SAARMAN CONSTRUCTION, LTD. 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Year Ended December 31, 2013

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Saarman Construction, Ltd. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 1995 and has been amended and restated with an effective date of January 1, 2009, to provide retirement benefits for employees of Saarman Construction, Ltd. (the "Company"). The Plan is a defined contribution plan covering all eligible employees who have attained twenty-one years of age, and have completed 1,000 hours in a twelve-month eligibility period. Employees who are members of a collective bargaining agreement and non-resident aliens who do not receive income which constitutes income from sources within the United States are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and certain provisions of the Internal Revenue Code ("IRC"). The trustees are responsible for the oversight of the Plan, including determining and monitoring the appropriateness of the Plan's investment offerings.

The Plan provides for a Plan administrator who is responsible for keeping accurate and complete records with regard to the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions – Participants may voluntarily contribute up to 100% of their annual eligible pretax compensation, as defined in the Plan, with maximum contributions totaling $17,500 for the year ended December 31, 2013. The Plan allows participants who have attained 50 years of age by the end of the Plan year and who are making contributions to the Plan, to also make a catch-up contribution limited to $5,500 for the year ended December 31, 2013. Participants are also allowed to roll over contributions from other qualified retirement plans, subject to approval by the plan administrator. A participant may increase or decrease the amount of contributions at the beginning of each payroll period.

Employer Contributions – The Company matches participant contributions by contributing 50% of the employee's pretax contribution up to a maximum of $250 each plan year. Discretionary matching and profit sharing contributions may be made at the option of the Company's board of directors, subject to limitations imposed by applicable provisions of the IRC. Additionally, prevailing wage contributions will be made to participants covered by a prevailing wage contract and only as to compensation paid under the prevailing wage contract.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts – Each participant's account is credited with the participant's contributions, rollover contributions, the Company's matching contributions, as well as allocations of the Company's profit sharing contributions, if any, and Plan's investment earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant earnings, account balances, or specific participant transactions, as defined by the Plan agreement. The allocation of earnings from all profit sharing contribution accounts is based on the quarterly weighted average method. The benefit to which a participant is entitled is the benefit that may be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions, matching contributions, and rollover contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions and prevailing wage contributions is based on years of continuous service vest according to the following schedule:

Years of Service	Vested Interest
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Investment Options – Upon enrollment in the Plan, with the exception of profit sharing contributions, a participant may direct the investment of his or her account balance into various investment funds offered through the Plan. Profit sharing contributions are directed into various investments options by the Plan's investment manager.

Notes Receivable from Participants – Participants may borrow from their vested account balances provided they meet the Plan's eligibility requirements. The loans are secured by the balance in the participants' accounts. The minimum loan amount is $1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or $50,000. The duration of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence. Interest rates are based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances and remain fixed throughout the life of the loan. Principal and interest are paid ratably through payroll deductions and loans are due immediately upon termination of employment. At December 31, 2013, interest rates were 4.25%, with maturity dates ranging through October 2018.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits – Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum distribution, a direct rollover distribution into a qualified plan, or annual installments equal to the value of the participant's vested interest in his or her account. Upon termination of service, if a participant's account balance is in excess of $5,000, the participant may delay the receipt of distributions. If a terminated participant's vested interest does not exceed $1,000, it will be distributed to the participant in a lump-sum amount. If a terminated participant's account balance is between $1,000 and $5,000 and the Plan does not receive distribution instructions, the account will be rolled over into an individual retirement plan on behalf of the participant, as determined by the Plan administrator.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance is forfeited. Forfeiture accounts may be used to reduce required employer contributions and to fund the Plan's administrative expenses. As of December 31, 2013 and 2012, forfeited non-vested accounts totaled $1,353 and $143, respectively. During the year ended December 31, 2013, no forfeitures were used.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan prepares its financial statements on the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The trustees determine the Plan's valuation policies utilizing information provided by its third party administrator and investment advisor. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits – Benefits are recorded when paid.

Administrative Expenses – The Company pays a portion of the Plan's administrative expenses which are excluded from these financial statements. Expenses not paid by the Company are paid by the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's accounts and are not included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level l) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the *Fair Value Measurements and Disclosures* topic of the Financial Accounting Standards Board Accounting Standards Codification are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodology used by the Plan for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Cash: Valued at cost, which represents fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange Traded Funds: Valued at the closing price on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – TAX STATUS

The Plan is a defined contribution plan designed to qualify as a tax-exempt plan under the IRC. A favorable opinion letter from the Internal Revenue Service was received on March 31, 2008 regarding the qualified status of the prototype plan on which the terms of the Plan were based. The Plan has not filed for a determination letter, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Accordingly, no provision for federal or state income taxes has been made.

NOTE 6 – TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment will occur in the near term and that such changes could affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits and in the Statement of Changes in Net Assets Available for Benefits.

NOTE 9 – SUBSEQUENT EVENTS

Management of the plan has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.
