Contributions

Each year, participants may contribute up to 50% of pretax annual eligible compensation, as defined in the Plan. The maximum allowable participant deferral was $17,500 for 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions of $5,500 in 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Employees who do not wish to contribute to the plan may terminate contributions to the Plan at any time. The Company matches 25% of the eligible base compensation that a participant contributes to the Plan, with a maximum contribution of $4,375 which is 25% of the annual IRS contribution limits, not including catch-up contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in a portfolio of investments as directed by the Company. During the year ended December 31, 2013 the Company did not make a profit sharing contribution to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - Continued

The participant determines the investment fund allocation of elective and matching contributions. Contributions may be allocated entirely to one fund or to a combination of funds or accounts. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their voluntary contributions and the investment earnings thereon. Until July 31, 2011, employer contributions and any investment earnings thereon vested 100% after 11 months of credited service. Effective August 1, 2011 employer contributions and any investment earnings thereon vest 100% after two years of credited service.

Payment of Benefits

Upon retirement, death, disability, or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to receive the value of the participant's vested account interest. The form of payment is a lump sum distribution.

Upon demonstrated immediate and heavy financial need, as defined in the Plan document, hardship withdrawals are permitted.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their vested account balance. Only one loan may be outstanding at any time and only one loan may be made per Plan year. The loan must be repaid within five years, unless the loan is taken for the purchase of a primary residence, in which case the repayment period can be up to ten years. The loans are secured by the remaining balance in the participant's account. The loans bear interest at rates that are commensurate with local prevailing rates at the date of issuance, as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

The forfeited nonvested portion of the employers' contributions and related earnings of terminated employees are used to reduce future employer matching contributions and to pay other fees in accordance with the Plan document. Forfeitures applied toward employer matching contributions and administrative expenses were $46,234 and $1,426, respectively, for the year ended December 31, 2013. Plan assets included unallocated forfeitures of $38,221 and $3,931 at December 31, 2013 and 2012, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting as required by accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2013, the Plan invested in one fund that was considered a fully benefit-responsive investment, the Prudential Guaranteed Income Fund.

Use of Estimates

The preparation of the Plan's financial statements in conformity U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents net appreciation or depreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on investments, in the statement of changes in net assets available for benefits.

Guaranteed Income Fund

The Prudential Guaranteed Income Fund ("Guaranteed Income Fund") is the Plan's fully benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company ("PRIAC"). At December 31, 2013 and 2012, the contract value of the Guaranteed Income Fund approximated fair value, as the insurance company is obligated to pay the contract value no later than 90 days from the date the Plan provides notice to discontinue and the plan pays interest at guaranteed crediting rates that are determined in advance. As contract value approximates fair value, no contract value adjustment was presented in the Plan's financial statements. Contract value represents contributions made under the contract, plus earnings at the guaranteed crediting rates, less losses, participant withdrawals, and administrative expenses. The Guaranteed Income Fund is carried at contract value because that is the amount equal to the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent loans are reclassified as deemed distributions based upon the terms of the Plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding increase to benefits paid by participants. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain costs and expenses incurred with regard to the purchase, sale or transfer of investments and initiation of loans are paid by the Plan. Investment advisory fees for portfolio management are paid directly from fund earnings; they are included in mutual fund expense ratios. All other administrative expenses are generally paid by the Company and are excluded from these financial statements.

NOTE C - INVESTMENTS

Investments that individually represent 5% or more of the Plan's net assets are separately identified as follows:

	December 31,	
	2013	2012
Investments at fair value		
JPMorgan Core Bond Class A Fund	$2,490,913	$2,873,716
Prudential Guaranteed Income Fund	1,872,810	1,866,288
Prudential Jennison Mid Cap Growth A Fund	1,992,961	1,420,988
Eagle Funds Small Cap Growth Fund	1,673,924	1,198,560
American Funds Fundamental Investors Fund	1,471,794	1,150,798
Fidelity Advisor New Insights Class A Fund	1,576,621	1,099,422
JPMorgan Mid Cap Value A Fund	1,607,191	1,085,886
Thornburg International Value A Fund	1,333,305	1,037,089

