FIRST SERVICE NETWORKS, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2013

1. Description of plan:

The following description of the First Service Networks, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was established in January 2001, and has been amended several times since that date.

General:

The Sponsor of the Plan is First Service Networks, Inc. (Sponsor).

The Plan is a defined contribution plan. Certain employees, including non-resident aliens who have no earned income from sources within the United States and leased employees, are not eligible for participation in the Plan. Employees must be 18 years of age to participate and must complete three months of service before becoming eligible for both employee deferral contributions and employer matching contributions. After one year of service, participants become eligible for the employer nonelective contribution provisions of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant contributions:

Under the 401(k) provisions of the Plan, participants are automatically enrolled in the Plan with 3% of their wages deferred unless they request an amount other than 3% be withheld. The participants may elect to defer up to current statutory limits determined annually and prescribed by the Internal Revenue Service. The Plan also permits participants to make additional voluntary contributions of qualified rollovers from other retirement plans.

Employer contributions:

All employer contributions are completely at the employer's discretion. The Sponsor's Board of Directors determines the contribution amount, if any, at the end of each plan year. Employer contributions are invested in the same funds and increments as directed by the participant for the participant's contributions. Contributions are subject to statutory limitations. For the year ended December 31, 2013, the Sponsor elected not to contribute to the Plan.

Participant accounts:

Each participant's account is credited with the participant's elective deferral and rollover contributions, actual earnings thereon and allocations of the employer's contributions (if any) and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED DECEMBER 31, 2013

1. Description of plan (continued):

Vesting:

Participants are immediately vested in their elective deferral and any rollover contributions made to the Plan, plus actual earnings thereon. Vesting in the employer's discretionary matching and nonelective contribution portion of the participant's accounts, plus actual earnings thereon, is based on years of credited service. Participants vest at 25% annually, beginning with the completion of their first year and are fully vested after four years of elapsed time, or upon the normal retirement date. Under the elapsed time method, the Plan defines a period of service on a basis that 365 days equals one year. Only whole years of service will be counted for vesting purposes. Upon death or total disability of a participant prior to retirement, the participant's account balance shall become fully vested.

Participants' loans:

The Plan allows for participants to obtain loans from the Plan. Loans cannot exceed 50% of the vested portion of the participant's account (or \$50,000 if less), and must be a minimum of \$1,000. The loan must be repaid within five years unless the entire proceeds are used to purchase the participant's primary residence, in which case the loan may be repaid over a ten-year period. All loans will provide for the repayment of interest at rates commensurate with local prevailing rates, as determined by the Plan Administrator, on the date of the loan. The participant's individual account serves as collateral for the loan and, in the event of default, death, disability or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. Because the participant's account collateralizes the loan in its entirety, the credit quality of the participant is not assessed by the Plan Administrator. Unpaid loans will be treated as a taxable distribution from the Plan.

For financial reporting purposes, participants' loans are included in the statements of net assets available for benefits as notes receivable from participants.

Investment options:

Upon enrollment in the Plan, a participant may direct contributions in any increments into any of several investment options. All of the accounts are in the custody of Fidelity Management Trust Company. Participants may change their investment options inside the platform at any time.

Payment of benefits:

On termination of service due to death, disability, retirement or other reasons, a participant whose vested account balance exceeds \$5,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his/her account. Participants with account balances less than \$5,000 must take a lump-sum distribution as soon as practicable following termination. Mandatory automatic distributions under the plan less than \$5,000 but greater than \$1,000 may be automatically rolled over to an IRA established on behalf of participants who do not affirmatively consent to receive their distributions.

YEAR ENDED DECEMBER 31, 2013

1. Description of plan (continued):

Payment of benefits (continued):

Participants who are at least 59½ may take an in-service distribution of their vested account balance.

