A. PLAN DESCRIPTION

The following description of the Serenity Hospice Care 401(k) Plan (the 'Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General
The Plan is a defined contribution plan covering all qualifying employees of Serenity Hospice Care (the Company or Plan Sponsor) who have completed twelve consecutive months of service, with a minimum of 1,000 hours of service, and are 21 years of age or older. Employees may elect to defer salary on the first day of the seventh month of the Plan year after completion of 12 months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions
Each year, participants may contribute a percentage of pretax annual compensation, not to exceed statutory limitations as set by law, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a collective trust as investment options for participants. The Company may make a matching contribution or a nonelective contribution. Contributions are discretionary and are subject to certain limitations. Employees become eligible for the contribution matching upon becoming eligible to participate in the Plan. To be eligible for the nonelective contributions, employees must be employed on the last day of the Plan year and be credited with more than 1,000 hours during the Plan year. Participants may modify their deferral elections semi-annually.

Participant Accounts
Each participant's account is credited with the participant's contribution, employer matching contribution, nonelective contribution, an allocation of the Plan's investment earnings, an allocation of forfeitures of terminated participants nonvested amounts, and is charged with an allocation of the Plan's investment and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately 100% vested in their contributions. Vesting in the Company's discretionary matching contributions is based on years of service in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of Benefits
Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Participant accounts with a vested balance of $5,000 or less will be distributed to the participant as soon as is administratively feasible following the event that entitles the participant to a distribution.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. ***Basis of Accounting*** - The accompanying financial statements of the Serenity Hospice Care 401(k) Plan (the Plan) are prepared on the accrual basis of accounting.

2. ***Use of Estimates*** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. ***Investment Valuation and Income Recognition*** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note G for discussion of fair value measurements.)

   Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. ***Payment of Benefits*** **–** Benefit payments to participants are recorded upon distribution.

C. INVESTMENTS

The following presents investments at December 31, 2013 that represent 5% or more of the Plan's net assets.

	December 31, 2013

American Funds 2035 Target Date	1,733

D. CERTIFICATION OF ASSETS

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by American Funds, the custodian of the Plan, as complete and accurate to the best of their knowledge, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the plan custodian.

Investment income	887

E. UNCERTAIN TAX POSITIONS

The Plan evaluates all significant tax positions as required by generally accepted accounting principles in the United States. As of December 31, 2013, the Plan does not believe that it has taken any tax positions that would require the recording of any additional tax liability nor does it believe that there are any unrealized tax benefits that would either increase or decrease within the next twelve months. The Plan's income tax returns are subject to examination by the appropriate regulatory authorities as of December 31, 2013. The Plan's federal tax returns generally remain open for the last 6 years.

F. INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated March 16, 2010, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code.

G. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of fixed and variable mutual funds are based on quoted market prices.

Level 2 Fair Value Measurements

Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 Fair Value Measurements

Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 :

		Fair Value Measurements at Reporting Date Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2013				
Variable investment mutual funds	$ 28,174	$ 28,174	$ -	$ -

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the Year ended December 31, 2013 are reported in net appreciation in fair value of investments.

H. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of funds managed by the Trustee. These transactions qualify as party-in-interest transactions.

I. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. SUBSEQUENT EVENTS

The Plan performed an evaluation of subsequent events through October 13, 2014, the date upon which the Plan's financial statements were available for issue. The Plan has not evaluated subsequent events after this date. No subsequent events were identified that would have required a change to the financial statements or disclosure in the notes to the financial statements.
