Employees who attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Each year, the Sponsor may make discretionary profit sharing and matching contributions on behalf of each participant. These profit sharing contributions are participant-directed.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (cont'd.)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Sponsor's contribution portion of their accounts is based on years of continuous service as follows:

Years of Service	Vesting Percentage
Less than 2	0%
At least 2 but less than 3	25%
At least 3 but less than 4	50%
At least 4 but less than 5	75%
At least 5 or more years	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participants' accounts and bear interest at rates that range from 4.25% to 9.25% which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

Participants are eligible to receive benefit payments due to death, disability, retirement or when they terminate service. Upon termination of service, a participant may elect to receive an annuity or a lump sum amount equal to the participant's vested account.

Withdrawals

Participants may withdraw their vested balances if they meet the hardship-withdrawal provisions contained in the Plan. Withdrawals made under this provision are subject to applicable income taxes and penalties.

Forfeitures

Forfeitures attributable to employer contributions are allocated among the participants' accounts in the same proportion that each such participant's compensation for the year bears to the total compensation of all participants for the year. At December 31, 2013 and 2012, forfeited nonvested accounts related to employer contributions totaled $48,867 and $22,374, respectively. There were no forfeitures of employer contributions allocated to the participants for the year ended December 31, 2013.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of the amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Note 3 - Information Prepared and Certified By Custodian

The Plan administrator has obtained certifications from Nationwide Financial Services, Inc. ("Nationwide"), the custodian of the Plan, at December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the Plan administrator is complete and accurate. Accordingly, all information pertaining to investments included in the statements of net assets available for benefits and the related interest income and net appreciation in fair value of investments has been provided and certified by Nationwide. Additionally, the information contained in Schedule H - Part IV - Line 4i - Schedule of Assets (Held at End of Year) at December 31, 2013, has been provided and certified by Nationwide. Investment information certified by Nationwide has not been audited by the independent auditors.

	2013	2012
Investments, at fair value:		
Mutual funds	$ 8,283,034	$ 7,262,303
Guaranteed investment contract	313,366	212,849
Total Investments	$ 8,596,400	$ 7,475,152
Notes receivable from participants	$ 187,770	$ 130,067
Investment income:		
Net appreciation in fair value of investments	$ 1,852,984	
Interest income on notes receivable from participants	$ 6,743	

Note 4 - Guaranteed Investment Contract

The Plan entered into an investment with Nationwide Financial Retirement Plans ("NFRP"). NFRP maintains the contributions in a general account. As the guaranteed investment contract ("GIC") does restrict participant-directed exchanges, the GIC is not considered fully benefit-responsive, and thus is presented on the statements of net assets available for benefits at fair value. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting interest rate is based on a formula agreed upon with the issuer and is reset annually. The average yield earned by the Plan and credited to participants was 2.59% and 2.54% for the years ended December 31, 2013 and 2012, respectively.

Note 5 - Investments

At December 31, 2013 and 2012, investments that represent 5% or more of the Plan's net assets available for benefits consisted of the following:

	2013	2012
American Fund Gr Fund R6	$ 1,750,098	$ 1,496,497
Oppenheimer Global Fund Class A	723,002	698,159
Vanguard MidCap Growth	618,352	575,930
Principal Equity Income	640,135	484,356
Dodge Cox Stock	457,053	468,949
Vanguard Select Value	593,662	462,799
American Beacon Intermediate	-	454,026

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,852,984. The Plan's mutual funds appreciated in value by $1,876,523 and the Plan's guaranteed investment contract depreciated in value by $23,539.

Note 6 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, ("FASB ASC 820") provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 6 - Fair Value Measurements (cont'd.)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

Level 1 inputs relate to mutual funds which are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 inputs relate to the guaranteed investment contract which is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 4).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6 - Fair Value Measurements (cont'd.)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013 and 2012:

Note 7 - Related Party Transactions

All of the Plan's investments are shares of mutual funds managed by Nationwide. Nationwide is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $62,901 for the year ended December 31, 2013.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 9 - Tax Status

The Plan obtained its latest determination letter on July 8, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax benefit only if it is more likely than not that the tax position would be sustained upon examination by the IRS.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to the Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$ 8,847,274	$ 7,644,838
Excess deferral contribution payable	-	437
Net assets available for benefits per the Form 5500	$ 8,847,274	$ 7,645,275

The following is a reconciliation of benefits paid directly to participants per the financial statements for the year ended December 31, 2013 to the Form 5500:

Benefits paid directly to participants per the financial statements	$ 1,380,835
Change in excess deferral contribution payable	437
Benefits paid directly to participants per the Form 5500	$ 1,381,272

Note 12 - Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2013 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.