Hardship withdrawals:

If approved by the Plan Administrator, a participant may withdraw the vested portion of his/her elective deferral account balance to satisfy any of the following immediate and heavy financial needs: unreimbursed medical expenses for qualified persons, purchase of a principal residence, to prevent eviction from or foreclosure on a principal residence, to pay expenses for the repair of certain damages to a principal residence, to pay for post-secondary education expenses for qualified persons, funeral expenses or for expenses that qualify as a casualty deduction under the Internal Revenue Code (IRC). Prior to receiving a hardship withdrawal, a participant must first exhaust all other options, including a loan from the Plan. The participant will be unable to contribute to the Plan for six months following receipt of a hardship withdrawal.

Forfeitures:

The Plan allocates participant forfeitures first to reduce employer contributions. The Sponsor may also elect to pay Plan expenses from forfeitures. At December 31, 2013 and 2012, there were no non-vested amounts to be forfeited in future periods. During 2013, there were no forfeitures used to pay for administrative costs or reduce employer contributions.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

FIRST SERVICE NETWORKS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED DECEMBER 31, 2013

2. Summary of significant accounting policies (continued):

Investment valuation and income recognition:

The Plan's investments are stated at fair value. See Note 4 for discussion of the fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in the fair value of investments includes both realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payments of benefits:

Benefits paid to participants are recorded when paid.

Subsequent events:

The Plan has evaluated the events that have occurred subsequent to December 31, 2013 through October 13, 2014, the date that the financial statements were available to be issued. The Plan has no responsibility to update these financial statements for events and circumstances occurring after this date.

3. Federal income tax status:

The Sponsor adopted a volume submitter plan as published by Fidelity Management Trust Company who obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan Sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust tax-exempt as of December 31, 2013 and 2012. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

FIRST SERVICE NETWORKS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED DECEMBER 31, 2013

3. Federal income tax status (continued):

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

4. Fair value measurements:

Fair value is defined as the price to sell an asset or transfer a liability between market participants as of the measurement date. Fair value measurements assume the asset or liability is exchanged in an orderly manner; the exchange is in the principal market for that asset or liability (or in the most advantageous market when no principal market exists); and that the market participants are independent, knowledgeable, able and willing to transact an exchange. The fair value for qualifying alternative investments is determined based on the investment's net asset value as a practical expedient. Considerable judgment is required in interpreting market data used to develop the estimates of fair value. Accordingly, the estimates presented in the financial statements are not necessarily indicative of the amounts that could be realized in a current market exchange. The use of different market assumptions and estimation methodologies may have a material effect on the estimated fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Transfers between levels are recorded at the beginning of the reporting period in which they occur. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets or active markets that the Plan does not have access to;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair value measurements (continued):

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

At December 31, 2013, the fair value of assets measured on a recurring basis is as follows:

4. Fair value measurements (continued):

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments:

The Plan Administrator obtained a certification of the following investment information from Fidelity Management Trust Company (Fidelity), trustee, as of December 31, 2013 and 2012 and for the year ended December 31, 2013. The information was certified as complete and accurate by the trustee and the Plan Administrator instructed the independent public accountants not to perform any auditing procedures with respect to this information:

- Total investments and notes receivable from participants as shown in the accompanying statements of net assets available for benefits of \$4,806,649 and \$3,662,286 as of December 31, 2013 and 2012.
- Net investment income and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits of \$667,019 and \$5,486 for the year ended December 31, 2013.

The value of individual investments that represent 5% or more of the Plan's net assets is as follows:

6. Related party transactions:

Administrative costs of the Plan related to administration of participant accounts and benefits, accounting and legal fees are paid directly by the Sponsor. Administrative costs paid directly by the Plan Sponsor were \$9,500 for 2013.

Certain accounting functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan.

7. Plan termination:

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

8. Reconciliation of financial statements to Form 5500:

The following is a reconciliation of net assets per the financial statements to the Form 5500 at December 31, 2012:

The financial statements present the Fidelity Prime Fund as a component of the registered investment companies (mutual funds). The balance in this mutual fund is listed on the Form 5500 as interest-bearing cash.

In addition, the financial statements present benefits paid to participants of \$263,038 and deemed distributions of \$14,459. The Form 5500 presents \$260,386 as benefits paid to participants, \$5,079 as deemed distributions and the remaining \$12,032 as corrective distributions.

9. Risks and uncertainties:

The Plan invests in various investment securities that are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
