Independent Auditor's Report

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of LifeCare Alliance 403(b) Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in the notes to the financial statements, which was certified by The Variable Annuity Life Insurance Company and MG Trust Company, LLC, the custodians of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that The Variable Annuity Life Insurance Company held the Plan's investment assets and executed investment transactions from January 1, 2012 to December 31, 2013, and that MG Trust Company, LLC held the Plan's investment assets and executed investment transactions as of December 31, 2013 and for the period June 7, 2013 to December 31, 2013. The plan administrator has obtained certifications from the custodians as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, as well as the matter described in the *Other Matter* paragraph related to the excluded contracts, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

As described further in the notes to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements of 403(b) Plans*. If the identified contracts, as reported by RiverSource Life Insurance Company, the custodian, were included, net assets available for benefits would increase by approximately \$0 and \$10,000 as of December 31, 2013 and 2012, respectively. Further, investment income of approximately \$0 and \$1,000 and distributions of approximately \$10,000 and \$156,000 related to such accounts, as identified by the custodian, have also been excluded in the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012, respectively. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

LIFECARE ALLIANCE 403(b) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Plan Description

The following description of the LifeCare Alliance (the Organization) 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all permissible employees of the Organization, as defined in accordance with the universal availability standards. Employees are eligible to enroll on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Organization pays all administrative and professional fees related to the Plan.

Contributions

Each year, participants may contribute any percentage of compensation provided that their salary deferral contributions do not exceed federal limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Effective June 1, 2013, the Plan document was amended to provide for the Organization to contribute to the Plan. Pursuant to the amended Plan document, the Organization may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals. Additionally, the amended plan document also allows for the Organization to make a discretionary non-elective contribution allocated to each participant as a uniform percentage of compensation. The Organization made a matching contribution equal to 50% of the first 4% of eligible compensation that a participant contributed to the Plan during 2013. The Organization contributed non-elective contributions equal to 1% of each eligible participant's eligible compensation during 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (i) employer contributions and (ii) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Description (continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Organization's contributions, and related earnings thereon, is based on continuous years of service and is subject to the following vesting schedule:

Years of Service	Vesting
2	20%
3	40%
4	60%
5	80%
6	100%

Investment Options

A participant may direct contributions in any of the various investment funds that the Plan offers through the Variable Annuity Life Insurance Company (VALIC) or MG Trust Company, LLC (MG Trust). Participants may change their investment options at any time.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2013 and 2012, there were no forfeited non-vested accounts and no forfeitures were used during either 2013 or 2012. Any future accumulated forfeitures will be used pay plan expenses or reduce future employer matching contributions.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Excluded Contracts and Amounts

The plan administrator has elected to exclude certain contracts and accounts from Plan assets in accordance with the Department of Labor (DOL) Field Assistance Bulletin (FAB) 2009-02, *Annual Reporting Requirements of 403(b) Plans*, due to the fact that:

- The contract or account was issued to a current or former employee before January 1, 2009;
- The employer ceased to have any obligation to make contributions (including employee salary reduction contributions), and in fact stopped making contributions to the contract or account before January 1, 2009;
- All the rights under the contract or account are legally enforceable against the insurer or custodian by the individual owner of the contract or account without any involvement by the employer; and
- The individual owner of the contract is fully vested in the contract or account.

Summary of Significant Accounting Policies (continued)

Excluded Contracts and Amounts

If the identified contracts, held by RiverSource Life Insurance Company, the custodian, on behalf of three employees were included, net assets available for benefits would increase by approximately \$0 and \$10,000 as of December 31, 2013 and 2012, respectively. Furthermore, investment income of approximately \$0 and \$1,000 and distributions of approximately \$10,000 and \$156,000 related to such accounts, as identified by the custodian, have also been excluded from the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012, respectively. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

Investment Contract with VALIC

The Plan holds fixed investment options with VALIC. The fixed investment options invest primarily in investment contracts such as traditional guaranteed investment contracts (GICs) and enter into "wrapper" contracts (also known as synthetic GICs). In a traditional GIC, the issuer takes a deposit from the various fixed investment options and purchases investments that are held in the issuer's general account. The issuer is contractually obligated to repay the principal and a specified rate of interest guaranteed to the various fixed investment options. In a synthetic GIC structure, the underlying investments are owned by the various fixed investment options and held in trust for Plan participants. The various fixed investment options enter into "wrapper" contracts issued by a third party. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The wrap issuer agrees to pay the various fixed investment options an amount sufficient to cover unit holder redemptions and certain other payments (such as trust expenses), provided all the terms of the wrap contract have been met. Wrappers are normally purchased from issuers rated in the top three long-term rating categories (A- or the equivalent and above).

Investment Contract with VALIC (continued)

Because the fixed option investments are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed option investments. Contract value, as reported by VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The fixed investment options do not permit the Organization to terminate the agreement prior to the scheduled maturity date.

The following are the average yields for the fixed investment options for 2013 and 2012:

	2013	2012
Average yields:		
Based on actual earnings	1.00% – 1.99%	1.00% – 2.49%
Based on interest rate credited to participants	1.00% – 1.99%	1.00% – 2.49%

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the codification are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Fixed Investment Accounts:

Valued at fair value of the guaranteed investment contract, calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Mutual Funds:

Valued at the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Assets at Fair Value as of December 31, 2013:

Party-in-Interest Transactions

Certain plan investments are shares of mutual funds and fixed investment accounts managed by VALIC. VALIC is one of the custodians, as defined by the Plan agreement and therefore, these transactions qualify as party-in-interest transactions.

Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2013 statement of net assets available for benefits.

Plan Termination

Although it has not expressed any intent to do so, the Organization, at its sole discretion, may terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and contracts held on behalf of participants will be disbursed to such participants or be transferred to a successor plan, as directed by the participant.

Plan Amendment

Effective June 1, 2013, the Organization amended the Plan Document and a new custodian and administrator was appointed. Plan assets were transferred to the new custodian into funds comparable to those offered by the previous custodian. Additionally, the amended Plan Document permits the Organization to make a matching contribution and a non-elective contribution to the Plan. Previously, only participant contributions were made to the Plan.

Concurrent with these changes, a separate plan maintained by the Organization, the LifeCare Alliance Contribution Retirement Plan, was terminated. Employees who had an account balance in the LifeCare Alliance Contribution Retirement Plan were permitted to rollover their account balance to this Plan. Approximately \$768,000 in rollover contributions were made to the Plan during 2013 related to amounts previously held in the terminated plan.

Subsequent Events - Date of Management's Evaluation

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date on which the financial statements were available to be issued.
