Motorists Mutual Incentive Savings Plan

Notes to the Financial Statements

Note 1. Description of the Plan

The following description of the Motorists Mutual Incentive Savings Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan, a defined contribution plan, was established for the purpose of providing a savings plan for the benefit of substantially all employees of Motorists Mutual Insurance Company (the Company) and its subsidiaries. Employees are immediately eligible to participate after their employment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each eligible employee (participant), as defined in the Plan, may elect to contribute, through payroll deduction, from 1% to 50% of their annual compensation. Eligible employees are automatically enrolled in the Plan with an elective pre-tax deferral rate of three percent of compensation, increasing each year by one percent until such elective deferral rate is six percent of compensation, unless the participant affirmatively elects out of the automatic deferral feature or elects a different deferral rate. The contributions of highly compensated employees, as defined by the Internal Revenue Service may be further limited. Participants may increase or decrease their contribution amount at any time. Participants may also make Roth deferral contributions. Participants may be eligible to contribute rollover amounts received as a lump-sum distribution from a qualified retirement plan of another employer if transferred to this Plan directly, or by the participant within 60 days of receipt of the distribution from the previous plan. Such amount shall have no effect on the limits for maximum benefits and contributions as defined by the Plan. Company matching contributions are made in an amount equal to 100% of the first 1% of employee contributions and 40% of the next 5% of employee contributions. Additional discretionary amounts may be contributed by the Company at the option of the Company's board of directors; however, no discretionary amounts were contributed in 2013 or 2012. All contributions are invested in the investment options at the direction of the participant. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and is charged with an allocation of administration expenses, if applicable. The allocation of the Company's contribution follows the participant's directed investment options. Plan earnings are allocated based upon the participant's shares in each investment account.

Vesting and forfeitures: Participants are immediately vested in their contributions, plus actual earnings thereon. Generally, participants are fully vested in Company matching contributions and additional discretionary amounts contributed by the plan, plus actual earnings thereon after two years of service. Participants who have attained normal retirement age or have terminated as a result of death or disability are immediately fully vested in Company matching contributions and additional discretionary amounts contributed by the Company, plus actual earnings thereon. The balance of forfeited nonvested accounts was not material at December 31, 2013 and 2012.

Investment options: Upon enrollment in the Plan, participants may elect to allocate contributions between the fund options available under the Plan in increments of 1%. Earnings on all funds, including appreciation and depreciation in the fair value of investments, are determined daily by using the quoted market value of shares in each investment account. Participants may transfer account contributions on a daily basis, and may transfer account balances in 1% increments on a daily basis. Through the self-directed brokerage account option, participants may invest in most listed stocks, options (if approved for options trading), corporate bonds, zero-coupon bonds, U.S. Treasury securities, mortgage securities, U.S. Government agency bonds, certificates of deposit, unit investment trusts, foreign securities, and other mutual funds (subject to the limitations of the Plan).

Notes to the Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions and Company matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Additional discretionary contributions approved by the Company's board of directors are recognized in the year of service.

Payments of benefits: Distributions are recognized when paid.

Administrative expenses: Administrative expenses are paid by the Company, except for participant fees related to distribution and loan withdrawals, which are paid by the Plan.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

Recently issued accounting pronouncement: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013 for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of amendments not immediately effective of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 9, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by State Street

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012 and for the years then ended, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 3. Information Certified and Provided by State Street (Continued)

State Street also certified to the completeness and accuracy of net appreciation in the fair value of assets, and of interest and dividend income for the years ended December 31, which included the following:

	2013	2012
Net appreciation in fair value of investments		
Registered investment companies	\$ 19,000,691	\$ 9,545,356
Common/collective trust	150,714	209,656
Self-Directed brokerage accounts	600,541	130,813
Total	\$ 19,751,946	\$ 9,885,825
Interest and dividends		
Interest and dividends on investments	\$ 1,521,402	\$ 1,550,550
Interest on notes receivable from participants	94,364	100,004
Total	\$ 1,615,766	\$ 1,650,554

Note 4. Fair Value Measurements

FASB guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Shares of registered investment companies and unit investment trust: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common/collective trust ^(a)	\$ 15,616,640	\$ -	Daily	None

^(a) This common/collective trust is a stable value trust whose objective is to protect capital while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the trust invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. The fair value of the investments in this fund has been estimated using the NAV per share of the underlying investments.