NOTE D - FAIR VALUE MEASUREMENTS

The Plan utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for instruments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: The fair value of these investments is determined by the closing price as reported by the fund. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value (NAV) as of December 31, 2013. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Income Fund. PRIAC determines the contract value of the fully benefit-responsive investment contract, which is the best estimate of fair value. Contract value represents contributions made under the contract, plus earnings, less losses, participant withdrawals, and administrative expenses. The guaranteed credit rate used to calculate earnings is the only significant unobservable input used to determine the fair value. See Note E, Guaranteed Income Fund, for the guaranteed credit rate used in 2013 and 2012, which must be greater than or equal to the contractual minimum crediting rate.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Beginning balance	$1,866,318
Contributions	286,589
Distributions	(213,192)
Interest income	31,501

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment fund	$1,872,810	Fair Value = Contract Value	Earnings at Guaranteed Crediting Rate	Gross Guaranteed Crediting Rate must be greater than or equal to the contractual minimum crediting rate

NOTE E - GUARANTEED INCOME FUND

The Guaranteed Income Fund is maintained by PRIAC. PRIAC holds the contributions in a general account and is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis. The minimum crediting rate under the contract was 1.50% for both 2013 and 2012.

	December 31,	
	2013	**2012**
Average yields:		
Based on actual earnings[1]	1.70%	1.80%
Based on interest rate credited to participants[2]	1.70%	1.80%

[1] Computed by dividing the actual one-day earnings of the *contract* credited to the Plan on the last day of the Plan year by the fair value of the investment on the last day of the Plan year and then annualized.

[2] Computed by dividing the actual one-day earnings credited to *participants* on the last day of the Plan year by the fair value of the investment on the last day of the Plan year and then annualized.

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at contract value within reasonable timeframes. The contract is directly between the Plan and PRIAC. The repayment of principal and interest credited to participants is a financial obligation of PRIAC. Given these provisions, PRIAC considers this contract to be benefit responsive.

The contract with PRIAC does not have any restrictions that limit the Plan's ability to collect the full contract value. PRIAC may not terminate the contract or require the Plan to settle at an amount different than the contract value.

NOTE F - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company ("Trustee"), has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Schedule H, Part IV, line 4i – schedule of assets (held at end of year) as of December 31, 2013.

During 2013, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated in fair value as determined by quoted market prices as follows:

	2013
Mutual funds	$ 3,071,517

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE G - RELATED PARTY TRANSACTIONS

Certain Plan investments are mutual funds managed by Prudential Investments LLC and a guaranteed income fund issued by the Prudential Retirement and Annuity Company which qualify as party-in-interest transactions. In addition, certain fees paid to the Plan Trustee for investment management services are incorporated into the expense ratios of the individual mutual funds.

NOTE H - TAX STATUS

The Plan operates under a prototype plan document and has received a favorable opinion letter, dated January 31, 2006, from the Internal Revenue Service ("IRS") stating that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code ("the Code"). The Plan has been amended since that date, however, the Plan administrator believes the Plan is currently being operated in compliance with the applicable requirements of the Code, and therefore believes the Plan is qualified and tax exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I - PLAN TERMINATION

While the Employer has not expressed any intent to terminate the Plan, it has the right to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, no further contributions will be made to the Plan and participants would become 100% vested in their employer contribution.

NOTE J - RISK AND UNCERTAINTIES

The Plan provides for various investment securities that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE K - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31, 2013	December 31, 2012
Net assets available for benefits per the financial statements	$23,317,155	$18,170,895
Add:		
Excess contribution refundable	219,667	93,959
Net assets available for benefits per Form 5500	$23,536,822	$18,264,854

The following is a reconciliation of net increase in net assets available for plan benefits per the financial statements to Form 5500 for the year ended December 31, 2013:

Net increase in net assets available for plan benefits per the financial statements	$5,146,260
Plus:	
Change in excess contribution refundable	125,708
Net increase in net assets available for plan benefits per Form 5500	$5,271,968

NOTE L – DELINQUENT PARTICIPANT CONTRIBUTIONS

During December 31, 2013, the Plan did not remit all payroll deferrals as soon as administratively possible, as prescribed by the Department of Labor regulations. Late employee contributions of $2,574 were remitted in 2013. The Plan will calculate lost earnings on the late contributions and remit to the affected participants' account remittances in 2014 to compensate those participants for potential lost income due to delays in 2013.

