Note 1 - Description of plan

The following description of The Curry Automotive Group 401(k) Savings Plan (the "Plan") sponsored by Curry Management Corporation (the "Company" or "Plan Administrator") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was most recently amended on February 15, 2012 and was originally established on January 1, 1994. The Plan operates on a calendar year basis.

General and eligibility

The Plan is a defined contribution plan covering all full-time employees of the Company with no age requirement who have one year of service with at least 1,000 hours. Certain predecessor employers shall be counted for eligibility purposes based on the terms of the Plan document. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to have a percentage or dollar amount deducted on a pretax basis from their compensations subject to an annual limit of the lesser of 90% of eligible compensation or the federal annual limit in a calendar year, as defined in the Plan. Participants can elect to designate some or all of their contributions to a Roth. Additionally, a paid bonus contribution election is available, subject to certain limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants may elect to suspend their contributions and to change their elective deferral at any date. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. Contributions are subject to certain limitations.

Discretionary matching contributions may be made at the option of the Company's board of directors and are invested according to the participant's investment option. To be eligible for the Company contributions, employees must be credited with at least 1,000 hours of service during the Plan year, with certain other exceptions, as defined in the Plan. Qualified nonelective contributions may be made at the option of the Company.

Participant's accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and qualified nonelective contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service or upon normal retirement age. A participant's vesting percentage increases to 100% if, while employed with the Company, the employee dies, becomes disabled, or reaches the early retirement age of 55 with five years of credited service.

Note 1 - Description of plan (continued)

Notes receivables from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, reduced by any outstanding loans. The loans are secured by the balance in the participant's account and bear interest at a rate equal to 1% above the prime rate at the time of the approval of the loan as determined by Thomson Reuters. Principal and interest is paid ratably through payroll deductions over a period of up to 5 years or up to 10 years for the purchase of a primary residence.

Investment options

Participants have the option of investing in a variety of investment options offered through Fidelity Management Trust Company, the trustee of the plan. All amounts in participant accounts are participant-directed.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship withdrawals are permitted based on the terms of the Plan document.

Forfeited accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $15,046 and $7,835, respectively. These accounts, if any, will be used to reduce future employer contributions. Also, in 2013, employer contributions were reduced by $15,500 for amounts paid in 2013 from forfeited nonvested accounts.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 - Summary of significant accounting policies (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant's loans are reclassified as distributions based on the terms on the Plan document.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

All expenses of maintaining the Plan are paid by the Company.

Date of management's review

Subsequent events were evaluated through October 10, 2014, which is the date the financial statements were available to be issued.

Note 3 - Investments

The following presents investments that represent five percent (5%) or more of the Plan's net assets.

	2013	2012
Investments:		
FA Freedom 2020 A	$ 2,294,305	$ 1,969,575
FA Freedom 2030 A	2,093,209	1,742,195
FA Freedom 2040 A	973,765	755,520
FA Freedom 2025 A	1,978,764	1,622,684
FA Freedom 2035 A	1,018,187	792,833

During 2013, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,080,114.

Note 4 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5 - Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets for benefits. The methods used to measure fair value produce an amount that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or 3 inputs were available to the Plan.

Level 1 fair value measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

The following table sets forth, which are Level 1 within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2013 and 2012:

	2013	2012
Mutual funds		
Stock investments	$ 3,555,258	$ 2,261,292
Blended investments	10,201,209	8,452,630
Bond investments	824,310	1,277,342
Short-term investments	318,851	397,265
	$ 14,899,628	$ 12,388,529

Note 6 - Information certified by the trustee

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, all information disclosed in the accompanying financial statements, notes and supplements schedule related to the Plan's investment assets at December 31, 2013 and 2012, and the related net investment gain and interest income for the Plan year ended December 31, 2013, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the trustee.

Note 7 - Excess contributions

Contributions received from participants are net of payments made to certain active participants for excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Excess contributions of $52,595 were paid in March 2014 for 2013 and $126,350 were paid in March 2013 for 2012. These amounts are included in the Plan's statement of net assets available for benefits as excess contributions payable.

Note 8 - Related party transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company (Fidelity). Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the administrative services amounted to $9,234.

These party-in-interest transactions are exempt from prohibited transactions rules of ERISA.

Note 9 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their employer contributions.

Note 10 - Tax status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 6 1995, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2006.

Note 11 - Employer contributions

For the year ended December 31, 2013, the Company made discretionary contributions of $172,617 (net of $15,500 which was deducted from the forfeited nonvested account balance when paid in March 2014).

Note 12 - Subsequent events

On August 4, 2014, as a result of a sale of substantially all of the assets of Performance Motors, LLC, a related employer, certain participants were permitted to withdraw their vested account balances in the Plan.

Note 13 - Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2013 and 2012 to Schedule H of Form 5500:

	2013	2012

Add: excess contributions payable	52,595	126,350
Net assets available for benefits per Schedule H of Form 5500	$ 15,503,915	$ 12,922,434

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2013 to Schedule H of Form 5500:

Benefits paid to participants per the financial statements	$ 738,631
