Note 1. Description of the Plan

The following description of the VEVO 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan effective as of July 1, 2009 and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

UMG Recordings, Inc. (UMG) administered the Plan from the inception through December 31, 2012. VEVO LLC (the Company or Plan Sponsor) assumed the responsibility of administering the Plan as of January 1, 2013.

Eligibility: As defined in the Plan document, all employees on the payroll of the Company are eligible to participate in the Plan, except for the following:

- Union employees
- Nonresident aliens
- Leased employees
- Temporary employees who work for fewer than 1,000 hours in the year of eligibility determination

Eligible full-time and part-time participants may enroll immediately upon employment and temporary employees must reach 1,000 hours of service in a 12-month period to become eligible to enroll.

Contributions: Each year, non highly compensated employees, as defined by the Plan, may elect to contribute to their pre-tax accounts on a pre-tax basis (Pre-Tax Contributions) and/or to their after-tax accounts on an after-tax basis (After-Tax Contributions) through payroll deductions of 1% to 25% (in the aggregate) of their annual salary (as defined in the Plan), in multiples of 1%, in any combination. Highly compensated employees, as defined by the Plan, may contribute up to 10% (in the aggregate) of their annual salary to their pre-tax and after-tax accounts. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan, at its discretion, will accept into participants' rollover accounts cash received by participants from a qualified plan within the time prescribed by applicable law (Rollover Contributions). Pre-Tax Contributions and After-Tax Contributions are subject to limitations imposed by federal laws for qualified retirement plans.

The Plan provides for matching contributions by the Company payable to the participants' Company match accounts. The Company matches 60% of the participants’ contributions up to the first 6% of the participants' eligible compensation each payroll period. The Company's contributions are subject to limitations imposed by federal laws for qualified retirement plans.

The Plan also provides for profit-sharing contributions by the Company. This contribution is a discretionary contribution and is determined by the Company. Eligible participants must be employed with the Company as of the end of the Plan year to be eligible for profit sharing contributions. There were no profit sharing contributions paid or payable to the Plan as of December 31, 2013.

Participants may elect to have their contributions and matching contributions invested in a variety of investment funds. Investment elections or contribution rate changes can be changed on any business day and must be made in increments of 1%. The Plan currently offers various mutual funds as investment options for participants.

Note 1. Description of the Plan (Continued)

Participant Accounts: Each participant's account is credited and debited with the participant's contributions and withdrawals, as applicable, and an allocation of (a) the Company's matching contribution and (b) Plan earnings. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: A participant in the Plan shall be 100% vested in his or her Company match account upon participant's death or disability (as defined in the Plan). Upon termination of employment for any other reason, a participant vests in the funds held in his or her Company match account in accordance with the following vesting schedule:

Years of Service	Vested Percentage
Less than 1	0%
At least 1, but less than 2	20%
At least 2, but less than 3	40%
At least 3, but less than 4	60%
At least 4, but less than 5	80%
5 or more	100%

Upon termination of employment for reasons other than the death or disability of a participant who was not fully vested in his or her Company match account, the nonvested portion of the participant's Company match account shall be forfeited. Any account forfeited shall be used to reduce the Company's contributions and to pay reasonable administrative expenses in accordance with the terms of the Plan. Any amount forfeited shall be restored if the participant is reemployed by the Company before incurring a five-year break in service and if the participant repays to the Plan (within five years after his or her reemployment commencement date) an amount in cash equal to the full amount distributed to him or her from the Plan on account of termination of employment, excluding amounts from the after-tax and rollover accounts at the participant's election.

The Plan also allows recognition of service with other employers, specifically, if VEVO LLC directly hires an employee immediately following employment with UMG Recordings, Inc. or Sony Music Entertainment; former employees of Sony Music Entertainment hired on or before January 1, 2010 shall be fully vested.

Notes Receivable From Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the value of the vested portion of the participant's accounts. The maximum repayment terms are 5 years for general purpose loans and 15 years for primary residence loans. Applications for loans must be approved by Verisight Trust Company (the trustee). The amounts borrowed are transferred from the investment funds in which the participant's accounts are currently invested.

