Cobham United States 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Cobham United States 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a volume submitter profit sharing/401(k) plan sponsored by Cobham Management Services, Inc. (the “Plan Sponsor”), and covers substantially all employees of the Plan Sponsor’s participating business units who have attained the age of 18. In accordance with the Plan agreement, the following classes of employees are excluded from eligibility:

- Employees covered by a collective bargaining agreement;
- Leased employees;
- Non-resident aliens; and
- Temporary employees; student interns; co-op students; common law employees who are not classified by the employer for tax purposes (unless these employees attain the age of at least 21 and complete at least 1,000 hours of service).

Effective April 1, 2011, the Plan was amended to include new business units. Effective January 15, 2012, the Plan was amended to reflect updated vesting schedules for various business units.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions – Participants may elect to contribute up to 90% of their annual compensation (as defined in the Plan) as pre-tax or Roth after-tax contributions, limited to the amount imposed by law. Additionally, participants age 50 or older may elect to make a catch-up contribution limited to the amount imposed by law.

For the years ended December 31, 2013 and 2012, the participating business units matched 100% of pre-tax and Roth after-tax employee contributions up to the first 4% of a participant’s eligible compensation, and 50% of pre-tax and Roth after-tax employee contributions up to the next 2% of eligible compensation.

The participating business units are allowed to make discretionary contributions to the Plan. A participant is eligible to receive discretionary contributions if he or she is actively employed by any business unit of the Plan sponsor on the last day of the Plan year.

Cobham United States 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by participant contributions, Plan Sponsor contributions, and the participant's share of Plan earnings. Participant accounts are decreased by participant distributions and the participant's share of Plan expenses and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions, rollovers and actual earnings thereon. Participants are 30% vested in Plan Sponsor contributions after the first year of service, 70% after the second year of service and become fully vested after three years of service.

Employees of certain other business units that transferred assets into the Plan are vested in those transferred assets and all future Plan Sponsor contributions based on different vesting schedules as defined in the adoption agreement.

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum distribution equal to the value of his or her vested account. The Plan permits in-service distributions for participants older than age 59½. Hardship withdrawals as defined by the Internal Revenue Code (the "Code") are available to participants only from the vested portion of their account and must be at least \$500. If the hardship withdrawal is made, the participant's eligibility to make contributions to the Plan will be suspended for six months.

Forfeitures – Forfeitures resulting from non-vested contributions previously made by the Plan Sponsor are first used to pay Plan expenses. Any forfeitures remaining after paying Plan expenses will be used to reduce future Plan Sponsor contributions.

Notes Receivable from Participants – In accordance with Plan provisions, participants are permitted to borrow a maximum amount equal to the lesser of \$50,000, reduced by the highest outstanding note during the one year period ending on the day before the note is made, or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with rates available for similar notes from commercial lending institutions. Repayment terms may not exceed five years, with the exception of a note used to purchase a primary residence in which case the note must be payable within ten years from the date of the note. Also, certain provisions of the Plan allow for the suspension of the repayment of a note in the event of certain military service which can push the note term beyond the five and ten year maximums. Principal and interest is paid ratably through each payroll deduction. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Cobham United States 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Income Taxes – The Plan sponsor obtained a letter dated March 31, 2008, in which the Internal Revenue Service (“IRS”) stated that the form of volume submitter plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”). The Plan administrator believes that the Plan is operating in compliance with the requirements of the Code and therefore, believes that the Plan is qualified and the related trust is tax exempt. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan agreement to discontinue its contributions at any time and to terminate its participation in the Plan, subject to the provisions of ERISA. In the event of partial or complete Plan termination, participants will become fully vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The accompanying statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The accompanying statements of changes in net assets available for benefits are prepared on a contract value basis.

Cobham United States 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments – As of December 31, 2013 and 2012, the Plan’s investments in money market funds, mutual funds and common collective trusts were stated at fair value, as determined by Fidelity Management Trust Company (“Fidelity”). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair market value of the mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. The fair market value of the common collective trust represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates.

The Plan presents in the accompanying statements of changes in net assets available for benefits the net appreciation in the fair value of investments, which includes both realized gains and unrealized appreciation in the fair value of investments. Realized gains and losses on disposition of investments were based upon actual costs and selling prices.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. In the event of a default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. Any unpaid balance will be deemed a taxable distribution from the Plan.

Benefit Payments – Benefits are recorded when paid.

Plan Expenses – Certain accounting and administrative expenses of the Plan are paid by the Plan Sponsor. Expenses relating to investment activity are paid by the Plan.

Party-in-Interest Transactions – Certain Plan investments are shares of mutual funds, common collective trusts and a money market account, managed by Fidelity. Fidelity is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate and market risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants’ account balances and the amount reported in the accompanying financial statements.

Cobham United States 401(k) Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Reclassification – In order to facilitate comparison of financial information, certain amounts reported in the prior year have been reclassified to conform to the current year presentation. Such reclassifications had no effect on net additions to net assets as previously reported.

Subsequent Events – The Plan administrator has evaluated subsequent events, for recognition or disclosure, through October 14, 2014, the date the accompanying financial statements were available to be issued.

Cobham United States 401(k) Plan

3. Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity has certified that the following data included in the accompanying financial statements and related supplementary information is complete and accurate. Individual investment securities that met or exceeded 5% of the Plan's net assets available for benefits at December 31, 2013 or 2012 have been separately identified.

Cobham United States 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date.
- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. Also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security.
- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that utilized Level 3 inputs as its primary measure of fair value at December 31, 2013 and 2012.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2013 and 2012:

	2013	2012
Level 1:		
Money market funds	\$ 205,025	\$ 38,675
Mutual funds	394,668,607	325,003,961
Level 2:		
Common/collective trusts	60,167,041	63,382,740
	\$ 455,040,673	\$ 388,425,376

Cobham United States 401(k) Plan

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contracts

At December 31, 2013 and 2012, the Plan maintains fully benefit-responsive investment contracts. The contracts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer of the contracts are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. During 2013, the Plan liquidated the Fidelity Managed Income Portfolio Fund II and allocated the funds from this liquidation to the Pimco Stable Income Fund II.

Because the contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contracts. The contracts are presented on the face of the accompanying statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants can ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The aggregate fair value of the contracts at December 31, 2013 and 2012 was \$60,167,041 and \$63,382,740. The crediting interest rate is based on capital market developments, the performance of the underlying assets backing the contract, and the expected and actual contributions and withdrawals of all of the plans participating in the contracts. The contract issuer guarantees that the crediting interest rate will never be less than 0%. Such interest rates are reviewed monthly for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include but are not limited to: 1) amendments to the Plan documents including complete or partial plan termination or merger with another plan; 2) changes to the Plan's prohibition on competing investment options; 3) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan; or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Cobham United States 401(k) Plan
Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contracts (continued)

The contract issuer can terminate the contract upon the event of default by the Plan if the contract issuer determines in its reasonable discretion, such event has, or is likely to have a material adverse effect on its interest with respect to the contract.
