Profit Sharing 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE A – DESCRIPTION OF PLAN

The following description of Dr. Leonard's Healthcare Corp. (the "Company") Profit Sharing 401(k) Plan (the "Plan") provides only general information. A more complete description of the Plan and its provisions can be found in the Plan document.

General

The Plan is a defined contribution plan covering all eligible employees of the Company who have completed at least one year of service and who are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Participants may elect to contribute up to 100% of their annual gross compensation, subject to limitations as provided in the Internal Revenue Code (the "IRC"). The Company may contribute, at its discretion, a matching contribution. Additional profit sharing amounts may be contributed at the discretion of the Company. Such Company matching and profit sharing contributions are invested proportionately in the same investments as the employee contributions. There were no discretionary matching or profit sharing contributions in 2013.

Participant Accounts

Each participant's account is credited with contributions and Plan earnings or losses net of expenses. Discretionary matching contributions made by the Company are allocated as approved by the Company. The discretionary profit sharing contributions are based on the ratio of each participant's compensation to the total compensation of all participants for any given year. Participants direct the investment of their accounts into the various investment options offered by the Plan.

Vesting

Participants are immediately vested in their contributions and earnings thereon. Vesting in the Company's discretionary matching as well as profit sharing contribution portion of participant accounts plus earnings thereon is based on years of continuous service. A participant vests ratably over the first five years of credited service and is 100 % vested thereafter.

Notes Receivable from Participants

Participants may borrow from the Plan. The minimum loan amount is $1,000. The total amount of a participant's borrowing cannot exceed the lesser of $50,000 or one-half of the total vested portion of the participant's account at the time of the loan. Loans are for a period not exceeding five years. Loans bear interest at the fixed rate of prime on the date of the loan request plus one percent (1%). The interest rate on participant loans outstanding at December 31, 2013 was 4.25%. Interest on participant loans outstanding at December 31, 2012.

NOTE A – DESCRIPTION OF PLAN – CONTINUED

Benefits Paid to Participants

Upon termination of service due to death, disability or normal retirement, a participant is considered fully vested and receives a lump-sum amount equal to the total value of his or her account as of the most recent valuation date. For termination of service for other reasons, a participant receives the value of the vested interest in his or her account as a lump-sum distribution as of the most recent valuation date.

Forfeited Accounts

Amounts that are forfeited during a Plan year were used to reduce future Company contributions to the Plan or to pay Plan expenses, as directed by the Plan administrator. At December 31, 2013 and 2012, unallocated forfeited balances totaled $31,324 and $29,462, respectively.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared as the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee, which is made up of certain members of the Company's management, determines the Plan's valuation policies utilizing information provided by the investment adviser, trustee and custodian. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B – SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Certain administrative expenses relating to the maintenance of Plan including legal and accounting fees have been paid by the Company and are excluded from these financial statements. Fees related to the processing of notes receivable from participants and benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE C – INVESTMENTS

The Plan's investments that represent five percent or more of the Plan's net assets at either December 31, 2013 or 2012 are as follows:

	2013	2012
Mass Mutual Guaranteed Interest Account	$ 2,578,853	$ 2,788,807
MM Select Diversified Value Fund Class A	1,026,977	908,344
Select Mid Cap Growth Equity II (T. Rowe Price)	1,908,244	1,530,491
American Funds Balanced Fund	1,949,265	1,464,461
MM Select Strategic Bond Fund Class A	1,050,280	1,240,780

NOTE D – FAIR VALUE MEASUREMENTS

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 – Inputs to the valuation methodology that are unobservable and supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Fair value is measured using the net asset value ("NAV") per unit based on the fair value of the respective funds underlying investments.

Separate account guaranteed investment contract ("SAGIC"): Valued at fair value in the statement of net assets available for benefits and then adjusted to contract value, as described in Note B. The fair value of the guaranteed investment contracts is based on the fair value of the underlying investments.

The fair value of the SAGIC is based on the NAV of the underlying separate account in which the SAGIC is invested. The SAGIC utilizes the underlying separate account as an investment vehicle. The separate account supporting the SAGIC is the Premier Diversified Bond Fund. The Plan holds units of participation in the underlying separate account which are valued at NAV. The underlying separate account invests primarily in bonds seeking to achieve high total returns consistent with prudent investment risk and the preservation of capital by investing in a diversified portfolio of investment grade fixed income securities. There are no redemption restrictions or unfunded commitments associated with any of the underlying funds. The balance of the funds may be redeemed immediately.

