of the Plan assets had not yet been allocated to participants as of December 31, 2013 and 2012, respectively.

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for plan benefits. The methods used to measure fair value may produce amounts that may not be indicative of net realizable values or reflective of future fair values. Furthermore, although plan management believes the valuation methods used are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements
December 31, 2013 and 2012

4. Fair Value Measurements (continued)

U.S. GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs to the valuation methodology are unobservable. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were used by the Plan, and Level 2 inputs were only used when Level 1 inputs were not available.

The following tables present fair value measurement information for the Plan's investments:

	As of December 31, 2013		
	Quoted Market Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Total
Mutual funds:

Mutual funds:			
Balanced funds	\$ 360,485	\$ --	\$ 360,485

Total investments, at fair value	\$ 7,162,929	\$ 1,085,163	\$ 8,248,092

Level 1 Fair Value Measurements - The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements - The collective trust and other investments are stated at fair value as determined by the issuer of each based on the fair market values of the underlying investments.

Gains and losses included in changes in net assets available for plan benefits for the years ended December 31, 2013 and 2012 are reported in net appreciation in fair value of investments. Unrealized gains/losses from the Federated Capital Preservation Fund are not reported in the statements of changes in net assets available for plan benefits as the underlying investments are recorded at contract value for presentation in the statements of net assets available for plan benefits.

5. Investments

Individual investments, all of which are participant-directed and have been certified by John Hancock Life Insurance Company, the custodian of the Plan for the period March 15, 2013 through and as of December 31, 2013, and Branch Banking and Trust Company, the custodian of the Plan for the period January 1, 2012 through March 14, 2013 that represent 5% or more of the Plan's net assets available for plan benefits as of December 31, 2013 and 2012 are separately identified in the following table:

During 2013 and 2012, the Plan's investments (including investments bought, sold, as well as held during the year) appreciated in value by \$1,630,721 and \$850,385, respectively.

6. Party-in-Interest Transactions

The custodians provide custodial and investment advisory services to the Plan. All transactions with the custodians qualify as party-in-interest transactions. Fees paid by the Plan to the custodians amounted to \$75,545 and \$60,329 for the years ended December 31, 2013 and 2012, respectively. Plan investments also include notes receivable from participants, which qualify as party-in-interest transactions.

All of these party-in-interest transactions are exempt from the prohibited transactions rules of ERISA.

7. Filing Status

The Plan obtained its latest opinion letter in 2008 in which the Internal Revenue Service ("IRS") stated that the Plan and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Filing Status (continued)

During 2011, management discovered several operational procedures that did not follow the current Plan document, which could have potentially impacted the Plan's qualified tax status. Management took the steps necessary to preserve the Plan's qualified status. Further, in 2012, the Plan was selected for audit by the IRS. On May 15, 2013, the Plan administrator entered into a closing agreement with the IRS to settle all open matters and accept the Plan's 2009 – 2011 returns as filed. No penalties or fines were assessed on the Plan in the closing agreement; however, the Plan administrator was required to pay \$50,000 to settle all matters with the IRS.

U.S. GAAP requires the Plan administrator to evaluate certain tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. No such liabilities are identified at December 31, 2013 and 2012. The Plan is subject to routine audits by tax authorities; however there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

8. Asset Transfers

During the years ended December 31, 2013 and 2012, net assets of \$0 and \$168,497, respectively, were transferred into the Plan from other qualified plans. These transfers were attributable to employers who elected to become adopting employers.

9. Subsequent Events

Management evaluated events and transactions after December 31, 2013 through October 14, 2014, the date the financial statements were available to be issued. Effective January 1, 2014, the Plan was amended to change the Plan's trustee to Mr. T.K. Barnes. No other subsequent events were noted.