NOTE M - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued, and noted no other events requiring recognition or disclosure.

NOTE A - DESCRIPTION OF PLAN

The following description of the ACE Cash Express, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established by ACE Cash Express, Inc. ("Company" or "Employer"), under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and is available to employees who are 21 years of age or older. Employees are eligible to participate in the Plan on the first day of the month following 30 days of service.

Contributions

Each year, participants may contribute up to 50% of pretax annual eligible compensation, as defined in the Plan. The maximum allowable participant deferral was $17,500 for 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions of $5,500 in 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Employees who do not wish to contribute to the plan may terminate contributions to the Plan at any time. The Company matches 25% of the eligible base compensation that a participant contributes to the Plan, with a maximum contribution of $4,375 which is 25% of the annual IRS contribution limits, not including catch-up contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in a portfolio of investments as directed by the Company. During the year ended December 31, 2013 the Company did not make a profit sharing contribution to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - Continued

The participant determines the investment fund allocation of elective and matching contributions. Contributions may be allocated entirely to one fund or to a combination of funds or accounts. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their voluntary contributions and the investment earnings thereon. Until July 31, 2011, employer contributions and any investment earnings thereon vested 100% after 11 months of credited service. Effective August 1, 2011 employer contributions and any investment earnings thereon vest 100% after two years of credited service.

Payment of Benefits

Upon retirement, death, disability, or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to receive the value of the participant's vested account interest. The form of payment is a lump sum distribution.

Upon demonstrated immediate and heavy financial need, as defined in the Plan document, hardship withdrawals are permitted.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their vested account balance. Only one loan may be outstanding at any time and only one loan may be made per Plan year. The loan must be repaid within five years, unless the loan is taken for the purchase of a primary residence, in which case the repayment period can be up to ten years. The loans are secured by the remaining balance in the participant's account. The loans bear interest at rates that are commensurate with local prevailing rates at the date of issuance, as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

The forfeited nonvested portion of the employers' contributions and related earnings of terminated employees are used to reduce future employer matching contributions and to pay other fees in accordance with the Plan document. Forfeitures applied toward employer matching contributions and administrative expenses were $46,234 and $1,426, respectively, for the year ended December 31, 2013. Plan assets included unallocated forfeitures of $38,221 and $3,931 at December 31, 2013 and 2012, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting as required by accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2013, the Plan invested in one fund that was considered a fully benefit-responsive investment, the Prudential Guaranteed Income Fund.

Use of Estimates

The preparation of the Plan's financial statements in conformity U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents net appreciation or depreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on investments, in the statement of changes in net assets available for benefits.

Guaranteed Income Fund

The Prudential Guaranteed Income Fund ("Guaranteed Income Fund") is the Plan's fully benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company ("PRIAC"). At December 31, 2013 and 2012, the contract value of the Guaranteed Income Fund approximated fair value, as the insurance company is obligated to pay the contract value no later than 90 days from the date the Plan provides notice to discontinue and the plan pays interest at guaranteed crediting rates that are determined in advance. As contract value approximates fair value, no contract value adjustment was presented in the Plan's financial statements. Contract value represents contributions made under the contract, plus earnings at the guaranteed crediting rates, less losses, participant withdrawals, and administrative expenses. The Guaranteed Income Fund is carried at contract value because that is the amount equal to the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent loans are reclassified as deemed distributions based upon the terms of the Plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding increase to benefits paid by participants. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain costs and expenses incurred with regard to the purchase, sale or transfer of investments and initiation of loans are paid by the Plan. Investment advisory fees for portfolio management are paid directly from fund earnings; they are included in mutual fund expense ratios. All other administrative expenses are generally paid by the Company and are excluded from these financial statements.

