Eligible employees enter the Plan on the first of the month following the date of eligibility. The Plan excludes employees covered by a collective bargaining agreement.

Contributions

Participants may elect to make contributions, on a pre-tax basis, up to 100% of their compensation, up to the maximum allowable under the Internal Revenue Code (IRC). Participants age 50 or older are allowed to make catch-up contributions. The Plan allows for Company matching contributions of employee deferrals equal to 50% of the elective deferrals up to 6% of eligible compensation. In addition, the Company may elect to contribute a profit sharing contribution as a fixed percentage of eligible participants' compensation. The fixed percentage a participant receives is determined by the employer on a discretionary basis. Participants are immediately 100% vested in their own contributions, Company matching contributions and rollovers. The Company's discretionary profit sharing contributions, plus actual earnings thereon, are subject to a three-year vesting schedule. Participants become 100% vested in all contributions, plus actual earnings thereon, upon retirement, death or disability.

Ryt-Way Industries, LLC Profit Sharing 401(k) Plan

Notes to Financial Statements

Forfeited Accounts

Forfeited non-vested accounts are used to reduce future Company matching contributions. Forfeited non-vested accounts as of December 31, 2013 and 2012 totaled \$209 and \$8,630, respectively. Forfeitures used to reduce matching contributions for the year ended December 31, 2013 totaled \$24,161.

Participant Accounts

Each participant's individual account is credited with employee deferral contributions, Company matching and profit sharing contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Income is allocated daily based on the shares in the participant's account.

Notes Receivable From Participants

Participants may borrow from their accounts the lesser of 50% of the vested account balance or \$50,000. The notes are secured by the balance in the participant's account and bear a reasonable rate of interest. The interest rate will be determined based on the prime rate in effect on the first business day of the month the note originated. Notes outstanding at December 31, 2013 bear interest at rates from 3.25% to 9.25%. Principal and interest are paid ratably through payroll deductions, not to exceed five years, unless the note proceeds are to be used for a primary residence, in which case the note term may be extended. Participants may only have two notes outstanding at any time.

Payment of Benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Under terms of the Plan, the participant may receive his or her optional form of benefit in the form of a lump sum or installment payments. The benefit is distributable upon termination of employment, death, disability, attainment of normal retirement age (age 65) and, to the extent of his or her deferral contribution account, age 59½. Participants may also take in-service distributions of the rollover account balance. Distributions on account of hardship are not permitted. If a participant terminates employment and the participant's vested account balance is less than \$1,000, the Plan Administrator will authorize the benefit payment without the participant's consent (automatic distribution). Automatic distributions between \$1,000 and \$5,000 without the participant's consent will be paid in a direct rollover to an Individual Retirement Account (IRA).

Administrative Expenses

Certain administrative expenses are paid by the Company. Administrative expenses not paid directly by the Company may be paid from the Plan in accordance with Plan provisions.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Ryt-Way Industries, LLC Profit Sharing 401(k) Plan

Notes to Financial Statements

Subsequent Events

Subsequent events have been evaluated by management through October 14, 2014, the date these financial statements were available to be issued.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset (an exit price) in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Participant loans are classified as notes receivable from participants, and are measured at the unpaid principal balance plus unpaid accrued interest. Defaulted loans, if any, are reclassified as distributions based upon the terms of the Plan Agreement.

Payment of Benefits

Benefits are recorded when paid.

3. Investments

In accordance with ASC 820, *Fair Value Measurements and Disclosures*, the Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Ryt-Way Industries, LLC Profit Sharing 401(k) Plan

Notes to Financial Statements

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, and other inputs that are observable or can be corroborated by observable market data.

Level 3 - Inputs to the valuation methodology are both significant to the fair value measurement and unobservable.

The following valuation methodologies were used to measure the fair value of the Plan's investments:

Mutual funds: Valued at quoted market price in an exchange and active market, which represent the net asset value of shares held by the plan.

Group annuity contract: Insurance contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For the group annuity contract held by the Plan, fair value approximates contract value. Therefore, no adjustments to the statements of net assets available for benefits are necessary. The statement of changes in net assets available for benefits is prepared on a contract value basis (see Note 4).

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although Plan management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below set forth the Plan's investments by level within the fair value hierarchy. There have been no significant transfers into or out of Levels 1, 2 or 3.

4. Contract With Insurance Company

The Plan entered into a group annuity contract with Great-West Life and Annuity Insurance Company (Great-West) that invests contributions in the Key Guaranteed Portfolio Fund. Great-West maintains the contributions in a general account.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract since the contract was determined to be

Ryt-Way Industries, LLC Profit Sharing 401(k) Plan

Notes to Financial Statements

fully benefit-responsive. The contract is included in the financial statements at fair value, which approximates contract value. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The interest crediting rate is reset quarterly. The guaranteed investment contract does not allow a crediting interest rate below zero percent. The average yield earned by the Plan for the group annuity contract is derived by averaging the quarterly gross interest rates for the fund over the year. The average yield based on actual earnings and interest rate credited to participants was 1.28% and 1.45% for 2013 and 2012, respectively.

5. Information Certified by Great-West

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians of the Plan have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

<i>December 31,</i>	2013	2012
Mutual funds	\$ 25,731,010	\$ 23,365,844
Group annuity contract	6,207,146	6,809,948
Notes receivable from participants	1,676,926	1,478,984

Year ended December 31, 2013

Total investment income	\$ 5,173,683
Interest from notes receivable from participants	48,230

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Notes to Financial Statements

6. Related Party Transactions

Investments are managed by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the Plan custodians. Therefore, these transactions qualify as party-in-interest. Fees paid to Great-West for recordkeeping services were \$17,325 in 2013.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will automatically become fully entitled to the total balance in their accounts.

8. Tax Status

The Company adopted a Prototype Defined Contribution Plan that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter; however, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to net assets per the Form 5500:
