Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of Southwest Ambulance Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Southwest Ambulance Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2012, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Southwest Ambulance Pension Plan's net assets available for benefits as of December 31, 2013 and 2012, and changes therein for the year then ended and its financial status as of December 31, 2012, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule of Assets Held at End of Year and Schedule of Reportable Transactions, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

SOUTHWEST AMBULANCE PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Southwest Ambulance Pension Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering all employees of Southwest Ambulance (the Plan Sponsor or Plan Administrator) who are subject to a collective bargaining agreement between the Sponsor and the International Association of Fire Fighters Local I-60 or any non-highly compensated employee who is employed as a district manager. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended July 1, 2008 to allow for lump sum distributions and adjust the benefit formula. See pension benefits discussion below.

Pension Benefits

Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age. There are two parts to the retirement benefit: (1) the flat dollar benefit and (2) the percent of pay benefit. The flat dollar benefit is determined as follows: (1) $325 per year for the years of credited service beginning July 1, 2004 and ending June 30, 2006, plus (2) $650 per year times years of credited service after July 1, 2006, up to a total of 20 years of credited service under (1) and (2). The percent of pay benefit is determined as follows: (1) 0.45% of final three-year average plan compensation times years of credited service beginning July 1, 2004 and ending June 30, 2006, plus (2) 0.9% of final three-year average plan compensation times years of credited service after July 1, 2006. These benefits are payable while the retiree lives. The normal retirement age is defined as the earlier of age 65 or age 62 with 15 years of service. The Plan permits early retirement prior to reaching the normal retirement age if the participant is at least age 55 and has 5 years of service. The annual benefit received during early retirement is reduced by 5% for each year prior to Normal Retirement Age that the distribution of benefits begins. The Plan also permits special early retirement prior to reaching the normal retirement age if the participant attains 20 years of service. Benefits are not reduced when special early retirement is elected. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. Employees may also elect to receive their benefits in the following forms; 50%, 75%, or 100% Survivor, 10 Year Certain and Life, and Social Security Bridge which only applies to the flat dollar benefit portion. If employees terminate before rendering 5 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

As noted above, the Plan was amended during 2008 to allow for lump sum distributions of actuarial equivalent values of vested accrued retirement benefits of $5,000 or less. The benefit formula above was also amended to equal 2.5% of a participants' average compensation reduced by 5.0% of anticipated benefit payable from social security, multiplied by the a participants' years of benefit service at normal retirement date or earlier termination of employment, but limited to 20 years of benefit service. In addition, a participant who is eligible for special early retirement will receive the qualified social security supplement. The flat dollar benefit noted above would only apply to a participant in the Plan before July 1, 2008 and then only if it would result in a greater benefit for the participant than the 2008 amended formula.

SOUTHWEST AMBULANCE PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Death and Disability Benefits

If an active, vested employee dies and they are married, a joint and 50% survivor benefit is payable to the spouse. If a single employee dies, the beneficiary will receive a benefit as if the participant had elected a 5 year certain and life pension. Active and vested employees who become totally disabled are immediately eligible to receive annual disability benefits that are equal to the actuarial equivalent of the benefits they would have received had they retired at the normal retirement age. Disabled employees may also elect to defer receiving benefits until they reach their normal retirement age. No additional benefits accrue after the date the employee terminates employment due to disability.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsequent Event

Management has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles require the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Method of Accounting

The accounting records of the Plan are maintained on the accrual basis. Revenues are recognized when earned, and expenditures are recognized when incurred.

Administrative Costs

The Plan has entered into service contracts with outside consultants and agencies to perform certain administrative services for the Plan. Most administrative costs are paid by the Plan Sponsor.

Investment Valuation and Income Recognition

Investments are reported at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Funding Policy

The Company's contributions for 2013 and 2012 exceeded the minimum funding requirements of ERISA. Prior to November 2010, the Company's funding policy was to make monthly contributions to the Plan in amounts that are estimated to remain a constant percentage of employees' base compensation each month, such that all employees' benefits will be fully provided for by the time they retire. During 2010 this percentage was 6.4% until November 2010, after which time the percentage was reduced to zero. The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

The Plan defines compensation as base salary or base pay which is pay for all regularly scheduled hours, including regularly scheduled overtime that is actually paid in gross income during the calendar month. Employees may buy back years of service earned prior to July 1, 2004 by making contributions to the Plan. Present employees' accumulated contributions at December 31, 2013 and 2012 were $173,424 and $136,041, respectively.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' monthly average compensation over the employees' final 36 months of employment.

The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson Delaware, Inc. (Towers Watson) by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2011 were (a) life expectancy of participants, (the RP-2000 Mortality Table was used), (b) retirement age assumptions (the assumed retirement age was earlier of age 62 with 15 years of vesting service or age 65), and (c) investment return. The 2011 valuation included an assumed average rate of return of 7.5%. Administrative expenses were assumed to be paid from the Plan. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. As allowed by FASB ASC 960, the Plan presents its benefit obligation information as of the beginning of the year, which in this case is January 1, 2012. Accordingly, the present value of accumulated plan benefits as of January 1, 2013 was $8,052,875.

Changes in Actuarial Assumptions

Other than the prescribed changes in the discount rate and mortality, certain significant assumptions and methods used in the December 31, 2012 valuation to determine the actuarial present value of accumulated plan benefits changed from the December 31, 2011 valuation. The assumed plan-related expenses added to the target normal cost were changed from $190,000 for 2012 to $155,000 for 2013. The effect of these changes was to increase the accumulated plan benefits by $11,284.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid. During 2013 and 2012 there were benefit payments of $50,448 and $33,993, respectively.

Market Risk

The Plan invests in various investments, which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Furthermore, due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements*. The guidance, which was effective for reporting periods beginning after December 15, 2009, required additional disclosures about transfers between levels within the fair value hierarchy, and clarified existing disclosure requirements regarding classes of assets and liabilities measured at fair value. Additional guidance which is effective for reporting periods beginning after December 15, 2010 requires the Plan to present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The new guidance is effective for reporting periods beginning after December 15, 2011.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Principal Life Insurance Company (Principal), the trustee of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at the end of the year) as of December 31, 2013.

NOTE 4 – FAIR VALUE MEASUREMENT

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts (PSA): PSA's are made up of a wide variety of underlying investments such as equities, preferred stocks, bonds, real estate and mutual funds. The net asset value (NAV) of a PSA is based on the market value of its underlying investments but the PSA NAV is not a publicly quoted price in an active market. Based on these facts, using it as a practical expedient to estimate fair value is allowed by ASC 820. The PSA's have no unfunded commitments, have a daily redemption frequency, and a one day notice period for redemption.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

2. Annuity benefits that former employees or their beneficiaries have been receiving for three or more years, or that employees eligible to retire for three or more years would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.

3. Annuity benefits that former employees or their beneficiaries have been receiving for less than three years, or that employees eligible to retire in less than three years would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.

4. Annuity benefits that employees who were eligible for early retirement would have been receiving had they been retired as of the date of termination.

5. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

6. All other vested benefits (that is, vested benefits not insured by the PBGC).

7. If the Plan has sufficient assets to cover the costs of all unpaid accrued benefits at such time as the Plan is terminated then any assets remaining in the Plan will be refunded to the Employer.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions.

NOTE 7 – INCOME TAXES

The Internal Revenue Service has determined and informed the Company by a letter dated July 6, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Subsequent amendments have been structured to and are intended to maintain the Plan's tax status. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the code, and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The Plan's management has analyzed the tax position taken by the Plan and has concluded that as of December 31, 2012, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions. However, there are currently no audits for any tax periods in progress. The Plan's management believes the Plan is no longer subject to audit for plan year prior to the 2010 plan year.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments consist of separate accounts available through a group annuity contract with the Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan and, therefore these transactions qualify as party-in-interest transactions.

Form of payment

Participants are assumed to elect the normal form.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible male participants are assumed to be married and 75% of eligible female participants are assumed to be married. Male participants are assumed to be three years older than their spouses and female participants are assumed to be three years younger than their spouses.

Covered pay

Assumed plan compensation for the year beginning on the valuation date was determined as the base rate of pay on the valuation date, with ½ year's assumed pay increases.

Administrative expenses

$155,000, based on the prior year's actual expenses, rounded to nearest $5,000.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month

Funding target

Present value of accrued benefits.

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.50% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2012 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Rural/Metro Corporation regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with Rural/Metro Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to $5,000) in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

Change in assumptions and methods since prior valuation

Other than the prescribed changes in the discount rate and mortality, the following changes in assumptions and methods were made as part of this valuation

- The assumed plan-related expenses added to the target normal cost were changed from $190,000 for 2012 to $155,000 for 2013. The method for determining this assumption remains the prior year's administrative expenses rounded to nearest $5,000.