NOTE C - INVESTMENTS

Investments that individually represent 5% or more of the Plan's net assets are separately identified as follows:

	December 31,	
	2013	2012
Investments at fair value		
JPMorgan Core Bond Class A Fund	$2,490,913	$2,873,716
Prudential Guaranteed Income Fund	1,872,810	1,866,288
Prudential Jennison Mid Cap Growth A Fund	1,992,961	1,420,988
Eagle Funds Small Cap Growth Fund	1,673,924	1,198,560
American Funds Fundamental Investors Fund	1,471,794	1,150,798
Fidelity Advisor New Insights Class A Fund	1,576,621	1,099,422
JPMorgan Mid Cap Value A Fund	1,607,191	1,085,886
Thornburg International Value A Fund	1,333,305	1,037,089

NOTE D - FAIR VALUE MEASUREMENTS

The Plan utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for instruments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: The fair value of these investments is determined by the closing price as reported by the fund. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value (NAV) as of December 31, 2013. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Income Fund. PRIAC determines the contract value of the fully benefit-responsive investment contract, which is the best estimate of fair value. Contract value represents contributions made under the contract, plus earnings, less losses, participant withdrawals, and administrative expenses. The guaranteed credit rate used to calculate earnings is the only significant unobservable input used to determine the fair value. See Note E, Guaranteed Income Fund, for the guaranteed credit rate used in 2013 and 2012, which must be greater than or equal to the contractual minimum crediting rate.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment fund	$1,872,810	Fair Value = Contract Value	Earnings at Guaranteed Crediting Rate	Gross Guaranteed Crediting Rate must be greater than or equal to the contractual minimum crediting rate

NOTE E - GUARANTEED INCOME FUND

The Guaranteed Income Fund is maintained by PRIAC. PRIAC holds the contributions in a general account and is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis. The minimum crediting rate under the contract was 1.50% for both 2013 and 2012.

	December 31,	
	2013	**2012**
Average yields:		
Based on actual earnings[1]	1.70%	1.80%
Based on interest rate credited to participants[2]	1.70%	1.80%

[1] Computed by dividing the actual one-day earnings of the *contract* credited to the Plan on the last day of the Plan year by the fair value of the investment on the last day of the Plan year and then annualized.

[2] Computed by dividing the actual one-day earnings credited to *participants* on the last day of the Plan year by the fair value of the investment on the last day of the Plan year and then annualized.

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at contract value within reasonable timeframes. The contract is directly between the Plan and PRIAC. The repayment of principal and interest credited to participants is a financial obligation of PRIAC. Given these provisions, PRIAC considers this contract to be benefit responsive.

The contract with PRIAC does not have any restrictions that limit the Plan's ability to collect the full contract value. PRIAC may not terminate the contract or require the Plan to settle at an amount different than the contract value.

NOTE F - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company ("Trustee"), has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Schedule H, Part IV, line 4i – schedule of assets (held at end of year) as of December 31, 2013.

During 2013, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated in fair value as determined by quoted market prices as follows:

	2013
Mutual funds	$ 3,071,517

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE G - RELATED PARTY TRANSACTIONS

Certain Plan investments are mutual funds managed by Prudential Investments LLC and a guaranteed income fund issued by the Prudential Retirement and Annuity Company which qualify as party-in-interest transactions. In addition, certain fees paid to the Plan Trustee for investment management services are incorporated into the expense ratios of the individual mutual funds.

NOTE H - TAX STATUS

The Plan operates under a prototype plan document and has received a favorable opinion letter, dated January 31, 2006, from the Internal Revenue Service ("IRS") stating that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code ("the Code"). The Plan has been amended since that date, however, the Plan administrator believes the Plan is currently being operated in compliance with the applicable requirements of the Code, and therefore believes the Plan is qualified and tax exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I - PLAN TERMINATION

While the Employer has not expressed any intent to terminate the Plan, it has the right to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, no further contributions will be made to the Plan and participants would become 100% vested in their employer contribution.

NOTE J - RISK AND UNCERTAINTIES

The Plan provides for various investment securities that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE K - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31, 2013	December 31, 2012
Net assets available for benefits per the financial statements	$23,317,155	$18,170,895
Add:		
Excess contribution refundable	219,667	93,959
Net assets available for benefits per Form 5500	$23,536,822	$18,264,854

The following is a reconciliation of net increase in net assets available for plan benefits per the financial statements to Form 5500 for the year ended December 31, 2013:

Net increase in net assets available for plan benefits per the financial statements	$5,146,260
Plus:	
Change in excess contribution refundable	125,708
Net increase in net assets available for plan benefits per Form 5500	$5,271,968

NOTE L – DELINQUENT PARTICIPANT CONTRIBUTIONS

During December 31, 2013, the Plan did not remit all payroll deferrals as soon as administratively possible, as prescribed by the Department of Labor regulations. Late employee contributions of $2,574 were remitted in 2013. The Plan will calculate lost earnings on the late contributions and remit to the affected participants' account remittances in 2014 to compensate those participants for potential lost income due to delays in 2013.

