NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE 1 – DESCRIPTION OF PLAN

The following description of the AmeriMark Direct, L.L.C. Retirement Savings Plan (the “Plan”), as amended, provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General and Eligibility

The Plan is a defined contribution plan in which all employees of AmeriMark Direct, L.L.C. (the “Company”) who meet certain age and service criteria are eligible to participate. Eligible employees are those who are 21 years of age or older and have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

Participants may contribute up to 100% of their pretax annual compensation up to the maximum amount allowed by law. Participants may also contribute amounts representing distributions from other qualified plans, commonly referred to as rollover contributions. Effective August 1, 2013, the Company may make a discretionary matching contributions of no more than 9% of employee contributions. No discretionary matching contributions were made for 2013.

Effective August 1, 2013, the Plan was amended to include auto enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their pre-tax deferral rate initially set to 4% and will increase by 1% each year on June 1 until reaching a maximum of 9%.

Participant Accounts

Each participant’s account is credited with their contributions, the Company’s matching contributions, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on earnings, account balances, or specific participant transactions, as defined. Each participant directs the manner in which their account is to be allocated among the investment options available under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting and Forfeitures

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Effective August 1, 2013, participants are also immediately vested in discretionary company matching contributions. Prior to this date, vesting in the Company’s contributions made to participant accounts, plus actual earnings thereon, was based on years of continuous service. A participant was 20% vested after one year of service, as defined by the Plan document. For each year of service thereafter, the vesting percentage of each participant increased by 20% until a participant is fully vested, after completing five years of service, as defined by the Plan document. Forfeited balances of terminated participants’ nonvested accounts are to be used to reduce Company matching contributions. As of December 31, 2013 and 2012 forfeited non-vested accounts totaled \$44,174 and \$31,436, respectively. No forfeitures were used in 2013 as there was no company matching contributions in 2013.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

NOTE 1 – DESCRIPTION OF PLAN – CONTINUED

Investment Options

All investments of the Plan are fully participant directed. Participants can direct the allocation of their account among the investment options offered by the Plan. With certain restrictions, participants may change their investment options daily.

Payment of Benefits

Benefits are payable to participants or their beneficiaries upon their termination, retirement or death. A participant may choose to receive a lump-sum amount equal to the value of his vested account or may choose to receive installments of a fixed amount for a fixed period. If the vested balance for a participant who has not yet reached retirement age, as defined by the plan, is greater than \$1,000 but is no more than \$5,000 and the participant has not chosen to receive their benefits in another form, the vested balance will be automatically rolled over directly in to an IRA. If their vested balance is less than \$1,000, the funds are automatically cashed out. Participants may also withdrawal amounts from their accounts under certain “hardship” conditions as defined in the Plan document.

Notes Receivable from Participants

Participants have the ability to borrow from their accounts subject to limitations as defined in the Plan document. Repayments are to be made over a period not to exceed five years, except for loans taken for the purchase of a primary residence, which may be repaid over a period not to exceed thirty years. The loans are secured by the balance in the participant’s account. The participants are charged interest on all outstanding loans. The fixed interest rate is determined based on prevailing interest rates charged by lending institutions at the time the loan is initiated. Interest rates range from 5.25% to 7.00% on participant loans outstanding at December 31, 2013 and 2012.

Voluntary Withdrawals

Participants who have attained the age of 59½ may withdraw all or part of their vested account balance. Participants under the age of 59½ may withdraw all or part of their elective deferral contributions only for reasons that qualify as a financial hardship, as determined by the Plan administrator and allowable under the law.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 4 for discussion of fair value measurements.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefit payments are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2013 and 2012

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**Notes Receivable from Participants**

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 3 – INVESTMENTS

Registered investment companies	663,633
	<u>\$1,370,936</u>

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access at the measurement date.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2013 and 2012

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

Level 2 Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 or 2012.

Pooled separate accounts are valued based on the net asset value (NAV) per unit as determined by Principal Financial Group on the last day of the Plan year based primarily on quoted market prices of the respective funds' underlying assets. Registered investment companies are valued at the NAV of the shares held by the Plan at year end, as determined by quoted market prices.

Included in investments of the Plan is the Principal Stable Value Fund (the "Fund"), a stable value collective fund. The Fund is stated at fair value and then adjusted to contract value. Fair value is NAV per unit based on the fair value of the underlying assets. The underlying investments of the Fund are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high quality bonds, bond trusts and bond mutual funds. Investment contracts include traditional Guaranteed Investment Contracts (GICs) and Synthetic Investment Contracts (SICs). GICs are valued based on estimated fair value, computed using discounted cash flows. SICs are valued based on the aggregate market value of the applicable bond trusts, mutual funds and other investments with the applicable wrapper contracts valued at estimated fair value based on a replacement cost approach. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fund at contract value. There may be market value events that limit the ability to transact at contract value with the issuer. These are events or conditions that occur which are outside of the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract or wrap issuer's interest herein. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. Contract value represents contributions made under the contract, plus earnings and transfer in, less participant withdrawals, administrative expenses and transfers out.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2013 and 2012

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

NOTE 5 – TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the prototype plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (“IRC”). The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated since the date of the opinion letter; however, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service (“IRS”). The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 – INFORMATION CERTIFIED BY THE TRUSTEE

As permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA, and as instructed by the Plan administrator, no audit procedures have been performed on certain information certified by Delaware Charter Guarantee and Trust Company doing business as Principal Trust Company and Principal Life Insurance Company, collectively Principal Financial Group, the trustee of the Plan, except to compare such information to the information included in the accompanying financial statements and supplemental schedule. Information certified by the trustee includes investments included in the statements of net assets available for benefits, net appreciation in fair value of investments, and interest and dividends included in investment income on the statement of changes in net assets available for benefits and all information regarding investments included in Note 3 and the schedule H, Line 4i – schedule of assets (held at end of year), excluding participant loans.

NOTE 8 – PARTIES-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares or units of pooled separate accounts and a stable value collective trust fund managed by Principal Financial Group. Principal Financial Group is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 10 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:
