THE SCRIPPS PENSION PLAN — JOURNAL PUBLISHING COMPANY

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following is a general description of The Scripps Pension Plan — Journal Publishing Company (the “Plan”). Participants should refer to the Plan document for more complete information.

General — The Plan represents the participation of the Journal Publishing Company (the “Company”) in The Scripps Pension Plan, a defined benefit pension plan maintained by various employers affiliated with The E.W. Scripps Company (“Scripps”). Russell Trust Company (the “Trustee”) serves as the trustee of the Plan and manages the Plan’s investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 31, 2009, the Plan was amended to freeze the accrual of participants’ plan benefits.

Pension Benefits — The Plan covers certain employees of the Company (principally employees not covered under a bargaining agreement). Normal retirement occurs upon attainment of age 65; however, early retirement may be elected if certain conditions are met. Vesting occurs after five years of credited service or upon normal retirement. The amount of monthly benefits is a function of participants’ compensation, years of credited service, and in some circumstances, age. Retirement benefits are reduced one-half of one percent for each month participants are under age 65 at the time benefits commence. For participants who are considered to be early retirees (age 55 and 10 years of credited service), retirement benefits are reduced 5% for each year the participant is under age 62 at the time benefits commence. The Plan was amended to eliminate the post-retirement death benefit for participants retiring after December 31, 2010. Participants who became permanently and totally disabled before December 31, 2010 and after completing 15 years of credited service are entitled to accrued benefits, with no reduction for commencement prior to normal retirement age. The surviving spouses of participants may be entitled to death benefits under certain conditions. Contributions by participants are not required or permitted.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events — The Plan has evaluated all subsequent events through October 15, 2014, the date the financial statements were available to be issued.

Investments — The Plan’s investments in commingled trust funds are presented at fair value, which has been determined based on the fair value of the underlying investments. Generally, quoted market prices are used to value the underlying assets. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan invests in commingled trust funds which has underlying investments including corporate debt instruments, mutual funds and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Expenses — Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

Administration — The Company and Scripps are responsible for the administration of the Plan. The Company and Scripps provide the Plan with certain accounting and administrative services for which no fees are charged.

Payment of Benefits — Benefit payments to participants or their beneficiaries are recorded upon distribution.

3. FAIR VALUE INVESTMENTS

As permitted by accounting principles generally accepted in the United States of America, the Plan uses net asset values as a practical expedient to determine the fair value of all investment funds which do not have a readily determinable fair value and have the attributes of an investment company.

The Plan classifies its investments into Level 1, Level 2 or Level 3. Level 1 refers to securities traded in an active market. Level 2 refers to securities not traded on an active market but for which observable market inputs are readily available, including investments in funds which may be redeemed on a quarterly or more frequent basis at the net asset value on the measurement date. Level 3 refers to securities not traded in an active market and for which no significant observable market inputs are available, including investments in funds whose available redemption period is less frequent than quarterly as well as funds with significant redemption restrictions implemented by the fund manager.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2013 and 2012:

The Plan's investments in commingled trust funds are based on the net asset values of the funds, all which have a daily redemption frequency and do not require a notice of redemption. At December 31, 2013 and 2012, the Plan had no unfunded commitments from redemption of commingled trust funds. The following provides a description of the significant investment strategies of the commingled trust funds.

Russell 1000 Index Fund — Series I is designed to track the performance of the large and medium capitalization companies in the Russell 1000 Index, which accounts for more than 75% of market capitalization of the U.S. stock market. The fund invests primarily in the BlackRock Russell 1000 Index Fund.

Russell International Fund invests in international financial markets, primarily those of developed economies in Europe and the Pacific Rim and primarily in equity securities issued by foreign corporations.

Russell Small Cap Fund is a small capitalization fund designed to provide maximum long-term appreciation through equity investments that are diversified by industry.

Russell World Equity Fund provides diversified exposure to global equity markets by investing primarily in securities listed on the major developed equity markets of the U.S., Europe and Asia, as well as those listed on emerging country equity markets.

Russell Global Real Estate Securities Fund provides broad exposure to equity securities of real estate companies throughout the world, primarily real estate investment trusts and other real estate operating companies.

Russell Emerging Markets Fund was developed to invest in emerging equity markets worldwide. Fund investments are made directly in each country, through participation in commingled funds, or investment in American Depositary Receipts, Global Depositary Receipts, or participation in commingled funds.

Russell Target Duration Liability-Driven Investment (LDI) Funds includes six funds that have approximately the same target durations as the underlying indexes — 6, 8, 10, 12, 14, and 16 years respectively. The funds provide mostly corporate bond based exposure to fixed income securities which closely match those found in discount curves used to value U.S. pension liabilities.

Russell Ultra Duration Fixed Income Fund provides duration exposure through investments in US Treasury separate trading of registered interest and principal of securities (STRIPS) with a maturity between 27-30 years.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2013 and 2012.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information as of and for the years ended December 31, 2013 and 2012, included in the Plan's financial statements and supplemental schedules, that was prepared by the Trustee or derived from the information prepared by the Trustee. 6. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date.

Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2013 and 2012, were:

- a. Life expectancy of participants
 - i. 2013 — 2014 IRS required mortality
 - ii. 2012 — 2013 IRS required mortality
- b. Average retirement age — 62 years in 2013 and 2012, respectively
- c. Investment return rate — 5.25% and 4.65% for 2013 and 2012, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

	2013	2012
As of December 31 (end of Plan year):		
Actuarial present value of accumulated vested benefits:		
Participants/beneficiaries currently receiving payments	\$ 6,541,251	\$ 5,703,670
Other participants	<u>9,041,851</u>	<u>9,808,668</u>
Total actuarial present value of accumulated vested benefits	15,583,102	15,512,338
Actuarial present value of accumulated unvested benefits — active participants	<u>101,445</u>	<u>166,494</u>
Total actuarial present value of accumulated benefits	<u>\$ 15,684,547</u>	<u>\$ 15,678,832</u>
	2013	2012
For the years ended December 31:		
Actuarial present value of accumulated benefits — beginning of year	\$ 15,678,832	\$ 14,590,443
Increases (decreases) due to:		
Change in assumptions	(1,117,399)	1,208,987
Interest	705,389	760,276
Benefits accumulated — net	1,447,764	(383,234)
Benefit payments to participants or their beneficiaries	<u>(1,030,039)</u>	<u>(497,640)</u>
Actuarial present value of accumulated benefits — end of year	<u>\$ 15,684,547</u>	<u>\$ 15,678,832</u>

The benefits accumulated during the period are shown net of positive actuarial experience.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are shares of commingled trust funds managed by the Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were approximately \$46,800 and \$48,200 for the years ended December 31, 2013 and 2012, respectively.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 3, 2013, that The Scripps Pension Plan was designed in accordance with applicable regulations of the Internal Revenue Code. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

2013 Schedule SB, line 22 - Description of Weighted Average Retirement Age

A fixed population and the retirement rates described in the attached Actuarial Assumptions and Methods and shown below, were used to project the number of retirements per year for ages 55 through 70.