NOTE M - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued, and noted no other events requiring recognition or disclosure.

ACE Cash Express, Inc. 401(k) Profit Sharing Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN

The following description of the ACE Cash Express, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established by ACE Cash Express, Inc. ("Company" or "Employer"), under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and is available to employees who are 21 years of age or older. Employees are eligible to participate in the Plan on the first day of the month following 30 days of service.

Contributions

Each year, participants may contribute up to 50% of pretax annual eligible compensation, as defined in the Plan. The maximum allowable participant deferral was $17,500 for 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions of $5,500 in 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Employees who do not wish to contribute to the plan may terminate contributions to the Plan at any time. The Company matches 25% of the eligible base compensation that a participant contributes to the Plan, with a maximum contribution of $4,375 which is 25% of the annual IRS contribution limits, not including catch-up contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in a portfolio of investments as directed by the Company. During the year ended December 31, 2013 the Company did not make a profit sharing contribution to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - Continued

The participant determines the investment fund allocation of elective and matching contributions. Contributions may be allocated entirely to one fund or to a combination of funds or accounts. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their voluntary contributions and the investment earnings thereon. Until July 31, 2011, employer contributions and any investment earnings thereon vested 100% after 11 months of credited service. Effective August 1, 2011 employer contributions and any investment earnings thereon vest 100% after two years of credited service.

Payment of Benefits

Upon retirement, death, disability, or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to receive the value of the participant's vested account interest. The form of payment is a lump sum distribution.

Upon demonstrated immediate and heavy financial need, as defined in the Plan document, hardship withdrawals are permitted.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their vested account balance. Only one loan may be outstanding at any time and only one loan may be made per Plan year. The loan must be repaid within five years, unless the loan is taken for the purchase of a primary residence, in which case the repayment period can be up to ten years. The loans are secured by the remaining balance in the participant's account. The loans bear interest at rates that are commensurate with local prevailing rates at the date of issuance, as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

The forfeited nonvested portion of the employers' contributions and related earnings of terminated employees are used to reduce future employer matching contributions and to pay other fees in accordance with the Plan document. Forfeitures applied toward employer matching contributions and administrative expenses were $46,234 and $1,426, respectively, for the year ended December 31, 2013. Plan assets included unallocated forfeitures of $38,221 and $3,931 at December 31, 2013 and 2012, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting as required by accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2013, the Plan invested in one fund that was considered a fully benefit-responsive investment, the Prudential Guaranteed Income Fund.

Use of Estimates

The preparation of the Plan's financial statements in conformity U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents net appreciation or depreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on investments, in the statement of changes in net assets available for benefits.

Guaranteed Income Fund

The Prudential Guaranteed Income Fund ("Guaranteed Income Fund") is the Plan's fully benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company ("PRIAC"). At December 31, 2013 and 2012, the contract value of the Guaranteed Income Fund approximated fair value, as the insurance company is obligated to pay the contract value no later than 90 days from the date the Plan provides notice to discontinue and the plan pays interest at guaranteed crediting rates that are determined in advance. As contract value approximates fair value, no contract value adjustment was presented in the Plan's financial statements. Contract value represents contributions made under the contract, plus earnings at the guaranteed crediting rates, less losses, participant withdrawals, and administrative expenses. The Guaranteed Income Fund is carried at contract value because that is the amount equal to the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent loans are reclassified as deemed distributions based upon the terms of the Plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding increase to benefits paid by participants. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain costs and expenses incurred with regard to the purchase, sale or transfer of investments and initiation of loans are paid by the Plan. Investment advisory fees for portfolio management are paid directly from fund earnings; they are included in mutual fund expense ratios. All other administrative expenses are generally paid by the Company and are excluded from these financial statements.

