NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Arrow Fabricated Tubing Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan adopted on January 7, 1989 for the benefit of all eligible employees of Arrow Fabricated Tubing, Ltd. (the Employer). Effective January 1, 2009, the Plan was amended to bring the Plan into compliance with the Economic Growth and Tax Relief Reconciliation Act of 2001.

To be eligible to enroll in the Plan an employee must be 21 and have completed 1,000 hours of service during the first 12 months of employment.

Contributions

Participating employees and the Employer make contributions to the Plan. A participant may make elective contributions, via salary deferrals, between 1% and 15% of their pretax annual compensation subject to statutory limitations. Bonuses and company car expenses are not to be included in compensation for purposes of calculating employee deferrals.

For each plan year the Employer may contribute, on behalf of each eligible participant, a matching contribution of 50% of the employee's elective deferral up to a maximum of 4% of employee's eligible earnings. Employees must make elective deferrals in order to receive matching contributions. Matching contributions are limited to $1,000 for each plan year.

In addition, each plan year the Employer may make a profit sharing contribution in an amount determined by the Employer. The non-elective contribution will be shared equally among all employees. The profit sharing contribution for 2013 which will be received in 2014 is $62,606. The profit sharing contribution for 2012 which was received in 2013 was $62,134.

The Plan allows employees who have received distributions from other qualified retirement plans to directly transfer or rollover the previous account balances into segregated "rollover accounts" of the Plan. Rollover contributions may not contain any voluntary non-deductible "after-tax" contributions.

Participant Accounts

Each participant's account is credited with the respective participant's contribution, an allocation of (a) the Employer's contribution, and (b) Plan earnings. Contributions to the Plan are allocated to active investment accounts in percentages elected by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF PLAN – CONTINUED

Vesting

Participants are 100% vested at all times in their elective contribution accounts, qualified non-elective contribution accounts, and segregated rollover accounts plus actual earnings thereon. Vesting in the Employer's matching and profit sharing portion of their accounts plus earnings thereon is based on years of vesting service.

Vesting in Employer matching and profit sharing contributions occurs as follows:

Years of Service	Vested Percentage
Less than 3 years	0%
3 years or more	100%

A participant becomes 100% vested in the event of death, attainment of normal retirement age, termination of the Plan, or if the participant becomes disabled, as defined in the Plan Document.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions and any related earnings into a number of distinct active investment options. Employer matching contributions are invested in accordance with the investment choices selected by each respective participant. Participants may elect to invest in the following options:

NOTE 1. DESCRIPTION OF PLAN – CONTINUED

Forfeitures

Forfeitures derive from the non-vested amounts in a participant's account following a break in service. Forfeitures are used to offset the profit sharing contribution. Forfeitures in the amount of $303 were used to reduce Employer contributions for the Plan year ended December 31, 2013. There were no unallocated forfeitures as of December 31, 2013 and 2012.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of Plan termination, participants will become 100% vested in their accounts.

Benefit Payments

Participants' accounts are payable when participant leaves employment for (1) termination, (2) death, or (3) disability. Such account balances may be distributed in a lump-sum payment or rolled over into another qualified plan.

Participant is entitled to receive the vested amount of participant's account as defined in the Plan Document. Upon termination of employment, participants with vested accounts of more than $1,000 and less than $5,000 and have not elected a method of distribution will have their accounts automatically rolled over into an IRA account established by an IRA provider selected by the Company. Withdrawals from the Plan by active participants are permitted for specific instances such as financial hardship, loans or participant's attaining the age of 59 ½ .

Notes Receivable from Participants

Notes receivable from participants are participant loans stated at their unpaid principal balances, plus accrued interest. Participants may borrow from their vested fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan maturity dates range from 1 to 5 years and loans become due upon termination of service of the participant. Loans used for the purposes of purchasing a primary residence may have a maturity of 30 years. The loans are collateralized by the balance in the participant's accounts and bear interest at rates determined by prevailing market conditions. Interest rates on outstanding loans at December 31, 2013 was 5.25%.

401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN – CONTINUED

Basis of Accounting

The Plan's financial statements are prepared on the modified cash basis of accounting. Employee and employer contributions are recorded in the period received by the Plan. Benefit payments are recorded in the period from which they are distributed. Income and expense are recorded in the period received and paid, respectively.

