1. Description of the Plan

The following description of the Retirement Plan of Cooper Aerobics Enterprises, Inc. (the "Plan") provides only general information. Participants should refer to the plan agreement, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Cooper Aerobics Enterprises, Inc. (the "Company") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company who have completed one month of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was created on January 1, 1995. The Plan was amended and restated effective July 31, 2011.

Plan Administration

The Plan is administered by the Profit Sharing Plan Committee which is appointed by the Board of Directors of the Company. Standard Insurance Company (the "Custodian") is responsible for the custody and management of the Plan's assets.

Eligibility

Company employees become eligible to participate in the Plan upon reaching the age of 21 and one continuous month of service. The Plan entry date is the first day of the month coinciding with or next following the date the eligibility requirement has been satisfied.

Contributions

Eligible employees may contribute a percentage of their compensation as defined by the Plan, subject to certain limitations under the IRC. The Company also provides discretionary matching, profit sharing and qualified non-elective contributions. Beginning April 1, 2013, the Company reinstated a partial match contribution ranging from 5% to 15 % (depending on the employee's years of completed service). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions, employer matching contributions, and employer discretionary contributions and plan earnings thereon (net of administrative expenses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested immediately in their contributions and the earnings thereon. Vesting in employer matching, profit sharing and qualified non-elective contributions and the earnings thereon is based on years of continuous service. The years of credited service required for a participant to become 100% vested is five years.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately $0 and $12,219, respectively. Forfeited amounts are used to pay plan expenses and to offset future employer contributions. During 2013, employee contributions were reduced by approximately $11,257 from forfeited non-vested accounts and administrative expenses of approximately $2,606 were paid from forfeited non-vested accounts.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, or termination of employment, as defined in the plan agreement. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, or Ad-Hoc payments.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 3.25%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2013, the interest rate on outstanding loan balances was 3.25% with maturities ranging from December 2014 to July 2017. As of December 31, 2012, the interest rate on outstanding loan balances was 3.25% with maturities ranging from March 2013 to July 2017.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) topic 820 *Fair Value Measurements*. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administration determines the Plan's valuation policies utilizing information provided by the investment advisor, Custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a settlement-date basis, which approximates investments recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

The Plan is funded under a group annuity contract. Plan participants invest their funds into any number of registered investment companies offered by the custodian through a pooled separate account arrangement. The underlying shares of registered investment companies are valued at the accumulated value of shares held by the Plan at year end. Participants can also invest their funds in a stable value fund offered by the custodian through a guaranteed investment contract. The value of the guaranteed investment contract is determined by the custodian using pricing models designed to maximize the use of unobservable inputs.

As described in FASB ASC topic 962 *Plan Accounting – Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan provides an investment option to invest in a benefit-responsive guaranteed interest account with Standard Insurance Company ("Standard"). Standard maintains the contributions in a general account. The account is included in the financial statements at contract value as reported to the Plan as plan management has determined that contract value approximates fair value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the plan document. There was no allowance at December 31, 2013 or 2012 as the loans are fully collateralized by the participants' accounts.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan, nor does the Company charge the Plan for any administrative costs. In addition, expenses for the Plan's consulting and custodial services

are paid directly by the Company. Fees related to the administration of benefits paid for participants and participant loan fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

The plan administrator has evaluated the recently issued accounting pronouncements through the date these financial statements and supplemental schedule were available to be issued and has determined the application of these pronouncements will have no material impact on the plan's financial position and changes in net assets available for benefits.

3. Investments

The following represents investments with a value of 5% or more of the Plan's net assets available for benefits:

Guaranteed investment contract		**16,319**
Total	**$**	**1,216,272**

4. Fair Value Measurements

ASC topic 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC topic 820 are as follows:

Basic Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered Investment Companies

Registered investment companies (RICs) are valued daily based on exchange listed prices, for exchange traded registered investment companies, or net asset value (NAV) for open-ended continuously offered closed-end registered investment companies. These RICs are required to publish their daily NAV and to transact at that price. The RICs held by the Plan are deemed to be actively traded.

Guaranteed Investment Contract

The guaranteed investment contract is valued at the amount plan participants would receive if they were to withdraw or transfer funds from the Plan prior to their maturity.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2013:

	Investment Assets at Fair Value			
	Level 1	Level 2	Level 3	Total
Registered investment companies:

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2012:

	Investment Assets at Fair Value			
	Level 1	Level 2	Level 3	Total
Registered investment companies:

Total assets at fair value	$ -	$ 4,165,220	$ 970,435	$ 5,135,655

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

		Level 3 Assets Year Ended December 31, 2013
		Guaranteed Investment Contract
Balance, beginning of year	$	970,435
Realized and unrealized gains		16,319
Purchases		70,059
Sales		(52,500)
Balance, end of year	$	1,004,313
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$	16,319

Gains (realized and unrealized) included in changes in net assets for the period above are reported in interest in the statement of changes in net assets available for benefits. Unrealized gains from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed Investment Contract	**$ 1,004,313**	**Guaranteed interest rate**	**Crediting Rate**	**1.71%**

5. Guaranteed Investment Contract

The Plan has entered into a benefit-responsive guaranteed investment contract with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value which plan management has determined approximates fair value.

Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0% percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the Custodian to terminate the agreement prior to the scheduled maturity date.

Plan management has determined that the average yield earned by the Plan under the terms of the contract and the actual interest rate credited to participants are the same. For the years ended December 31, 2013 and 2012, the crediting rate under the contract was 1.71% and 1.79%, respectively.

6. Information Prepared and Certified by Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and notes receivable from participants as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012;

- Net investment income, as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013 as follows:

Year ended December 31,	**2013**
Interest	**$ 16,319**
Net appreciation in fair value of investments	**$ 1,199,952**

- Investment values disclosed in Note 4;
- Investment information disclosed in Note 3; and
- Investments, as reflected in the Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013.

The Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. Related Party and Party-In-Interest Transactions

The Plan invests in a guaranteed investment contract issued by Standard Insurance Company. Standard Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of investments.

8. Tax Status

The Internal Revenue Service has issued a determination letter dated March 31, 2008, stating that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, employees become 100% vested in their accounts.

10. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Reconciliation of Financial Statements to Form 5500