NOTE C - INVESTMENTS

Investments that individually represent 5% or more of the Plan's net assets are separately identified as follows:

	2013	2012

Prudential Jennison Mid Cap Growth A Fund	1,992,961	1,420,988
Eagle Funds Small Cap Growth Fund	1,673,924	1,198,560

Thornburg International Value A Fund	1,333,305	1,037,089

NOTE D - FAIR VALUE MEASUREMENTS

The Plan utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for instruments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: The fair value of these investments is determined by the closing price as reported by the fund. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value (NAV) as of December 31, 2013. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Income Fund. PRIAC determines the contract value of the fully benefit-responsive investment contract, which is the best estimate of fair value. Contract value represents contributions made under the contract, plus earnings, less losses, participant withdrawals, and administrative expenses. The guaranteed credit rate used to calculate earnings is the only significant unobservable input used to determine the fair value. See Note E, Guaranteed Income Fund, for the guaranteed credit rate used in 2013 and 2012, which must be greater than or equal to the contractual minimum crediting rate.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment fund	$1,872,810	Fair Value = Contract Value	Earnings at Guaranteed Crediting Rate	Gross Guaranteed Crediting Rate must be greater than or equal to the contractual minimum crediting rate

NOTE E - GUARANTEED INCOME FUND

The Guaranteed Income Fund is maintained by PRIAC. PRIAC holds the contributions in a general account and is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis. The minimum crediting rate under the contract was 1.50% for both 2013 and 2012.

	December 31,	
	2013	**2012**
Average yields:		
Based on actual earnings[1]	1.70%	1.80%
Based on interest rate credited to participants[2]	1.70%	1.80%

[1] Computed by dividing the actual one-day earnings of the *contract* credited to the Plan on the last day of the Plan year by the fair value of the investment on the last day of the Plan year and then annualized.

[2] Computed by dividing the actual one-day earnings credited to *participants* on the last day of the Plan year by the fair value of the investment on the last day of the Plan year and then annualized.

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at contract value within reasonable timeframes. The contract is directly between the Plan and PRIAC. The repayment of principal and interest credited to participants is a financial obligation of PRIAC. Given these provisions, PRIAC considers this contract to be benefit responsive.

The contract with PRIAC does not have any restrictions that limit the Plan's ability to collect the full contract value. PRIAC may not terminate the contract or require the Plan to settle at an amount different than the contract value.

NOTE F - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company ("Trustee"), has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Schedule H, Part IV, line 4i – schedule of assets (held at end of year) as of December 31, 2013.

During 2013, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated in fair value as determined by quoted market prices as follows:

	2013
Mutual funds	$ 3,071,517

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE G - RELATED PARTY TRANSACTIONS

Certain Plan investments are mutual funds managed by Prudential Investments LLC and a guaranteed income fund issued by the Prudential Retirement and Annuity Company which qualify as party-in-interest transactions. In addition, certain fees paid to the Plan Trustee for investment management services are incorporated into the expense ratios of the individual mutual funds.

NOTE H - TAX STATUS

The Plan operates under a prototype plan document and has received a favorable opinion letter, dated January 31, 2006, from the Internal Revenue Service ("IRS") stating that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code ("the Code"). The Plan has been amended since that date, however, the Plan administrator believes the Plan is currently being operated in compliance with the applicable requirements of the Code, and therefore believes the Plan is qualified and tax exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I - PLAN TERMINATION

While the Employer has not expressed any intent to terminate the Plan, it has the right to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, no further contributions will be made to the Plan and participants would become 100% vested in their employer contribution.

NOTE J - RISK AND UNCERTAINTIES

The Plan provides for various investment securities that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE K - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31, 2013	December 31, 2012

The following is a reconciliation of net increase in net assets available for plan benefits per the financial statements to Form 5500 for the year ended December 31, 2013:

Plus:	
Change in excess contribution refundable	125,708
Net increase in net assets available for plan benefits per Form 5500	$5,271,968

NOTE L – DELINQUENT PARTICIPANT CONTRIBUTIONS

During December 31, 2013, the Plan did not remit all payroll deferrals as soon as administratively possible, as prescribed by the Department of Labor regulations. Late employee contributions of $2,574 were remitted in 2013. The Plan will calculate lost earnings on the late contributions and remit to the affected participants' account remittances in 2014 to compensate those participants for potential lost income due to delays in 2013.

NOTE M - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued, and noted no other events requiring recognition or disclosure.