NOTE D – FAIR VALUE MEASUREMENTS – CONTINUED

The following table presents changes in the Plan's Level 3 assets at fair value for the year ended December 31, 2013:

	SAGIC
Balance at December 31, 2012	$ 2,788,807
Net unrealized gain	(120,697)
Purchases	238,347
Sales	(327,604)
Balance at December 31, 2013	$ 2,578,853

The following table presents additional information for investments with fair values estimated using NAV per share at either December 31, 2013 or 2012:

	Fair Value Estimated Using Net Asset Value Per Share					
	Fair Value		Unfunded	Redemption	Redemption	Redemption Notice
Investments	2013	2012	Commitment	Frequency	Restrictions	Period
Blended funds (a)	$ 4,635,948	$ 4,453,545	$ -	Immediate	None	None
Allocated funds (b)	1,949,265	1,464,461	-	Immediate	None	None
Growth funds (c)	2,289,763	1,884,233	-	Immediate	None	None
Stable value funds (d)	1,026,977	908,344	-	Immediate	None	None
Bond funds (e)	1,050,280	1,240,780	-	Immediate	None	None

(a) Blended funds have portfolios that are fairly representative of the overall stock market in size, growth rates, and price. They invest across the spectrum of U.S. industries and owing to their broad exposure, the funds' returns are often similar to those of the S&P 500 Index.

(b) Allocated funds seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash.

(c) Growth funds invest in companies that are projected to grow faster than other stocks. Most of these funds focus on public companies in rapidly expanding industries.

(d) Stable value funds focus on public companies that are less expensive or growing more slowly than other large-cap stocks. These funds often feature investments in energy, financial, or manufacturing sectors.

(e) Bond funds rotate among a variety of sectors in the bond market including corporate bonds and U.S. Treasury securities.

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in a SAGIC with Mass Mutual. The SAGIC is part of Mass Mutual's general account as described in the group annuity contract held by the Plan and the term "Fixed Interest Fund" is the designation used in the group annuity contract to identify the fund account. The account provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. The market value is based on the value of the underlying separate account(s) in which the SAGIC is invested and the amount of daily units of participation the Plan holds in the underlying separate account(s). The separate account(s) invest in actively traded mutual funds and transact at their daily NAV. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. The guaranteed investment contract issuer is contractually obligated to repay the principal and a special interest rate that is guaranteed in the Plan.

Mass Mutual maintains the contributions in a general account. Participants may ordinarily direct the withdrawal or transfer of all of or a portion of their investment at contract value, however, there is a possible market value adjustment for transfers to other investment options from the guaranteed accounts. Mass Mutual considers the SAGIC to be fully benefit-responsive notwithstanding the liquidation value events under the contract that limit the ability of the plan to transact at contract value. As required by the accounting standards, the statements of net assets available for benefits presents fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The average yield earned by the Plan was 2.76% and 3.38% for the years ended December 31, 2013 and 2012, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include, but are not limited to, the following: (1) amendments to the Plan documents, (2) bankruptcy of the Plan Administrator or other Plan Administrator events which cause a significant withdrawal from the Plan or (3) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan believes that the occurrence of any event limiting the Plan's ability to transact at contract value with members is not probable.

NOTE F – INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, information with respect to investments and notes receivable from participants in the statements of net assets available for benefits, investment income and interest income on notes receivable from participants in the statement of changes in net assets available for benefits, investment information in Note C, and the information included in Schedule H, Line 4i – schedule of assets (held at end of year), have been certified by State Street Bank and Trust Company as being complete and accurate.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2013 and 2012

NOTE G – PLAN TERMINATION

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all employer contributions.

NOTE H –TAX STATUS

The Plan has adopted a volume submitter plan document sponsored by Mass Mutual that is intended to meet the requirements of the IRC, Section 401(a). Mass Mutual received an opinion from the IRS, dated May 11, 2009, which states the volume submitter document satisfies the provisions of Section 401 of the IRC. Plan management believes the Plan is being operated in compliance, in all material respects, with the applicable requirement of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt under IRC Section 501(a).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, credit and liquidity risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J – RELATED PARTY TRANSACTIONS

Certain plan investments are shares of pooled separate accounts and guaranteed investment contracts managed by MassMutual Financial Services. MassMutual Financial Services is the funding agent as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE K – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

NOTE L – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 15, 2014, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
