NOTE 1 - DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of State Line Auto Auction, Inc. and Strong Industries, a participating employer, ("The Companies") who have one year of continuous service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participating employees may defer up to 25% of their eligible compensation but are subject to certain maximum limitations as set by the Internal Revenue Service. The Companies make matching contributions of 20% on the first 5% of an employee's contributions. In addition, annual non-elective employer contributions are made to the Plan at the discretion of the employer. There was no such contribution for 2013 or 2012.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Companies' contributions, loan and loan repayments, and allocation of the Plan earnings (losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan is a participant-directed Plan.

Vesting - Participants are immediately vested in their contributions plus earnings, net of losses, thereon. Vesting in the remainder of their account is based on years of service. A participant is 100% vested after six years of credited service.

Payment of Benefits - On termination of service, a participant may elect to receive either a lump-sum distribution equal to the participant's vested interest in his or her account or installment payments. Alternatively, a participant may elect to have the account directly rolled over to an IRA or another employer's tax qualified plan.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 7.0%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through regular payroll deductions.

Forfeited Accounts - Forfeited accounts are used to reduce future employer contributions. In 2013 and 2012, employer contributions were reduced by $155 and $238, respectively, from forfeited non-vested accounts.

Operating Expenses - Expenses of maintaining the Plan are paid by the Companies.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review - Subsequent events were evaluated through October 10, 2014, which is the date the financial statements were available to be issued.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payments of Benefits - Benefits are recorded when paid.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in the administrative expenses when incurred. As of December 31, 2013 and 2012, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair market value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Uncertainty In Income Taxes - The Plan has adopted the provisions of the FASB ASC No. 740, "*Income Taxes*", as amended by FASB Accounting Standards Update (ASU) No. 2009-06, "***Implementation Guidance on Accounting For Uncertainty in Income Taxes and Disclosure Amendments for Nonpublic Entities***". Management has determined there are no liabilities for unrecognized tax benefits as of December 31, 2013 and 2012.

NOTE 3 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by its trustee, State Street Bank and Trust Company.

	2013	2012
Investments, at Fair Value	$ 3,404,954	$ 2,681,803
Notes Receivable from Participants	99,973	120,975
Interest and Dividend Income	119,809	46,523
Net Appreciation in Fair Value of Investments	481,220	209,325

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

NOTE 5 - RELATED PARTY TRANSACTIONS

The Plan invests in shares of money funds managed by State Street Global Advisors, an investment management subsidiary of State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee of the Plan and, therefore, these transactions qualify as parties-in-interest transactions. Administrative fees paid by the Plan amounted to $1,650 for 2013. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 6 - TAX STATUS

The Plan adopted a prototype plan sponsored by Automatic Data Processing (ADP). The Internal Revenue Service has approved the Plan under their volume submitter program by letter dated March 31, 2008. Although the Plan had been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - INVESTMENTS

The following presents investments at December 31, 2013 and 2012 that represent 5% or more of the Plan's net assets at the beginning of the Plan year:

	$ 3,002,842	$ 2,455,561

During the year ended December 31, 2013 the Plan's investments (including investments bought, sold and held during the year) appreciated in value by $481,220.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements

The fair value of mutual funds and money market funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of mutual funds are based on the closing prices reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements

The fair value of the Government Money Market Fund is measured by using Level 2 inputs, including using the net asset value (NAV) provided by State Street Global Advisors. The NAV is based upon the value of the underlying assets owned by the funds, less its liabilities. The NAV is a quoted price in a market that is not active.
