SMOKIN JOES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of the Smokin Joes Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution 401(k) plan sponsored by Joseph M. Anderson d/b/a Smokin' Joe's (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees of the Company must be at least 21 years of age and have completed one year of service to be eligible to participate in the Plan.

(b) Contributions

The Plan provides for participant pre-tax contributions of compensation, as defined, up to the maximum annual limitations allowed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company has a discretionary matching contribution in which it contributes 25% of each participant's elective contribution, up to the first 6% of the participant's eligible compensation.

In addition, the Company may make a discretionary profit sharing contribution in an amount determined at the end of the Plan year by management. The profit sharing contribution is allocated to participants based upon their percentage of compensation to total participants' compensation. The Company did not make a discretionary profit sharing contribution for the years ended December 31, 2013 and 2012.

Participants direct all contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of investment and administrative expenses. Allocations are based on the participant's account balance, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

(1) Description of Plan, Continued

(e) Notes Receivable from Participants

Participants may borrow from their individual accounts a minimum of $1,000, up to a maximum of $50,000, not to exceed 50% of the vested account balance. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

(f) Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant will be paid in one lump sum in the form of a cash distribution, direct rollover distribution, or a combination of cash and direct rollover distribution.

(g) Forfeited Accounts

Forfeitures of non-vested employer contributions, which remain after an employee has terminated employment, shall be used first to pay administrative expenses under the Plan and then to reduce future employer contributions payable to the Plan. Forfeitures for the years ended December 31, 2013 and 2012 amounted to $3,283 and $2,345, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to the fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment to the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for the fully benefit-responsive investment contract.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

(2) Summary of Significant Accounting Policies, Continued

(c) Investment Valuation and Income Recognition

Investments are reported at fair value except for its benefit-responsive contract, which is valued at contract value (note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the years.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

(g) Subsequent Events

Management has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued.

(h) Reclassifications

Reclassifications have been made to certain 2012 balances in order to conform them to the 2013 presentation.

(3) Investments

Individual investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are as follows:

	2013	2012
Fidelity Advisor Growth Opportunities Fund	$ 452,015	70,270 *
Fidelilty Spartan 500 Index Fund	355,670	- *
Fidelity Advisor Balanced Fund	125,490	99,385
PIMCO Stable Income Fund	124,473	- *
Fidelity Advisor Total Bond Fund	107,896	- *
Prudential Jennison Mid Cap Growth Fund	107,083	- *
Fidelity Advisor Growth and Income Fund	- *	227,552
Fidelity Advisor Equity Growth Fund	- *	189,002
Fidelity Advisor Intermediate Bond Fund	- *	131,177
Fidelity Advisor Prime Fund	- *	115,306
Fidelity Advisor Stock Selector Mid Cap Fund	- *	71,622

* Under 5% threshold; presented for comparative purposes.

During the years ended December 31, 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the years) appreciated in value by $278,201 and $138,561, respectively.

(4) Guaranteed Investment Contract

The Fund has a fully benefit-responsive investment contract with PIMCO. PIMCO maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the PIMCO Stable Income Fund. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by PIMCO, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(4) Guaranteed Investment Contract, Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination); 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; or, (3) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Average yields on the investment contract were as follows:

Based on actual earnings	1.41%
Based on interest rate credited to participants	0.69%

(5) Fair Value Measurements

A framework has been established for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

(5) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Guaranteed investment contract - Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purpose only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

(6) Information Certified by the Plan's Trustee

The financial information relating to the Plan's assets at December 31, 2013 and 2012, as well as investment income and investment transactions for the years then ended, have been derived from information provided by Fidelity Management Trust Company (Fidelity) and have been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent auditors.

	2013	2012
Investments, at fair value	$ 1,721,980	1,291,683
Adjustment from fair value to contract value	2,368	-
	$ 1,724,348	1,291,683

	2013	2012
Net appreciation in fair value of investments	$ 278,201	138,561

(7) Party-In-Interest Transactions

Fidelity is the trustee of the Plan. Investments include mutual funds sponsored by Fidelity; therefore, these transactions qualify as party-in-interest. Fees paid to Fidelity for the investment management services amounted to $9,099 and $6,490 for the years ended December 31, 2013 and 2012, respectively.

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

(9) Tax Status

The Plan and related trust were established under a prototype plan that received a favorable tax determination letter dated January 28, 2002, from the Internal Revenue Service indicating the features of the Plan, as then designed, conform with the requirements of Section 401(k) of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2013 that there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Department of Labor; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(10) Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
