Note 1 - Description of plan

The following description of Perfumania Holdings, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan covering substantially all employees of Perfumania Holdings, Inc. (the "Employer") who have completed one year of service and are age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

The participants and the Employer can make contributions to the Plan. Participants may elect to defer the receipt of a portion of their compensation on a pre-tax basis, subject to certain limitations, from a minimum of 1% of their compensation up to a maximum of 100% or the maximum allowed by the Internal Revenue Code (the “Code”) ($17,500 for 2013), and direct the Employer to contribute this deferral to the Plan on their behalf (salary savings agreement contribution). In addition, participants age 50 or older could make additional catch-up contributions up to $5,500.

The Employer may contribute and allocate to each eligible participant’s account, an amount equal to a percentage of the participant’s salary savings agreement contribution (matching contribution). The Employer has not elected to make any matching contributions during the year ended December 31, 2013.

A participant may make a rollover contribution to the Plan of any portion or all of the property received from another qualified plan.

Participant accounts

Each participant has a separate account to receive each type of contribution. These accounts include, if applicable, a matching contribution account, a rollover account and a salary savings agreement account. Each participant’s account is credited with the participant’s contribution, an allocation of the Employer’s contribution, if any, and the Plan’s earnings and charged with an allocation of administrative expenses not paid by the Employer. Allocations of earnings are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment options

The Plan offers thirty-two investment options for participants, as of December 31, 2013. Employer contributions are discretionary and may be changed from year to year. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer contributions is based on years of service in accordance with the following schedule:

Years of Service	Vested Percentage
1	15%
2	25%
3	50%
4	100%

Notwithstanding the above, participants shall become fully vested upon their normal retirement date, upon date of death or upon the date of total or permanent disability.

Payment of benefits
Participants are entitled to receive benefits in a single lump sum upon the attainment of normal retirement age of 65 or the termination of service with the Employer. The Plan allows for the full value of the participant's account balance to be payable at age 70½ even if the participant continues to work, or the participant may defer payment until the end of the year in which he or she reaches the age of 70½.

The Plan permits early retirement at age 59½ provided that the participant is 100% vested. The balance in a participant's salary savings agreement account may not be distributed prior to the earliest of the participant's attainment of age 59½, separation from service with the Employer or financial hardship, as defined.

Notes receivables from participants
Participants may borrow from the balance of their vested accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested interest in the Plan, whichever is less. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 1% above the prime rate. Principal and interest are paid ratably through bi-weekly payroll deductions.

Forfeited accounts
The vested portion of a participant's account is not forfeited. The nonvested portion of a participant's account is forfeited upon separation of services. Such forfeitures reduce the Employer's contribution amount, if any. At December 31, 2013 and 2012, forfeited nonvested accounts totaled $6,871 and $6,315, respectively. There were no forfeitures used during 2013.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed investment contract. For the year ended December 31, 2012, the statements of net assets available for benefits present the fair value of the investment in the guaranteed investment contract as well as the adjustment of the investment in the guaranteed investment contract from fair value to contract value. For the year ended December 31, 2013, the Company determined that the contract value approximated fair value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents the net appreciation in the fair value of its investments bought and sold as well as held during the year in the statement of changes in net assets available for benefits, which consists of realized and unrealized gains or losses on those investments.

Notes receivables from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Excess contributions payable
Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (the "IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated events and transactions for potential recognition or disclosure through October 15, 2014, which is the date the financial statements were available to be issued.

Note 3 - Investments

The following table presents the fair value of investments at December 31, 2013 and 2012, which represent 5% or more of the Plan's net assets:

	2013	2012

Principal Large Cap Growth I R3 Fund	1,236,350	377,426

Principal LifeTime 2025 R3 Fund	*	319,532
Principal International Emerging Markets R3 Fund	*	266,226

*****Account balance does not represent 5% or more of the Plan's net assets for the corresponding year.

Note 4 - Investment contract with insurance company

In 2007, the Plan entered into a fully benefit-responsive investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rates are reset every June 1 and December 1 as determined by Principal, and were 2.10% for interest rate periods from December 1, 2012 through May 31, 2013, and 2.00% for interest rate periods from June 1, 2013 through December 31, 2013.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields for the years ended December 31, 2013 and 2012 are as follows:

	2013	2012
Based on actual earnings	1.41%	2.07%
Based on interest rate credited to participants	1.41%	2.07%

Note 5 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 4). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Financial assets carried at fair value as of December 31, 2013 and 2012 are classified in the tables below in one of the three categories described above:

Note 6 - Assets transferred in

On April 18, 2012, the Company acquired Parlux Fragrances, Inc. and approved the merger of the Parlux Fragrances, Inc. 401(k) Plan into the Plan effective January 1, 2013. All participants in the Parlux Fragrances, Inc. 401(k) Plan became 100% vested in that plan upon the merger. An aggregate of $4,142,670 was transferred into the Plan during the year ended December 31, 2013, and is included in “transfers in” on the statement of changes in net assets available for benefits.

Note 7 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as December 31, 2013 and 2012 and the supplemental schedule of assets (held at end of year) as of December 31, 2013 and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

Note 8 - Related party transactions

Certain Plan investments are shares of mutual funds and a guaranteed investment contract managed by affiliates of Principal Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment as they are paid through revenue sharing, rather than direct payments. As described in Note 2, the Plan made a direct payment to the third party administrator of $7,098 which was not covered by revenue sharing. The Plan allows for participants to take loans against their account balances, which are also considered exempt party-in-interest transactions. The Employer pays directly, any other fees related to the Plan's operations.

Note 9 - Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested, and the Employer shall direct the distribution of accounts to or for the exclusive benefit of participants or their beneficiaries.

Note 10 - Tax status

The prototype plan sponsor has obtained an opinion letter dated March 31, 2008, in which the IRS stated that the prototype plan document was in compliance with applicable requirements of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with applicable requirements of the Code and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 11 - Risks and uncertainties

The Plan provides various investment options. These investments are exposed to various risks, such as credit, interest rate and market. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the financial statements.

Note 12 - Nonexempt transactions

As reported on the supplemental schedule of delinquent participant contributions (Schedule H, Line 4a), certain Plan contributions were not remitted to the trust within the time frame specified by the Department of Labor's Regulation 29 (CFR 2510.3-102), thus constituting nonexempt transactions between the Plan and the Company for the year ended December 31, 2013.
