NOTE 1 - DESCRIPTION OF THE PLAN

The CHA Consulting, Inc. Retirement Investment Plan (the "Plan") was established on March 3, 1987 effective as of January 1, 1987. The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a profit sharing plan covering all eligible employees of CHA Consulting, Inc., Clough Harbour and Associates LLP, and CHA Technical Services Inc. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan includes a cash or deferred arrangement pursuant to Section 401(k) of the Internal Revenue Code. Employees are automatically enrolled in the Plan upon satisfying the eligibility requirements unless a contrary election has been made.

Eligibility: The Plan covers employees who are age 20 or older as of plan entry date, excluding employees covered under a collective bargaining agreement, non-resident aliens who do not receive any compensation from domestic sources, leased employees, and student interns.

Contributions: The Plan provides that eligible participants may elect to have the Company make salary reduction contributions to the Plan on their behalf. Participants are allowed to contribute up to the maximum percentage allowed, not to exceed the limits set by law. Participants who have attained the age of 50 may elect to defer additional amounts, not to exceed the limits set by law. The Plan also allows for Employer discretionary contributions. There were no Employer discretionary contributions made to the Plan in 2013. Participants direct the investment of contributions among various investment options of the plan.

Participant Accounts: Each of the participant's accounts are credited with the individual participant's contributions (including rollovers) and the participant's allocable share (if any) of (a) the Company's contribution and (b) Plan earnings, losses and administrative expenses. Annual allocations of the Company discretionary contributions are based upon a formula which takes into account the participant's compensation integrated with social security wages. Allocation of investment earnings or losses is based on participant account balances. The benefit to which a participant is entitled is equal to the vested portion of the participant's accounts. Rollover contributions to participant accounts, representing distributions from other qualified defined benefit or defined contribution plans, approximated $1,294,118 in 2013.

Vesting: Participants are immediately vested in their contributions and rollover amounts plus actual earnings thereon. Company contributions credited to a participants' account are subject to a graduating vesting schedule. After one year of service (as defined by the Plan), a participant is 50% vested. After two years of service, a participant is 100% vested in Company contributions.

Payment of Benefits: Distribution of benefits are payable on a participant's (a) reaching age 59 ½, (b) hardship, as defined by the Plan, (c) retirement date, (d) sustaining total and permanent disability, (e) death, or (f) termination of service with the Company, under prescribed circumstances. Participants may elect to receive either a lump-sum amount or installment payments based on the life expectancy of the participant. Distributions are based upon the vested balance in the participant's account.

Forfeitures: At December 31, 2013 and 2012 forfeited non-vested accounts totaled approximately $0 and $8,789, respectively. Forfeitures are used to reduce employer contributions and can be used to pay plan related expenses.

(Continued)

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of $1,000 or a maximum of $50,000 or 50% of their vested account balance, whichever is less. Loans must generally be repaid over a period not longer than five years. The loans are collateralized by the balance in the participant's account and bear interest at market rates. Principal and interest are paid ratably through payroll deductions. Loan balances approximated $1,125,826 and $726,825 as of December 31, 2013 and 2012, respectively.

Administrative Expenses: The costs of administering the Plan, other than individual account service charges, are paid by the Plan. Individual account service charges are charged directly to participant accounts. Fees paid by the Plan for investment management services were included as a reduction of the return earned by each fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a group annuity product. An adjustment from fair value to contract value is presented in the 2013 statement of net assets available for benefits in the amount of $12,874. There were no such investments held at December 31, 2012.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: Management has performed an analysis of the activities and transactions subsequent to December 31, 2013 to determine the need for any adjustments to and/or disclosures within the financial statements for the years ended December 31, 2013. Management has performed their analysis through October 9, 2014 which was the date the financial statements were available to be issued.

NOTE 3 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Great-West Trust Company, LLC as of December 31, 2012 and for the period January 1, 2013 to September 30, 2013 and Massachusetts Mutual Life Insurance Company from October 1, 2013 to December 31, 2013. This information has not been audited by independent accountants.

The following investments represent five percent or more of the Plan's net assets available for benefits. Due to the change in custodians, the Plan assets were invested in new funds during 2013, therefore there are not comparable balances between years:

NOTE 3 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS (Continued)

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated in value by $8,663,219 as follows:

Mutual Funds	$ 8,663,219

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Group Annuity Investment: The SAGIC Diversified Bond held by the Plan is a separate account investment option with a general account guarantee that provides a stated rate of return and insulates participants' accounts from the daily fluctuations in the market. The fair value of this group annuity investment represents the liquidation value as documented within the SAGIC contract (Level 2 inputs, or other inputs that are observable) and assumes that the intrinsic value of the general investment account guarantee is minimal.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 – PLAN TRANSFER

Effective October 1, 2013, R.W. Armstrong 401(k) Plan ("Predecessor Plan") was merged into the Plan. The transfer of $19,846,542 in Predecessor Plan net assets into the Plan was completed October 16, 2013.

NOTE 7 – RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their employer contributions.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. The Plan holds notes receivable from participants, and therefore, these transactions qualify as party in interest. The Plan holds investments in mutual funds and in a group annuity investment account that are managed by the Retirement Services Division of the Massachusetts Mutual Life Insurance Company. Therefore, these transactions and payment of trustee fees, record keeping fees, and investment management fees to the trustee qualify as party-in-interest transactions.

Schedule C Soft Dollar Compensation
Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