Schedule SB, Part V

Summary of Plan Provisions

Effective date and most recent amendment

The plan was originally effective July 1, 2004. The plan was amended and restated effective January 1, 2012 with the latest addendum signed March 20, 2012.

Plan year

The twelve-month period ending December 31.

Coverage and participation

Each employee who (1) is under a collective bargaining agreement or (2) is a non-highly compensated employee who is employed as a district manager whose employment is regularly performed in one of the following Arizona Counties: Maricopa, Pinal, Pima and/or Graham, will become a participant in the plan on the January 1 or July 1 following the completion of a year of service.

Benefit service

Each month a participant works 120 hours or more they are credited with one month of Benefit Service. For purposes of the benefit formula that became effective July 1, 2008, service from July 1, 2004 to July 1, 2006 is earned at half the regular rate.

Vesting service

A year of service for vesting is a plan year during which an employee is credited with at least 1,000 hours of service.

Final average monthly compensation/salary

The monthly average of a participant's compensation averaged over the final 36 calendar months of the participant's employment in a covered status. Only months with 120 hours or more are reflected.

SCHEDULE SB ATTACHMENTS

Normal retirement benefit

Normal Retirement Date: The first day of the month next following the date a participant attains age 62 with 15 years of vesting service or attains age 65.

Benefit Formula: Monthly benefit prior to age 65 will be the difference of 2.5% of the participant's Final 3-year Average Compensation and 5.0% of the participant's anticipated benefit payable from Social Security, multiplied by the sum of Years of Benefit Service since July 1, 2004 and Purchased Benefit Service, up to a combined maximum of 20 years.

Qualified Social Security Supplement (QSUPP): A temporary supplement equal to the anticipated benefit payable from Social Security multiplied by a fraction equal to the sum of Years of Benefit Service since July 1, 2004 and Purchased Benefit Service, up to a combined maximum of 20 years divided by 20 years will be payable from retirement to age 65.

Monthly benefit at age 65 will be the difference of 2.5% of the participant's Final 3-year Average Compensation and 5.0% of the participant's anticipated benefit payable from Social Security, multiplied by the sum of Years of Benefit Service since July 1, 2004 and Purchased Benefit Service, up to a combined maximum of 20 years.

The Accrued Benefit determined using the benefit formula in effect prior to July 1, 2008 and calculated as of July 1, 2008 will be preserved as a minimum benefit until the benefit under the new formula, as described above, exceeds that amount.

For purposes of determining the monthly benefit prior to age 65, the QSUPP and the monthly benefit at age 65, Years of Benefit Service earned from July 1, 2004 through June 30, 2006 will be at half the rate otherwise applicable.

Normal Form of Benefit: Participant's lifetime only.

Accrued benefits

Normal Retirement Benefit based on final average compensation and years of benefit service at date of determination.

Early retirement benefit

Eligibility: Age 55 with at least 5 years of vesting service.

Benefit: Normal Retirement Benefit reduced 5% per year early.

Special early retirement benefit

Eligibility: The first day of any month coinciding with or following the date a participant attains 20 years of vesting service, but prior to the participant's Normal Retirement Date.

Benefit: Same as Normal Retirement Benefit with no reduction.

Disability benefit

Eligibility: Must be vested participant who has met Social Security Disability requirements.

Benefit Before Normal Retirement: Actuarial equivalent benefit of the accrued benefit.

Vested benefits upon termination of service

Vesting: A participant is 100% immediately vested in the participant's voluntary employee contributions and 100% vested in his accrued benefit after earning 5 years of vesting service.

Termination Benefit: An annual pension is payable to the employee commencing at Normal Retirement Date equal to 100% of the accrued pension benefit.

Death benefits for participants in active service

Eligibility: Must be vested participant.

Benefit: For married participants, a Joint and 50% Survivor benefit is payable to the spouse. In the case of a single participant, the designated beneficiary will receive a benefit as if the participant had elected a 5 Year Certain and Life pension.

Optional forms of retirement income in lieu of normal form

Various optional forms are available: Joint and 50%, 75%, or 100% Survivor, 10 Year Certain and Life, and Social Security Bridge which only applies to the Flat Dollar Benefit Portion as defined under the benefit formula in effect prior to July 1, 2008.