Repayment and interest thereon are credited to the participant's current investment funds through payroll deductions made each pay period. The notes receivable from participants are secured by the vested balance in the participant's account and bear interest at a rate of 4.25% at December 31, 2013 and 2012. The interest rate for notes receivable from participants is based on the prime rate as received by the trustee from *The Wall Street Journal* on the first business day of the month in which the loan is made plus one percentage point.

Note 1. Description of the Plan (Continued)

Payment of Benefits: Upon termination of employment, or for reason of death or disability, the participant or his or her beneficiary shall receive the value of his or her accounts. However, if the termination of employment is for reasons other than death or disability, the participant shall receive only the value of the vested funds in his or her accounts.

In accordance with the procedures established by the Administrative Committee and the terms of the Plan, certain terminated employees may elect to defer final distribution from the Plan. Upon such election, the amount of such participants' vested interest in the Plan is entitled to continue to receive investment income and losses and is held by the trustee until the date of distribution as elected by the participants. Prior to termination of employment, the participant may withdraw amounts from the participant's accounts in accordance with the provisions of the Plan.

Forfeited Accounts: At December 31, 2013 and 2012, forfeited nonvested accounts totaled approximately $57,000 and $72,000, respectively. These accounts may be used to reduce future employer contributions or pay reasonable plan expenses. The Company used approximately $80,000 of forfeitures to pay employer contributions owing to the Plan during 2013. The Company did not use any forfeitures during 2012.

Note 2. Summary of Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are treated as distributions based on the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of topics in the Accounting Standards Codification (the ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013 for nonpublic entities, except for amendments in this update where there was no transition guidance and which were immediately effective upon issuance. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

In July 2013, the FASB issued ASU 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04*, which was effective upon issuance. The amendments in this update defer indefinitely the effective date of certain required disclosures in ASU 2011-04 (Topic 820) of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The amendments in this update do not defer the effective date for those certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employees benefit plan or any qualitative disclosures. The adoption did not have a material impact on the Plan's financial statements.

Note 3. Information Certified by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets at December 31:

Note 4. Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (FASB ASC 820), provides the framework for measuring fair value. The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 4. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

All transfers between fair value hierarchy levels are recognized by the Plan at the end of each reporting period. There were no transfers between Levels 1, 2 and 3 during the year.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodoligies used at December 31, 2013 and 2012.

Mutual Funds: Fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange-traded equity securities, mutual funds and U.S. Treasury Bonds. Prices are obtained from readily available sources for market transactions involving identical assets or liabilities and these are classified as Level 1 investments.

Money Market Fund: The carrying amount approximates fair value because the instruments are liquid in nature.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2013 and 2012:

Note 5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 6. Tax Status of Plan

The Internal Revenue Service has determined and informed the Company, by a letter dated July 15, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

The Plan Sponsor’s management evaluated the Plan’s tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that required adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements as of December 31, 2013 and 2012 and for the year ended December 31, 2013. Generally, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for years before 2010.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the board of directors of the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their entire accounts.

Note 8. Related Party Transactions

Some of the Plan's expenses, including trustee, custodial and certain record-keeping fees, were paid by the Company for the year ended December 31, 2013.

Note 9. Prohibited Transactions

During 2013, the Plan Sponsor failed to deposit $304,216 of participant contributions and loan repayments within the required timeframe as stated by the DOL regulations. The late contributions and loan repayments were remitted to the Plan prior to December 31, 2013. The Plan Sponsor will deposit additional funding for lost earnings as part of the corrective action. The Plan Sponsor will also file Form 5330 and pay applicable excise tax. The excise tax payments will be made from the Plan Sponsor's assets and not from assets of the Plan. Late contributions of $41,549, during the Plan year ended December 31, 2012 were corrected in December, 2012 and lost earnings were paid into the Plan by the Company in February, 2013.

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 8, 2014 the date the financial statements were available to be issued.