Use of Estimates

The preparation of the financial statements on a modified cash basis of accounting requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment Valuation

The Plan's investments in mutual funds are stated at fair value as determined by quoted market prices. Units held in common collective trust are valued at the unit value as reported by the investment manager. Purchases and sales of investments are recorded on a trade date basis. Interest is allocated to participant accounts on a pro-rata basis depending on the participants' account balance. Dividends are allocated based on the number of shares in a participant's account. The Plan presents in the Statement of Changes in Net Assets Available for Benefits – Modified Cash Basis the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on investments.

Fully Benefit-Responsive Investment Contracts

As described in Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820, Fair Value Measurements, (ASC 820), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by ASC 820, the Statements of Net Assets Available for Benefits – Modified Cash Basis represents the fair value of the investment contracts as well as the adjustment to fully benefit-responsive contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits – Modified Cash Basis is prepared on a contract value basis.

Administration

Certain administrative expenses of the Plan are paid by the Employer.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Market and Credit Risks

The Plan provides for various investment options in mutual funds and cash equivalents. These types of investments are exposed to various risks, such as interest rate, market and credit risks.

Due to the level of risk associated with certain investment securities, including those held by the Plan, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Plan has evaluated its subsequent events through October 13, 2014, the date the financial statements were available to be issued, and determined there are no material recognized or unrecognized subsequent events.

NOTE 3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the Plan's financial information and data certified by the Trustee as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

	2013	2012
Investments	$ 4,086,531	$ 3,501,500
Investment income (loss)	679,577	

NOTE 4. TAX STATUS

The Plan is a qualified profit sharing plan under Section 401(a) of the Internal Revenue Code (IRC). The related trust is exempt from federal income taxes under Section 501(a) of the IRC. The Plan received its latest determination letter from the Internal Revenue Service on March 30, 2001, which stated that the Plan was designed in compliance with the applicable requirements of the IRC. As of March 31, 2008, the Plan became compliant with IRC requirements under a prototype plan arrangement with Automatic Data Processing (ADP). ADP has received a letter from the Internal Revenue Service stating that its master prototype plan is designed in accordance with applicable regulations of the Internal Revenue Code. The Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 4. TAX STATUS – CONTINUED

In accordance with current guidance related to accounting for uncertainties in income taxes, the Plan is required to recognize in its financial statements the financial effects of a tax position, if that position is more likely than not of being sustained upon examination, including resolution of any appeals or litigation processes based upon the technical merits of the tax position. The new requirements also provide guidance on measurement, classification, interest and penalties and disclosure.

Tax positions taken related to the Plan's tax exempt status, unrelated business activities taxable income and deductibility of expenses, and other miscellaneous tax positions have been reviewed, and management is of the opinion that material positions taken would more likely than not be sustained by examination. Accordingly, the Plan has not recorded an income tax liability for uncertain tax benefits. The Plan's tax years 2010 and after remain subject to examination.

NOTE 5. INVESTMENTS

Investments that represent 5% or more of the net assets available for benefits at December 31, 2013 and 2012 are as follows:

	2013	2012
Invesco Stable Asset Fund - Class ADP85	$ 759,699	$ 713,016
Davis NY Venture Fund	658,024	512,776
T.Rowe Price Grth Stk	732,610	661,967
Janus Balanced Fund	1,011,984	825,816

NOTE 6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has an investment contract with Invesco National Trust Company. Invesco National Trust Company maintains the contributions in a general account. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by Invesco National Trust Company and is adjusted to contract value based on its fully benefit-responsive features. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 6. INVESTMENT CONTRACT WITH INSURANCE COMPANY – CONTINUED

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield was 1.2% for 2013. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%, with an average crediting rate of 1.3% at December 31, 2013.

NOTE 7. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, party rendering services to the Plan, the employer, and certain others. As such, transactions conducted by the Trustee qualify as party-in-interest transactions.

NOTE 8. FAIR VALUE MEASUREMENTS

In accordance with current guidance on fair value measurements and disclosures, the Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities which are required to be recorded at fair value, the Plan considers the principal or most advantageous market in which the Plan would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions and credit risk.

The Plan applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 inputs: Quoted prices in active markets for identical assets or liabilities.

Level 2 inputs: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 inputs: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

NOTE 8. FAIR VALUE MEASUREMENTS – CONTINUED

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds

These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Collective Investment Trust (Stable Value Fund)

These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Below are the Plan's financial instruments carried at fair value on a recurring basis by the fair value hierarchy levels described above as of December 31, 2013:
